

# Islamo Communists In Our Government

Today, God is sending a message to the people of New York City, whether or not Momdani wins the office of Mayor. Actually, the message is to us all.

If, by some miracle, the Islamo-Communist should lose, New Yorkers will have been given another chance. Ours is a forgiving God.

If, as everyone strongly anticipates, Zohran Momdani, the failed state representative of NY, only 34 years of age, wins, over 9% of the city's population has VOWED they will move out. This, from a [USA Today poll](#), not exactly a conservative outlet.

Momdani, who represents a religion that wants to take America down, may well become the mayor of 8,258,000+ people in the largest city in America. God will make us work harder for that forgiveness, I feel. You see, one of Zohran's donor thinks he, himself is a god...and "there shall be no other."

Zohran will be old enough to run for POTUS by the end of his term, should he win.

I dub him failed because, according to the Freedom Index, he has only voted once FOR something concerning our Constitution,

and that was to remove all references to Convention of States. I actually agree with his vote on that one..., but he will not fail in destroying America's largest city, on his way to more, if allowed.

NYC is over twice the size of Los Angeles (3,820,000) , and four times, Chicago (2,665,000. Big cities are the center of the rot in America.

*As their citizens continue to flee, the rest of America must stand ready to teach them why they had to, and to protect the destination communities from blue thinkers, until the refugees can learn.* I've always thought that the right to vote should be suspended for a few years, for Blue- area escapees, and that they be required to take and pass a course as to what happened to their former homes and why. Certainly, newcomers from deep blue states must NOT be allowed to hold public office in their first years of freedom....

I know. Fat chance.

Momdani's rise to prominence is just the latest in the appearance of Muslims who are involved in our political scene. The citizenship of some is under question; recently Trump told [Omar, who married her brother](#) to gain US entry for him, to go back home. Democrats, who've denied this for years, must be practicing "taqiyya" quite often.

[82 Muslim candidates swept up local, state, federal and judicial seats in 25 states, a report from the Jetpac Resource Center and the Council on American-Islamic Relations \(CAIR\) found.](#) Maine, Illinois, Ohio and Texas all selected their [first Muslim state legislators.](#) Georgia now has the second-highest number of Muslim state legislators in the country with its election of its first Muslim women to the state senate and house.[Maine, Illinois, Ohio and Texas all selected their first Muslim state legislators.](#) Georgia now has the second-highest number of Muslim state legislators in the country with its

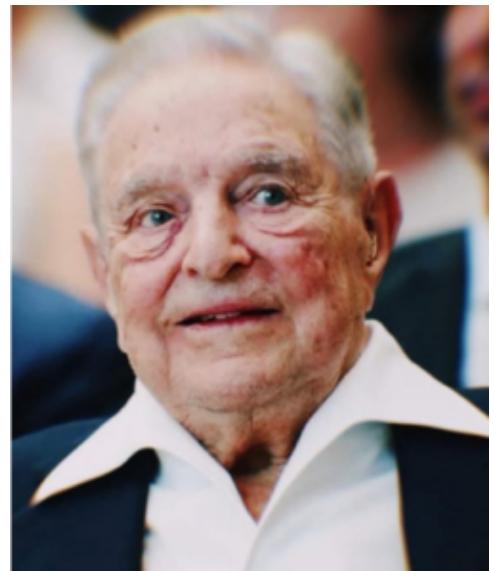

election of its first Muslim women to the state senate and house.

A far left organization, The Democrat Socialists of America, is one of the many that is behind their rise.

Of course, Zohran practices “taqiyya – lying” when he claims his was a “grassroots rise”. This lying is a required part of their religion, to protect themselves from the wrath of the truth, as it were. It is a crucial thing to keep in mind.

Zohran Mamdani's “grassroots revolution” was a lie. Campaign finance records reveal his supposedly working-class movement was actually powered by a \$2 million elite PAC operation funded by Silicon Valley billionaires, Hollywood celebrities, and out-of-state tech entrepreneurs—spending more than his entire direct campaign raised from actual voters.

Behind it all, or a whole LOT of this, is a naturalized Hungarian citizen named Georgy Soros. Born of a “non-observant” Jewish family in Budapest in 1930, he escaped Hitler by helping the Nazis to collect belongings from the Jews as they were being taken away. That little detail is “fact-checked” out of existence by the Left, but I found it in Georgy's own autobiography, which is apparently out of print. I never owned a copy, only borrowed it 20 years ago. Sorry I can't share the reference, but I will never forget what I read then.

From Budapest, Soros went to London, where he attended the London School Of Economics, then became a naturalized American citizen at age 31, in 1961.

His life-long goal/obsession is to take down countries. George Soros truly believes that he IS a god.

[He broke the Bank of England in 1992 by betting against the Pound.](#) He made \$11 billion dollars in one day doing that. Fascinating, nauseating story. If you don't know it, please get familiar with it. This megalomaniac is not done, even at age 95. He is betting against the dollar, too. Another story for another time.

[By July of this year, the NY post found that Soros has donated \\$37 million to Mamdani sponsors.](#) Chump change for him, but destroying NYC is a good step to destroying America, his fondest dream.

He seldom donates to candidates themselves, to cover up his exposure.

[Soros also has utilized USAID grants to destabilize India, Bangladesh and others,](#) Over the past 15 years, USAID granted more than \$270 million to organizations affiliated with Soros. [Here's the story of what and how he attacked the value of the currency of Thailand.](#)

He IS looking to break America. Do not doubt this.

You see, George Soros fancies himself as a god, another admission from his book, and believes he has the power and right to do whatever he wants. In his book, he admitted to "rather enjoying" it.

A human being of that mindset ( and with his vast net worth (est. \$7.2 billion +, after \$30+ billion in donations to his favorite causes) is a grave and present danger.

George Soros is behind the Democrat Socialists of America (and all those anti-American judges), the organization which has brought us Omar, AOC, Tlaib, Sarsour, Momdani and many others. He ALSO donates to CAIR, the Council on American Islamic Relations, founded in 1994, under the CLINTON presidency. Many Americans assume it was founded under the Muslim, Obama.

The religion that wants to take down America is a partner in crime with the Megalomanic, who is trying to do the same. Momdani is their latest weapon of mass destruction to date.

God knows, there will be dark times ahead. God will be sending them, I believe. to show us the errors of our ways.

I'll leave it here. We still have a slim chance that he will not win the Mayoralty of NYC. Prayers up. If he does, maybe God is trying to tell us something.

Blessings
