

Leftist Losers Deny God The Great Shamelessly Revere Him

Leftists throughout America are working feverishly to systematically wipe out the existence of the God of Abraham, Isaac and Jacob. They seek to place themselves in the position of a twisted government God of ignorance, oppression, tyranny, trauma and economic despair. The self anointed leftists do not want you to understand your inalienable rights which come from God. They include Life, Liberty and the pursuit of Happiness and or Property. Through leftist ideology the American black community reversed course from a majority upwardly bound population into a mostly self-destructive, incurably ignorant socially engineered community. As a result, many American inner cities devolved into hell holes of economic and moral depravity. Leftist politicians promised, "if you vote for me and I'll set you free."

Of course, via decades of programed indoctrination, government schools stupefied generation after generation of Americans who increasingly rejected intellectual prowess and moral decency.

As morality decreased and leftist based indoctrination increased our constitutionally enumerated unalienable rights have been consistently whittled away. That is why a Montana citizen was thrown in prison after the Environmental Protection Agency because he dared to construct two ponds on his property. He was so distraught, he died of a heart attack. Bold Christian ministers and the Founding Fathers led the Separation from England. They did so because of property rights abuses not unlike the one suffered by the gentleman from Montana who died, were often carried out for sport by governments who could because the people were either not armed or ignorant of their rights.

I find it amazing how men such as Benjamin Franklin and many

others of his time had moral fortitude and common sense. Thus, they recognized that living under tyranny should be done away with. Unfortunately, many Christian ministers along with most politicians today were not properly educated concerning morality. As a result, they are not disturbed by the tragedy of our unalienable rights being trampled on day after day. There is no broad based outcry against the massive ongoing slaughter of Christians around the world. This is far different from when the comparatively fewer six million Jews and one million northern Africans wiped out during World War Two.

Of course, by design the impact of Biblical truths have been minimized via indoctrination and now outright bigoted banning from most segments of an increasingly corrupt society. The Bible describes the power of words. That is why the leftist controllers of academics, many corporations, community organizations and even left leaning churches prevent the communication of Biblical absolute truths and principles. It has been said that an army moves on its stomach. I believe that society moves according to the words spoken within and over it. That is why "We the People" of God must unashamedly mainstream Biblical principles back into communication cycle of our republic. In addition, we must conduct a more knowledgeable and patriotic course of communications regarding America the beautiful. We are instructed to speak life over our lives, loved ones, health, goals, etc. Then by all means speak life over the United States of America. That is a good first step along with the wicked defeating words of prayer and declarations by those equipped to effectively communicate in such manner to render the works of darkness impotent. 2nd Chronicles 7:14 should be adhered to, because when you get down to it, we must humble ourselves.

Men such as Benjamin Franklin understood such matters and relied upon Biblical principles as guideposts in the foundation of our beloved republic. On June 6, 1753, Benjamin

Franklin wrote from Philadelphia to Joseph Huey: "I can only show my gratitude for these mercies from God, by a readiness to help his other children and my brethren. For I do not think that thanks and compliments, though repeated weekly, can discharge our real obligations to each other, and much less those to our creator. You will see in this my notion of good works, that I am far from expecting to merit heaven by them. By heaven we understand a state of happiness, infinite in degree, and eternal in duration. I can do nothing to deserve such rewards...Even the mixed, imperfect pleasures we enjoy in this world, are rather from God's goodness than our merit, how much more such happiness in heaven!"

How much better off would our republic be today, if leaders beyond the pulpit had such a mindset? God bless you Gob bless America and may America bless God.
