

# Islam's Onslaught of America: Creating Parallel Societies in America

## Part 3: Creating parallel societies

Because Muslims in America constitute an inconsequential minority of four to seven million in our country in 2017, most Americans don't "feel" the ominous effects of their violent religion. However, it manifests in every city where they grow their numbers. As their numbers increase to 20, 30, 40 million and beyond, their violence expands commensurately.

In Detroit, Michigan and Minneapolis, Minnesota police face "no go" zones like France, United Kingdom, Belgium, Sweden, Norway, Germany, Holland and Austria. In those places, the citizens of those countries dare not to enter Islamic enclaves or "caliphates" that endanger their lives.

Remember one aspect of Islam: it cannot and does not tolerate its followers to assimilate into any host country. That mandate cannot be broken for any Muslim under threat of death.

***Shalom Lewis spoke in Atlanta, Georgia recently. His words give horrific credence to our dilemma in America.***

"I speak of Joseph Conrad's sadly, cynical observation," said Lewis. 'The belief in a supernatural source of evil is not necessary. Men alone are quite capable of every type of wickedness.' And so, here we are in a place of unimagined chaos and cowardice, paralysis and brutality. The beast roams the earth; we are stymied, stunned and continue to fiddle."

Islam grows in America. This beast roams America in places like Philadelphia where Muslim women walk Market Street where Ben Franklin walked. Muslim women must cover their bodies in

black except for slits for their eyes. They remain “non-beings” in America for fear of their husbands’ vicious reprisals called “honor killings.”

“Men have authority over women because God has made the one superior to the other, and because they spend their wealth to maintain them. Good women are obedient. They guard their unseen parts because God has guarded them. As for those from whom you fear disobedience, admonish them and forsake them in beds apart, and beat them.” Quran 4:34

Caliphates like Detroit, Michigan become countries within our country with their own set of rules, laws and culture—all of it diametrically opposed to America’s Constitutional Republic.

Lewis said, “This is not a time for delicacy. For tiptoeing. It is not a time to neither parse words nor worry about offending someone with unfiltered vocabulary. Time is no longer a luxury we possess. Distance, no longer provides protection. We are being threatened like no time before, by an enemy obsessed with an apocalyptic end game that will bring only disaster. An enemy that worships savagery. An enemy that celebrates depravity. An enemy that glorifies the death of the young. □There has been a seismic shift in our world. We feel it. We see it. We know it. We dare not deny it. Pick up any newspaper on any day, the first page, the second page, the third page, the fourth page and beyond – – most of the articles are about radical Muslims, not just ISIS, immersed in a vicious culture of blood and slaughter.”

It’s amazing that hundreds of years ago, Europeans defeated the Muslims at the Battle of Tours in 732 A.D. If not, none of Europe would enjoy women’s rights, freedom of choice, freedom of speech or freedom of religion. Islam allows no choice whatsoever.

But today, Europeans invite the beast into their societies as well as Canada, Australia and America. No understanding of

the consequences! No forethought to the dangers! It's as if we lead ourselves to the slaughter without a whimper.

"But today, war has been redefined and relocated," said Lewis. "Geneva is finished. We are all combatants in the cross hairs. We are all on the front lines, like it or not. The battlefield has no boundaries and the war, no rules. The enemy targets deliberately, fiendishly, any place of innocence. All are vulnerable and so we must recalculate our strategy, re-examine our tolerance, re-energize our resolve and unequivocally identify the evil doers. Let us not be silenced by fear, by feckless goodwill, by reckless hope, by meaningless rhetoric. □ There are one billion Muslims in the world and authorities agree that 5 percent are committed Islamists who embrace terror and wish to see, by any means possible, the Muslim flag fly over every capital, on every continent."

Unfortunately, 5 percent of 1.5 billion equates to 50 million Koran waving, Allah Akbar howling Muslims planning to bomb us, slit our throats and create havoc in our societies. One look at Norway, Sweden, France, Germany (Berlin slaughter the week of Christmas) and UK sobers the most innocent optimist.

It only took 19 of Osama bin Laden's disciples to bring down the Twin Towers, plow into the Pentagon and crash a plane into Shanksville, Pennsylvania. Over 3,000 dead. Over \$10 billion in damages on that sad day. Nineteen Al Qaeda immigrants into America. Fifty million Islamists. Do the math.

When you look at the havoc the Boston Marathon bomber brothers wreaked on America, take five percent of future legal Muslim immigrants into America times the estimated 20 to 30 million expected to immigrate here within the next 35 years, good God, we face enormous consequences.

At some point, we must shut down all Muslim immigration before we lose control of our own country. They prove relentless, uncompromising and unyielding. No such thing as a "moderate

Muslim"! As their numbers grow, that 5 percent becomes unstoppable. No Western country will survive their birthrates and their culture.

Our country stands in the cross hairs of a multicultural nightmare bequeathing violence upon us as our Congress and presidents dump another 100 million legal immigrants onto this civilization within 30 years. We need to reduce all immigration to less than 100,000 annually and no more Muslims if we hope to survive the 21<sup>st</sup> century.

We citizens must stop kidding ourselves—we stand eyeball-deep in trouble.
