

It Takes a Bunker To Hide the Evidence

Obama's \$850 million "Presidential Library" Represents His Term In Office: Ugly and Secretive

Hail the Obama Presidential Bunker! Slits for windows and lies inside.

The construction of a Presidential library is a tradition for outgoing US Presidents, so that history will recognize what went down in their terms.

us EXACTLY what Obama was and did, so it is very aptly designed. We're learning more of that truth by the day.

I have to wonder if this is just “Freudian” somehow.

I’m personally impacted by something else, as well, so allow me a moment to share.

When Barrack Hussein Obama left office, over eight years ago, I wrote a column, describing what I felt was his legacy. I said that, with the huge amount of secret and dishonest back-room dealings marking his Presidency, his ‘library’ should be housed in a concrete bunker with slits for windows, so that no one could really see what was inside. I also mused that the contents would be sealed so that no one would be able to know the truth.

I’m still stunned at what I saw this morning online. The building looks almost EXACTLY AS I’D IMAGINED IT!! Dark and defensive, yet somehow offensive as well. With slits for windows even!

Save for being larger than I’d imagined, this is the exact Obama Library I’d conjured up. It feels almost eerie . . .

Ok, I’ll park it now. Thanks for letting me share that with you.

Citizens are not happy about this library, either. Several acres of a formerly lovely park in Chicago were plowed under to house this monstrosity. The \$850 million desecration of Jackson Park, on the city’s south side destroys some of the outdoor space that is so scarce in South Side. Precious green space was destroyed.

That part of Chicago is, for those unfamiliar with the once functioning city, an area of mostly very modest dwellings and high crime. The University of Chicago and the once-wealthy community of Hyde Park, are the only two things that dilute the aura of a struggling area. It was Bammie’s ‘hood – the fancy part, that is. His home was in Hyde Park.

Today, of course, all of Chicago is struggling, thanks to Barry's gang. And he's hanging out with his millions in Hawaii.

But, back to the "library". Is this structure a missile silo? A concrete fortress built specially for defense?? What is inside that needs such massive and truly ugly protection???

I'd LOVE for you to share your thoughts on this with me.

As it turns out, OF COURSE THE PROJECT IS WAY OVER BUDGET AND PAST SCHEDULE. That much also represents his Presidency very well.

The more we learn in the coming days and weeks, the more the world will understand the truth of the image presented by this eyesore. If I can dig up what and when I wrote about it nearly a decade ago, I'll post it to share.

In the meanwhile, we wait for more evidence of the dealings of a criminal mastermind, Communist/Islamist, posing as our POTUS. Soon the world will understand the Bunker-library. I'm still blown away at the accuracy of its design.

No, I won't be lining up for tickets.
