

It's Crazy Out There in America Today: It's the Little Things Killing Our Country

Part 2: Displacing our poor, depressing wages, mixing incompatible cultures, drug addiction, anchor babies, illegal immigration

One reader remarked about my observations in Detroit, Michigan where 300,000 Islamic immigrants have taken over the city's housing, schools, language, signage in Arabic, welfare systems, dominating school boards and just about everything that once was an All-American City.

He said, "I had no idea about what was happening in Detroit."

That's right. Very few Americans realize what's happening to our country's demographic changes. Unless you're right in the middle of what's happening! Take for instance, Minneapolis, Minnesota--some "Woke" bureaucrat in Washington D.C. decided that Minnesota was "Too White", so he imported 125,000 Somalian refugees into that "Too White" city.

Result: Schools trashed. Academic standards obliterated. Multi-million-dollar EBT (Food stamp cards) scam that netted millions for the refugees. Crime off the charts. Whites fleeing the city to escape the carjackings, the crime, their

schools being destroyed, shoplifting, et al. Essentially, everything that has made Somalia a failed nation is now a central aspect as to why Minneapolis is no longer functioning in the Somalia dominated portion of the city that is totally enclaved because those Somalians don't integrate with White People.

What's crazy in America in 2023?

Look these figures up. We suffer 540,000 homeless Americans, but no one in Washington D.C. has solved THAT problem. They inhabit the streets, under bridges, near schools and within neighborhoods across the entire of America. Instead of solving our own homeless problems, Joe Biden allowed another 260,000 homeless illegal aliens into the USA over our Southern Border in September for a new record of illegal border crossings. That's on top of the 8,000,000 illegals he imported in the past 33 months. That's on top of the 124,000 Afghanistan refugees he flew over here in 2021 that are living on our military bases at a cost of billions since he made his incompetent and insane withdrawal from Afghanistan.

Anchor Babies Galore!

Why would you, the American taxpayer choose to allow 300,000 pregnant women to cross over our borders annually to birth their "instant citizenship" babies at your expense and then, remain here so you could feed her and her child, educate that child, house that child and care for that child for the next 18 years? Why haven't those legislative geniuses stopped that 14th Amendment loophole 30 years ago? You've paid out trillions for other countries' baby boom.

Why would you like to pay for seven out of ten African-American babies being on welfare without a father in the home? Surely some bright light in Washington D.C. would see that nightmare and move to solve it in our country.

Instead, Joe Biden just asked for \$106,000,000,000.00 (billion) of your tax dollars to protect Ukraine's and Israel's borders, but not America's borders. All the while, we're \$33 trillion in national debt that ultimately will bankrupt our entire monetary system.

My two U.S. Senators Bennet and Hickenlooper, along with Governor Jared Polis of Colorado support open borders along with my House Member Brittany Pettersen. But they don't have any solutions for 10,000 homeless in Denver, nor the added 3,000 illegal aliens homeless now staggering through the streets of Denver: starving, drunk, drug-addicted, illiterate, pregnant, unskilled and totally unfit to benefit our economic system.

What about Islamic Detroit?

Over the weekend, a 40-year-old female Jewish leader in Detroit, Michigan, Samantha Woll suffered an ugly stabbing death at the hands of an Islamic follower. She represented the last Jewish Synagogue in Detroit. Just like the Jews in Europe where Muslims have become dominant, Jewish people must flee the area for their lives. Well, it's now here in the USA along with Honor Killings and Female Genital Mutilation of little girls. Both crimes against humanity, women and a free society. Are we stopping it? Answer: not a chance. Once they enclave in our cities, they may continue their barbaric Sharia Law practices.

What About America's Massive Drug Addiction Death Rate?

The Center for Disease reported 110,000 drug overdose deaths in 2021. It reported 70,000 drug overdose deaths in 2022. What do you think it will be in 2023?

What do you expect? Joe Biden's open-door policy to drug cartels is working, BIG TIME! It's killing our young with heroin, meth, cocaine, fentanyl and just about any other drug to mess up a kid's mind and body. Are there any

solutions? Of course: close the borders with the U.S. Military or National Guard to stop the importation of millions of pills that are killing our citizens. Will Joe Biden and/or his handlers do it? Answer: of course not! Somebody is making a lot of money. Heck, Joe's son Hunter is a big-time drug-addict. He's probably got a hand in all of that, too.

If you take one look at Sweden and/or most of Europe, you see the results of endless third world immigration. It's ugly, culture-destroying, language-destroying and totally unsolvable in the short and long term.

If we keep moving along this path, there's no way we're going to survive our forced "multicultural-racial-religious-opposing world view" nightmare provided by our 535 Congressional Critters and our Dementia-ridden President Joe Biden.

Just one look at all the pro-Hamas youth and Muslim rallies in the past two weeks show you that we've got a lot of people supporting the mass slaughter of Jews both here and in Israel. It's pretty sickening, but they are here in America.

The fact is, we Americans are methodically being replaced. Our schools are being downgraded to the lowest common denominator of third world intellects or lack of intellect. Do you know why third world countries are poor, failing, starving and miserable?

Why do you think that all of Venezuela's citizens are moving to America? In September, out of 260,000 that crashed our borders at the invitation of Joe Biden, the Venezuela illegals outnumbered everyone else. Why have over 15 million illegal aliens from Mexico already taken up residence in America? Why would all of Somalia, Congo and Sudan move here in an instant? Why are Indians chain-migrating to America along with Chinese—by the millions?

What do they bring with them? Answer: every aspect of their failed countries! Do you see any Somalians in Minneapolis

becoming the new Einstein's of the 21st century? Do you see all those Muslims in Detroit honoring Old Glory? Do they honor our laws by stopping FGM and honor killings? Do they honor women as equal? Answer: FAT CHANCE!

If you think it's "crazy" in Israel or Ukraine right now, just wait a few years as we keep importing "crazy" into America. The Islamic imams in Sweden have already bragged that Sweden will become the first Islamic State in Europe. They will outnumber the Swedes within a few decades because of their screaming birth rates.

For this journalist, I do not understand why so few in D.C. understand our future. I don't understand why they can't see what they are doing to America. Even worse, like that man who wrote me from Florida, he didn't "see" what's happened to Detroit.

For sure, if you're alive in 2050, you WILL see the result of mass legal and illegal migration into the USA. We most certainly will devolve into a third world country full of homelessness, poverty on multiple levels, malfunctioning cities, schools that no longer educate, loss of the rule of law, loss of standards, lack of educated citizens, and unsolvable problems with irreversible consequences. Oh, that's already upon us! Just one look at LA, Chicago, Detroit, Miami, St. Louis, San Francisco or NYC shows you it's already here.
