

Islam's Onslaught Of America: Language Defines A Society

Part 7: Importing endless foreign languages into America from the Middle East

Language defines a country. It delineates the “ethos” of an entire civilization. It creates the energy of communities and their citizens. Language expresses emotions, songs and understanding.

Language also causes separation, confusion, suffering and war. Different languages constitute different ethos, and how people and countries look at the world. Different languages create different

understandings.

As discovered via the Muslim invasion of Europe, one different language and ethos clashes with all Europeans. Whether you see Muslims living in the United Kingdom with English or Muslims living in France with French—you see fear, no-go zones, separation, riots and terror. All of it brought about by Muslims from the desert sands of the Middle East settling into the Western lands of green wilderness.

Notice you never see Americans or Europeans immigrating to the

land of Islam. Such an action leads to loss of individual freedom, honor killings, loss of women's rights and loss of religious rights. Multiculturalism cannot exist in Islamic-dominated lands.

As with recent horrific terror attacks in Paris, Nice, Berlin and elsewhere, Islam marches across the globe on a mission of conquest like nothing seen since Hitler's invasion of Europe and North Africa. Hitler used intimidation and weapons. Muslims use intimidation and terror via bullets, trucks and C-4 plastic.

Yet, Europeans continue their "let's be nice" approach to Islam. Even after the terror in Paris, France-Germany's Angela Merkel placated Muslims with such words as, "Islam belongs to Germany." If you asked any German on the street, you would hear, "Muslims are killing our country." In America after 9/11, Bush said, "Islam is a religion of peace." On the streets, "Religion of peace my rear end...they just killed 3,000 people in the New York Trade Towers." This weekend, Muslim Aashiq Hammad murdered five and wounded eight at a Fort Lauderdale, Florida airport.

In reality, those leaders who don't live in Muslim communities-don't feel the pain, the fracturing, destruction of their schools, loss of language, the honor killings, the FGM, the rapes or the loss of their countrymen's ethos.

In reality, Muslims bring their barbaric behavior to First World countries: "Individual Moslems may show splendid qualities. But the influence of the religion paralyzes the social development of those who follow it. **No stronger retrograde force exists in the world.** Far from being moribund, Mohammedanism is a militant and proselytizing faith." Churchill

That's the reality of what America and Western countries face in the 21st century. It's a mad-dog religion bent on

destroying everyone else as well as itself in the ultimate showdown of war.

Alexis de Tocqueville (1805-1859): "I studied the Qur'an a great deal. I came away from that study with the conviction that by and large there have been few religions in the world as deadly to men as that of Mohammad. So far as I can see, it is the principal cause of the decadence so visible today in the Muslim world and, though less absurd than the polytheism of old, its social and political tendencies are in my opinion more to be feared, and I therefore regard it as a form of decadence rather than a form of progress in relation to paganism itself."

Today in America, with four to seven million Muslims invading our shores, our communities feel the stress of language consequences in places like Eden Prairie, Minnesota. From November 26, 2014, USA Today by Greg Toppo "Anger, resentment over school diversity." Our US Congress sent 100,000 Somalia Muslims to the Minneapolis area. In 1998, Eden Prairie enjoyed a full American community. Since that time, Muslims chased out Americans, overwhelmed the schools and destroyed the coherence of the community. Since they lack any usable skills, most subsist on American taxpayer welfare.

Last fall, the superintendent of the school system in Prairie and much of the staff quit in exasperation. As you know, nearly 100,000 Somali Muslims now operate in the Minneapolis area where rapes, crimes, drug trafficking, brutality, shoplifting and worse blacken the area.

Hyper-multiculturalism cannot and will not succeed in America. It's already busting us up in Ferguson, Missouri as well as Detroit, Chicago, Miami and Los Angeles.

Here in my own city of Denver, Colorado, our kids face 172 different languages in their classrooms. It's a nightmare for American kids and the immigrants. Every American faces these

kinds traumatic conditions bestowed up on us by our U.S. Congressional members. But of course, they can't "see" it or "feel" it as their kids attend private schools.

Journalist Eliana Benedor said, "To the great detriment of countries as separate entities, those leaders, in the name of globalization, are subtly removing national identities, traditions, mores and, what is worse, they are lethally endangering the future of their countries. When all is said and done the truth is, however, that the Paris march turned to be a manipulative step to assuage the masses, under the banner of the so-called "unity."

"While condemning the attacks, even President Hollande and his Prime Minister Manuel Valls, rejected that the murderous massacres by Islamists Jihadists have anything to do with Islam."

What that means: we must not be confused that the terrorists espoused anything to do with Islam. But in fact, Islam creates every terror attack in the world today.

It illustrates "cognitive dissonance" or the "intellectual denial of reality."

Western Islamic scholars show that 60 percent of the Koran points to violence and terror to subjugate all non-believers.

Thus, language drives terrorists and language drives ethos and language drives Muslims to war against Western thought and freedom.

Benador added, "On their part, Muslim terrorists proudly show their allegiance to the Koran as the source for their inspiration. It is their prophet who instructs them, unambiguously, what to do, to whom, when, where and how.

Western politicians may want to whitewash Islam but their efforts cannot erase the facts and the abundant videos and messages on the internet, profusely distributed, left as

testimony of their deeds.”

The sad fact remains that Sweden, Belgium, Norway, Holland, as well as France, England and Germany opened their arms to Muslims. They pay an extraordinary price today and more later as their countries and languages fracture.

“Now, they are paying a very heavy price: Hundreds of no-go zones throughout Europe, rapes, honor killings, constant threats to their local communities, crimes, and more is happening under the watchful eyes and complicity of their “cognitive dissonant” governments,” said Benedor.

If we kill our language, we kill our country. Muslims continue their quest to accomplish that feat. We face the “Arabic language” eroding our country if we fail to stop Muslim immigration onto our shores.

The warlord Mohammed continues his carnage into the 21st century with the hands of 1.5 billion of his followers.

If we fail to stop mass immigration, France’s nightmare becomes our future.

I hope this series drives you to action for your kids.
