to·tal·i·tar·i·an·ism, /tō,talə'terēə,niz(ə)m/, noun, 1.a system of government that is centralized and dictatorial and requires complete subservience to the state.

Three years later, the facts are known concerning the plandemic and the over 17 million deaths following the experimental jabs (Leviticus 17:11; John 10:10).

We know this has been going on while simultaneously free speech was, and has been, illegally suppressed and censored by Big Tech at the direction of the federal government (Proverbs 17:15).

Right on que, Donald Trump, [I'm the father of the vaccine](#), said he is being promoted (by the conservatives-yesterday's liberals; Matthew 5:13) again to return into the position of president to finish what it is that he started (John 10:10).

“Before COVID ever happened,” says liberal evolutionary biologist Bret Weinstein to Tucker Carlson, Big Pharma figured out “how to portray a disease as more widespread and more serious than it was. It was excellent at portraying a compound as more efficacious than it is, safer than it is.”

That profit-building marketing scheme led to the distribution of a new and dangerous shot that led to hundreds of millions of injuries. Four years into the COVID “crisis,” people are now aware of the danger and are refusing to take the mRNA “booster” shots. So Big Pharma has found another way to increase profits – by getting the World Health Organization (WHO) to compel people to take the shots.

Joe Biden is about to sign American freedom away to an unelected, unaccountable globalist agency primarily funded by a billionaire who just happens to be heavily invested in pharma’s poison. Liberty Counsel is working with legislators to stop him.– Mat
