

# It's Time to Stop Drug Traffickers from Killing Our Kids

You can bet that the entire world holds its breath as to the “cease fire” with Hamas and Israel. The Western world feels the heavy weight of endless wars going on in Gaza and Ukraine. So much death and suffering! So much destruction! So many lives wasted. So much needless pain suffered by so many mothers and fathers.

“Thomas Jefferson believed the United States should avoid active involvement in European wars, viewing them as a result of Europe’s distinct political interests, which he felt were different from America’s. He saw European conflicts as a cycle of “eternal war” that expended the people’s energy and resources on destruction, while America could focus on its own internal improvement and cultivate peace with all nations. He also stated the US should maintain neutrality, but still uphold its rights and treat belligerent nations with “justice and innocent kindness,” as detailed in his principles for neutrality during the Napoleonic Wars.”

That statement can be applied to the Middle East. Islamic followers love to fight, kill and create a bloody trail ever since the 6th century when their prophet created that violent religion. You might wish that the Dali Lama was their prophet, instead of a blood thirsty savage like Muhammed. But all

religions reflect their location, their IQ levels, and their cultures created by their certain tribes.

Since you may read everything about the “truce” in Israel, let’s discuss what’s going on in the United States when it comes to “war.”

In the past 30 years, hundreds of thousands of American kids have been killed by overdosing illegal drugs. It’s much more if you look back to 1970 when Nixon started “The War on Drugs.”

“In the last 30 years, hundreds of thousands of drug deaths have occurred in the USA, with nearly 841,000 from drug overdoses between 1999 and 2020 alone. The rate has increased significantly, with 91,799 overdose deaths in 2020 compared to 70,237 in 2017, and prescription and illicit opioids were responsible for over half a million of these deaths between 1999 and 2020. Since 1970, well over several million Americans have lost their lives to drugs.”

If one of your family members suffered that death count, you’ve got some skin in the game. There is no difference from dying in a war as with dying with drugs. You’re dead.

Is President Trump’s bombing of those four drug boats speeding toward America’s shores a good thing? Answer: YOU BETCHA’!

You better believe that after four boats got bombed into Davey Jones’s Locker, there won’t be any more drug speedboats hauling more deadly drugs across the Gulf of America. Heck, I can’t help but cheer Trump and Secretary of War Pete Hegseth for having the stones to send a harsh message to drug traffickers.

Same with what they did to Iran’s nuclear program!

Additionally, Trump secured our borders from massive drug infusions by MS-13, Sinaloa Cartel, and another dozen minor drug cartels allowed to operate across our borders for the

past 30 years.

You probably watched, as I did, those drug speedboats getting blown to bits. It sure sent a message. My bet is, we won't be seeing any further speeding drug boats trying to reach our shores. Think of all the American lives saved. Think of the hundreds of families that won't be attending funerals of their children. Think of all those drug dealers who will be out of business in our towns, cities and schools across America. Instead of drugs, our kids will be playing sports, music, dancing, creatively living their lives...or at least have choices to be alive.

While I am at it, what about Trump naming Antifa, Muslim Brotherhood, C.A.I.R., and Black Lives Matter—as internal terrorist organizations? Finally, we possess a president of America with a pair of stones that you don't want to irritate. He'll bust you and your organization's butts into prison.

Let's give a "shout-out" to Attorney General Pamela Bondi for her courage to bust all those crooks and liars in DC who used "law fare" to try to destroy Trump. Former FBI director Comey is a liar, cheat, thief and pathetic human being. U.S. Senator Adam Schiff is a disgusting liar. Not only is New York AG Letitia James a liar, but she's a fraud at the highest level in New York Politics. Same thing with Ilhan Omar, a Somalian transplant that needs to be deported for all her lies and especially, for her hate of America. Let's go after that Georgia AG Fanni Willis for her fraud, lying and cheating, plus using state money for vacations. Same with New York's biggest fraud, Alvin Bragg. What a crock of a human being.

We need to see our crooked elected leaders brought to justice. Can you imagine what a crook U.S. Senator Charles Schumer is after 50 years in Congress? Or, Nancy Pelosi? Or, Swalwell in Florida? Or, Rashida "Palestinian Muslim" Tlaib?

Guaranteed that none of them have been working for America's

best interests. In the future, we should not allow any immigrant to become a member of Congress. You must be born here, be a true American, and you love our Constitution. None of this garbage 6th century Sharia Law crap! If you don't like our U.S. Constitution, get your scrawny butt back to Africa or the Middle East where you'll be at home with people that believe like you.

And one of the worst, Zohran Mamdani is the biggest fraud we've seen in decades. He's an out and out Muslim-Communist-Democrat bent on destroying New York City. If you have read the Quran, it mandates that a Muslim follower can lie, cheat and steal to install Sharia Law into any country. You're seeing it in Europe, Canada, and now here in the United States. We should deport his phony rear-end back to Uganda where he originated. He's a fraud, pure and simple—and he does it with a smile.

For sure, I support sending every single one of those Antifa thugs to prison for a minimum of 20-30 years. Like the drug speedboats in the Gulf of America, just give Antifa thugs some really harsh consequences like an automatic 20-30 years in prison—and you'll see their numbers dwindle into a pool of crybabies.

In the end, we Americans have got to get back to supporting America. We've got to stand up for women's rights, girl's rights in sports, fair play among our citizens, support of our flag, support of our laws, support of our law enforcement, support of our troops.

Why is that? I don't see anyone taking a speed boat to get to "freedom" in Cuba? I don't see anyone migrating to China. I don't see anyone migrating to India. I don't see any Americans rushing to become citizens of Uganda.

Let's face it, there's nothing like the Good Ole U.S. of A. Whether you ride a Harley-Davidson, go golfing, go sailing,

sit in a rowboat to catch that prize bass, or you go for a peaceful walk in the woods, wear your hair long or short, sport a tattoo, ride your bicycle across the country, change jobs, choose your mate, choose your mode of dress, or just eat popcorn at the movie theater—you're damned lucky to be an American citizen.

Like Lee Greenwood sang, "God bless the USA."

Or, Alan Jackson sang, "Remember when." (If you've never heard this song, you've GOT to hear it. You will play it for the rest of your life.)
