

Lazy Wimps & Freeloaders Want A Free Ride From Patriots

My objective is to wake up the dependent ignorant, indolent and brainwashed fence sitting freeloaders .

Fence sitters are lazy apathetic cowards and union members would call them freeladers who expect a free ride from patriots which they are not going to get.

First, fence sitters are of no value to the Republic contributing nothing to their own survival or that of others. They refuse to actively support the Republic or sacrifice and stock up on arms, ammunition, emergency rations and supplies. These people are not real contributing members of society and can expect to suffer and starve when government dependency ends

Fence Sitters have no claims on working patriots nor should they.

It is difficult to have any sympathy for the many residents of the Communist inner-city plantations who only loot, burn, main and fornicate. They continue to elect corrupt leaders from their own group that insures them of a second class education, no skills, no employment, no police protection and dependence on a communist government as long as it lasts.

In truth the problem started in 1964 with the "Democrat Civil

Rights Act" (with help of Republicans). This gave teen age girls the opportunity to have independence, babies and a government check so long as they didn't keep the father around.

The result was predictable, 64% of blacks had single mothers, three times that of whites. Prior to this families of blacks and whites were similar.

Government programs from conception to resurrection and affirmative action have had a negative impact on minorities.

Residents of the inner-city plantations must somehow vote their incompetent and corrupt leaders out of office notwithstanding power, propaganda and brainwashing.

Without some catastrophic event, like a Great Depression, and one is on the way, I think change in the Democrat cities is impossible.

Inadequate education (brainwashing) in government schools (K-12) and crime are the most serious root problems for the poor in Democrat cities. But the Marxist universities are even worse when it comes to teaching Communism to students who can read and write, but not think. College students are not stupid but they are brainwashed, ignorant of reality, history and the Republic. I don't have figures to prove it but I think affirmative action had a very negative long lasting negative affect on meritocracy even in the Supreme Court.

The Parasitic Super Rich Ruling Class (PSRRC), wealthy billionaire families and their minions in woke corporations and government are responsible for the existing plight of the inner-city victims.

The PSRRC did this by violating these three major Constitutional laws, and others.

1... The PSRRC is subsidizing the Communist goal of dependency by funding all manner of unconstitutional welfare programs See Article I, Section 8, Clause 1 of our

Constitution: "To pay the debts and provide for the common defense and general welfare of the United States

2... The PSRRC using Unconstitutional laws is spending money from the treasury on illegal expenditures in the states. Article 1, Section 9, Clause 7 of our Constitution states "No money shall be drawn from the Treasury, but in consequence of appropriations made by law."

3... Only the legislature can enact laws, even the unconstitutional ones. See Article 1, Section 8, Clause 18 of Constitution "The Congress shall have powers to make all laws".

It would be improper for me to write a paper on this topic without discussing a sensitive subject that many think is the root problem.

Common law is based upon the bible and precedents which are in turn God's Laws in the Bible. Communists detest religion as do their many acolytes in the inner-city plantations. Without exposure to God's Laws they don't know the Common law or right from wrong, or don't give a damn. This is why many people are writing off this generation of young people under Communist control.

It is important that people know the difference between Common Law and Organic Law (Supreme Law of The Land, our Constitution et al).

Many people feel that lawyers are not really taught Organic Law in Law Schools. All of their education is on Common Law. When you observe the total failure of attorneys and judges to enforce Organic Law allowing the Republic to circle the drain you must agree. Either that or a large percentage of the legal profession are cowards or corrupt.

May God Bless You And Our Republic
