

Last chance for prosperity, without slavery, or revolution

The title of this article says it all. This is your last chance to keep the freedom, prosperity and life style you now enjoy, if Donald Trump is not elected you will become a slave and lose everything resulting in a revolution with much death and destruction.

I have listened to Donald Trump's speeches very carefully and based upon my study he is 100% correct on his substantive issues, so I will not repeat what he has said. I will only list a few things that I don't think he has said that are very important.

Trump's major issue is his love for our Constitutional Government and Declaration of Independence. Anyone who opposes our Constitutional Government must also oppose Donald Trump and his followers. Leaders of the Liberal Progressive Communist Movement along with their ignorant brainwashed followers are enemies and traitors to this Republic. Most of the departments of the Government we see today are unconstitutional frauds and have been given unconstitutional powers by the traitorous officials in all three branches of the phony government. In 1913 the Progressives (Communists) gave us the Private Federal Reserve Bank, Income Tax, and Tax Free Foundations, among other things. To better perform Treason the "Administrative State" was implemented which allowed them to rule without the Constitution and gave us the Great Depression with another one well on the way today.

Under this Unconstitutional "Administrative Law" each department is run by an unelected bureaucrat with the full powers of an unconstitutional independent government, and the

people have no rights under the rule of law or the Constitution. Did you ever try to have a Public Official arrested?

The Rule of law is dead. The elites can do whatever they please. If the people object they are often shot, arrested, and framed with the result that the people are enraged and on the verge of revolt.

The Media, Establishments of both Parties, Academic Elites, Banks, and Large Corporations want to stop Trump and continue to impoverish this Country. These corrupt enemies of the Republic might have a remote chance to stop Trump from saving the people but it would be a Pyrrhic Victory because they could lose everything for their Treason including their lives.

When Donald J. Trump is elected he can do much more than he promised. He can END FEDERAL INCOME TAXES. or any replacements for them. He can replace the tariffs that made us great which will force return of manufacturing jobs. Most Federal departments are unconstitutional and must be terminated. All federal programs not authorized in the Constitution must be terminated with the exception of SS and Medicare insurance. Block grants of Available funds can be given to states to fund terminated programs.

The men in this country love women except when they act like stupid fools by being so anxious to believe everything they are told by Sec. Clinton and the Media. In fact men should avoid these Ignorant Communist women supporters of Clinton at all costs because they are just too stupid to associate with anyone, if you are really in love with one of them,. It would be better to give her a house and run like hell.

I don't think Donald Trump or any other man is perfect but I am convinced beyond any doubt that he can save this Country, your Family, your life and everything else of value to you. Doing away with the Income Tax alone will do wonders for your

life style.

If you elect the witch with a capital B you will suffer and lose everything. The patriots among us have already said they would exercise their Constitutional rights to stop the Treason.

It is the people's choice:
Prosperity –Slavery–Revolution
