

# Italian Mafia vs. Hamas

By: Devvy

October 12, 2023

Before anyone gets upset, my mom's parents came over on the boat to Ellis Island from Palermo (Sicily), Italy. My grandparents waited three years and entered this country legally. My father's parents came from Munich, Germany; they waited one year and came here legally. The Italian Mafia in Italy was greatly feared and my Sicilian grandparents did not want their future children raised living in fear.

You see, the Mafia over there (which eventually made their way to America) were merciless if you were in the cross hairs. But the one thing off limits by all the Italian Mafia that flourished both in Italy and America: You do not kill wives, mothers, grandmothers, children, babies.

The Italian Mafia were vicious. Killing members of a different 'family' in cold blood meant nothing to their Dons and the murderers who did the bidding of the 'godfathers'. They were feared, make no mistake about that. Hamas and what they've done since the **unprovoked attack** against Israel on Oct. 7, 2023, is beyond heinous. Compared to Hamas, the old Italian Mafia look like 'gentlemanly' killers. For the psychopaths who belong to Hamas, the most vulnerable are just another target for a bullet. After all, they're just Jews.

People keep saying, what kind of animal does that? They don't. Animal packs like wolves, hyenas and lions kill to eat and feed their young. Those Hamas terrorists like all

terrorists (ISIS, Hezbollah) are gutless cowards who serve Satan. Their pedophile “god”, Allah, will not save them. **The wrath of the one true God of the Universe will send them to the bowels of Hell to burn forever for what they’ve done.** Of that I have no doubt whatsoever.

[40 baby bodies found in Israel, some with heads chopped off by the barbarian HAMAS](#) – “Fox News reporter details the harrowing discoveries of decapitated babies found in their own homes after being savagely killed by Hamas fighters who stormed their homes in the Kfar Aza kibbutz. The Israeli soldiers discovered families butchered altogether, women raped, children killed while playing, babies with heads cut off” Hamas beheaded babies!”

Maybe they’ll be released or used for bargaining chips.) // [Israeli couple murdered by Hamas hid their twin babies – who were found unharmed 14 hours later, Oct. 9, 2023](#) // [Venezuelan Dictator Nicolás Maduro Accuses Israel of Committing Genocide in Gaza](#) – Claims Jesus was ‘Palestinian’ a Name Not Used Until 100 Years Later(VIDEO)

Israel has the right to defend its land and people. [At least Netanyahu warned the people of Gaza](#) (Short video: ‘Get Out Now’: Angry Netanyahu Breathes Fire; Issues Chilling Warning To Gaza After Hamas Attacks)

Every atrocity you can imagine has been done by Hamas since Oct. 7, 2023.

[Babies beheaded, 40 children shot dead in a single settlement, and families burnt alive by Hamas... SAM GREENHILL meets survivors of the death squads and hears their stories of unimaginable horror](#), Oct. 10, 2023 – THAT is what’s being celebrated by rectum feeding parasites aka, the “Squad” and pro-Palestine useful fools here in America and other countries.

The so-called “Squad” in Congress hate Jews and Israel. Palestine is the most wonderful place on earth! Muslim from Somalia, Ilhan Omar, who married her brother while the gutless “ethics” committee in Congress has looked the other way. Another Israel hater, Ayanna Pressley, Muslim Rashida Tlaib and of course, probably one of the most ignorant people to ever serve in Congress, Alexandria Ocasio-Cortez. [Democrat Rashida Tlaib Displays Palestinian Flag Outside Congressional Office](#), Oct. 10, 2023. Yeah, big smile on your face while 260 innocent young people were gunned down at a peace festival.

It is beyond disgraceful those rectum feeding parasites serve in the U.S. Congress. Since day one they have made it very clear they want Israel wiped off the map for their precious Palestine. *Have any of those rectum feeding parasites been to Gaza?* Think it’s some sort of paradise under control of Hamas? Here’s someone who actually went there:

[Inside the blighted enclave of the Gaza Strip where Hamas rules with an iron fist](#) – “Yet few other things are so palatable in this miserable, fenced-in enclave by the Mediterranean, just 25 miles long and seven miles wide at its maximum point, which is home to more than two million people.

“It is one of the most depressing places I have visited. Israel seized the Strip from Egypt in the 1967 war, but unilaterally withdrew all its troops and settlers in 2005 in a bid to improve security. When Hamas won a shock victory in elections the following year, it forced out its rivals to take total control of the terrain.

“This sparked restrictions on the movement of goods and people by Egypt and Israel, leaving residents trapped under the hardline group renowned for repression and violence against its own people as well as the use of sickening terror against foes.

“Gaza has constant power cuts, dismal public services, dirty water and a crushing lack of jobs. Most of its energy comes from Israel – but even the small contributions from Gaza’s single power plant, like all private generators, rely on imported diesel. Much of the struggling health services depend on the United Nations and charities. Patients in need of more serious treatment require permission from Palestinian and Israeli officials to travel outside the Strip, which is ringed with 20ft fences, motion sensors, radar and cameras.

“But the most critical shortage here is of hope. This is one of the world’s most densely populated places and has one of the youngest populations – yet more than two-thirds of young adults are unemployed, while eight in ten residents rely on external aid.

“Although tens of thousands of Palestinians used to leave Gaza to work in Israel, the border was sealed after the Hamas takeover, so an entire generation has grown up never able to leave the Strip and never having met an Israeli. This all makes it fertile ground for Hamas to find ‘martyrs’ for its twisted cause, especially amid the trauma of living under frequent attack and bombardment.

“Hamas developed an extensive network of tunnels to smuggle in goods, but these are targeted by Israel because they have been used also for missiles and weapons. It is little wonder that past polls have found half of Gazans want to leave this blighted place – and no surprise that it was the source of the latest explosion of hatred to stain this turbulent region.”

The hatred of Jews and Israel has been on display around the

world since that heinous attack: [The Enemy Is Inside the Wire: Palestinian Student Group Announces Pro-Hamas 'Day of Resistance' Rallies at US College Campuses on Thursday](#), Oct. 10, 2023 // [Palestinian Sympathizers in Australia Chant Antisemitic Slurs "F-k the Jews" and "Gas the Jews" in Front of Sydney Opera Following Hamas Massacre \(VIDEO\)](#), Oct. 10, 2023 // [Saudi Crown Prince Defends Palestinian 'Legitimate Rights' After Jihadi Carnage in Israel](#), Oct. 10, 2023

[TERRORISTS UNITE: Black Lives Matter Posts In Support of Hamas Savages, Calls For Hamas-Style Decolonization of America](#), Oct. 10, 2023 – Disgusting Black Lies Matter propaganda.

You've probably seen videos of Hamas terrorists coming in on paragliders opening fire and murdering more than 200 innocent Israeli's. Another 260 at that peace festival. Psychopaths.

On Oct. 11, 2023, I received email from a man with this headline: **Kaminski: Cure for the curse – Just imagine. A Jew-free planet.** The email contained a box with a quote by Menechem Begin, deceased former PM of Israel: *"Our race is the Master Race. We Jews are divine gods on this planet. We are as different from the inferior races as they are from insects. In fact, compared to our race, other races are beasts and animals, cattle at best. Other races are considered as human excrement. Our destiny is to rule over the inferior races. Our earthly kingdom will be ruled by our leader with a rod of iron. The masses will lick our feet and serve us as our slaves."*

The only problem is Begin never said such ugliness. Chasing down the rabbit hole, that lie-quote originated back in 1982. Accuracy and verify is of paramount importance. Apparently not to those who will grab anything to further their hate-filled crusade. My dear friend, Harvey Gordin who passed away in 2012 was Jewish. He and his wife lived in Phoenix. Raised Bouvier des Flandres they showed at Westminster Dog Show. People with big hearts and absolute love of America. Should

they have been murdered to help further a world without Jews?

Where's all that tolerance and love by alleged Christians? We reject hate! No, you are dead souls who feast on hate.

Or another couple I know and for privacy I won't use their names. He who served more than 20 years in the Marine Corps, married to his wife for over 40 years, pays his taxes, works tirelessly now trying to educate Americans about the big picture of world government – should we kill him, his wife and their two very patriotic children who are all Jewish to help further a world without Jews? How about a world without Catholics? I'm a devout Roman Catholic but stopped going to church when Vatican II was implemented; I was 14 years old. No question the current pope is a Marxist through and through, so let's rid the world of Catholics. Does anyone smell the stench of the Nazi Party?

[Turkish President Erdogan on Tuesday accused the United States of planning to "carry out massacres in Gaza"](#) after Hamas terrorists ambushed Israel over the weekend. The US's so-called "NATO ally" Turkey is once again siding with Iran's proxy army Hamas. More than 1,600 Israelis are dead and many have been taken hostage by Hamas terrorists. Hamas is threatening to execute hostages and post the killings online."

Americans are being held hostage. At last count 22 dead, more than two dozen still missing. On October 8<sup>th</sup>, the impostor president, Mr. Sniffer Joe Biden and his elder abuser wife, Jill, lived it up at the WH for a barbeque and live music. While Americans were being murdered and taken hostage. Lord in Heaven how the world must be laughing at us as they observe an obvious Alzheimer's victim mumble and stumble around. On Monday the 9<sup>th</sup>, Biden closed up shop for the day at 11:45 am and shuffled off for his favorite ice cream cone while Americans are being held hostage by Hamas savages.

As I write this, families of Americans taken hostage haven't

been contacted by anyone in the illegitimate 'Biden administration'. That's because none of the incompetent clowns like Secty of State, Antony Blinken, knows what to do.

There's a ton of articles slapped up on the Internet that Netanyahu allowed the attack to happen because he's having serious political problems. How could Mossad miss the planning of the attack? Oh, they didn't, they wanted it to happen. *All speculation at this time but people will believe it as fact posted on some web site they like.* Asking questions is what we do all the time. Larry Johnson is an excellent investigative journalist. He makes very good points in his Oct 11<sup>th</sup> column: [Understanding Israel's Intelligence Failure](#) – Chats With Stephen Gardner And Michael Savage – “There is a meme circulating accusing Bibi Netanyahu of having advance knowledge of the Hamas attack. According to this narrative, Bibi let it happen, believing it would be Israel's 9-11 and that he could rally support for this divided government. I don't buy it. Why?” Rest at link.

[Egypt intelligence official says Israel ignored repeated warnings of 'something big'](#), Oct. 9, 2023 (Bold is mine) – “We have warned them an explosion of the situation is coming, and very soon, and it would be big. But they underestimated such warnings,” the official, who spoke on **condition of anonymity** because he wasn't authorized to discuss the content of sensitive intelligence discussions with the media, told The Associated Press. As to that allegation, Rear Adm. Daniel Hagari, the chief military spokesman, acknowledged the army owes the public an explanation. But he said now is not the time. “First, we fight, then we investigate,” he said. Some say it is too early to pin the blame solely on an intelligence failure.”

Our last legal war, U.S. Constitution, Art. 1, Section 8: Congress has the power to declare war – was following the attack on Pearl Harbor. Netanyahu didn't just decide Israel is going to war. We are going to continue to see live coverage, videos and print reports from Israel. This is a very dangerous powder

keg situation over there. One thing I can tell you with certainty: **This would not have happened if President-Elect Trump was in the WH.** Four years of relative peace over there. He took out Qassem Soleimani on Jan. 3, 2020. A sub-human terrorist. Iran pissed their pants, beat their chest and then shut up. There's one other terrorist who needs to be taken out but that's for another column.

**What WE need to take very seriously are terrorist cells already in this country.** This is true because I have told many people over the decades. In 2001, my late husband and I still lived in Sacramento, CA. Two days after 9/11 while getting my hair done, Karen pointed to another hairdresser (I don't remember her name) and conveyed this:

She lives in an apt. Every time going to get mail, she walks by a ground level apt that's virtually empty. Except for a half dozen fax machines, several phones on the carpet, boxes which she could see when the apt door was open and the window. Constant traffic by what looked like several males from the Middle East. The morning after 9/11, they were gone; management told her they just up and left during the night. They only lived there for three months.

I told Karen to tell her to call the FBI now so they can print the apt before management does. Our southern border is dangerously and foolishly wide open. We *know* Border Patrol has detained huge numbers of Middle Eastern males on the terrorist watch list over the past couple of years. What about the ones who aren't caught? **This is no conspiracy theory, it's dead serious.** [U.S. Senator Identifies 'Gravest Terrorist Threat' to America](#), Oct. 11, 2023

"The report explained since fiscal 2023 started last October, U.S. Border Patrol agents on the southern U.S. border have caught 151 non-U.S. citizens who, after being processed, "were determined to be on the FBI's terror watch list for being a terrorist or affiliated with someone who was."

Remember the video of four young males each with two horses, one horse each loaded down with AR-15's and AK-47's? Caught on DHS cameras who did cross over. Where are they?

*No, it doesn't mean causing violence against someone from the Middle East. Someone innocent who came to America legally to be part of the American dream. No question the FBI, CIA and the joke called Homeland Security are on high alert but they can't be everywhere and see everything. Had I been the hair dresser mentioned above seeing what she saw at her apt. complex, I would have called the FBI.*

It's not unusual or illegal for 2-3 guys – if management allows it – to share an apt to cut down on rent. But, one would expect to see a TV, couch, the normal stuff where people live. Maybe open door while watching football with guys putting down a few brews. *Not what she saw.* Males skulking around who suddenly disappear during the night on 9/12/2001.

I've written it before and I'm writing it again: There is no doubt in my mind terrorist cells are in this country just waiting to hit soft targets perhaps all at once or even something as horrific as blowing up an Amtrak train. *We just don't know but we should all be vigilant.*

If you don't own a gun, I encourage you to purchase one that's right for you. Take safety classes. Go to a gun range on a regular basis (which I should be doing....) I know, it's difficult in some states but those Hamas beasts simply broke into homes and murdered whole families. If those innocent parents of the twins mentioned above owned a gun or two and

heard what was going on outside, they might have stood a chance.

As for Israel, many articles Israeli citizens cannot own firearms is simply not true.

[Fact check: Is Israel a model when it comes to guns?](#)

JERUSALEM – “Nir Barkat, the mayor of Jerusalem, knows a thing or two about taking on assailants. A former Israeli paratrooper with combat experience, he packs a Glock 23 semi-automatic pistol as a civilian. In 2015, after a series of stabbings in the city by Palestinians, Barkat urged Israelis with licensed firearms to carry them at all times, saying they should think of it “like military reserve duty.”

“In Israel, armed guards stand outside movie theaters and shopping malls, and off-duty soldiers go to the beach or the bar with an M-16 slung over their shoulders. The seeming availability of guns, savvy intelligence gathering and the can-do, tough-guy image of Israelis like Barkat have impressed some American gun-rights advocates.

“Indeed, after some of the most horrifying school shootings in the United States, gun-rights supporters like Mike Huckabee, a former governor of Arkansas, and Wayne LaPierre, executive vice president of the National Rifle Association, have cited Israel as a potential model.

“In fact, contrary to the advocates’ arguments for more guns, Israel has strict gun control. Those citizens who are licensed to own a personal weapon have generally undergone some military training. Guns are not seen as a hobby, but as a tool for self-defense, and if necessary, to help protect others from terrorism. And while Israel has sophisticated policing and intelligence aimed at stopping terrorism, it has little experience with the kinds of civilian mass shootings that have

become the source of anguished debate in the United States.

“Even Barkat, who once told CNBC’s “Squawk Box” that Americans could benefit from armed civilians and “smart” profiling, sees a big difference.

“More than half a million Israelis have become eligible to receive gun permits under a major reform of the country’s firearms rules, with the stated goal of improving the immediate response to terror attacks. Under the new rules, which went into effect immediately upon being announced Monday, hundreds of thousands of veterans of the IDF’s infantry units will be eligible for gun permits, along with police officers who received the equivalent training.

“Additionally, army officers ranked first lieutenant or higher, as well as non-commissioned officers ranked first sergeant or higher, who carried a weapon during their military service will no longer be required to return their guns and permits when they are discharged from reserve service, and will be allowed to ask to keep carrying them.”
