

Lies Of The Left, Part 1

When our nation was founded our Founders demanded that there be what we call transparency in the halls of government. To do that they gave us the 1st Amendment of freedom of speech incorporated with freedom of religion and freedom of the press. The reason for that is in their day the press could only report what the government, the king, said they could report. If the government was doing something that was detrimental to the people but benefitted the king, the king would not allow that information to be reported. The Founders believed that the people had the right to know everything that the government was doing.

We also must keep in mind that the Founders believed that we would always put godly men in places of authority and that these people would act with integrity. We have not kept that tradition. For many decades the press did report on what the government was doing in an effort to keep the government on the straight and narrow but around the turn of the last century we began to see the press go along with the progressive/liberal mindset and by the middle of the century most of the press was doing the bidding of the Democrat Party.

We now have a press and a political party that is doing all it can to deceive the American people about the true intentions of that political party. I won't beat around the bush about this and come right out and state that the political party is the Democrat Party. They are the party that fought against freeing the slaves, giving them citizenship, giving them the right to vote and is the party today that demands that they be able to destroy their children in the womb at any time for any reason and now even if a child is born alive in a botched abortion, they demand to reserve the right to let it die. ***"It's just heartbreaking. I was disheartened by the vote, 44 senators that voted against [legislation](#) that would protect***

babies who were born alive, babies that had survived an abortion, were outside the womb, and yet they were not willing to bring in the insurer under law that they would bring in the doctor's care," she said. "In years past, this is passed with unanimous consent in the Senate. So it really exposed the extreme position that the left is taking right now, that Democrats are saying they reject legislation to protect babies born alive." [1] The Democrats have even become extremely frustrated with the Republicans attempts to get a vote on this bill. *Democrat congresswoman Jan Schakowsky is exasperated about the fact that Republicans continue to push for a vote on a bill to stop infanticide. "Oh My God, They Just Will Not Quit"*

As LifeNews has reported, Democrats, led by Nancy Pelosi, have blocked a bill to protect babies who are born alive after abortions and provide them with appropriate medical care and treatment a total of 28 times. Earlier this week, Republicans led an effort to get petition signatures for a discharge petition to bring the bill to the floor.[2]

At the time of this writing MSM has not reported on this travesty of the Democrat Party's blatant disregard for the safety of not just the unborn child but a child that survives an abortion. This lack of reporting is because abortion on demand is part of the MSM agenda as well as the agenda of the left. It is amazing how the media accuses the conservatives of the very thing that they themselves do. This is a page right out of Hitler's playbook. On Saturday's broadcast of MSNBC's "AM Joy," House Majority Whip James Clyburn (D-SC) stated that he suspects Attorney General William Barr is withholding information from the Mueller report to protect President Trump and said that Barr has hurt his office.

Host Joy Reid asked, "Do you believe that William Barr has undermined his office?"

Clyburn responded, "There's no question in my mind about that.

I think that is what is feared by the people who are now beginning to speak out in some form or another.”[3] Keep in mind that all the information about Benghazi, Fast and Furious, Uranium One and the 30,000 Clinton emails was withheld and not released until it was forced to be reported and then it was only reported by conservative organizations.

I have been producing the American Intelligence Report, a daily newsletter for news MSM and even FOX won't report on, for almost twelve years and I began the report because in conversations with friends and family they were woefully uninformed about what was going on. Even in this last election when Colorado elected an open homosexual for governor, I have yet to talk to anyone that voted for him that knew he was a homosexual even though he had been in the House of Representatives for several terms and supported homosexual legislation. Mark Twain once stated “If you don't read the newspaper you're uninformed. If you do read the newspaper, you're misinformed.” That statement is truer today than when he said it.

Our media, like our colleges and universities, have been taken over by left wing ant-American organizations ALL associated and aligned with the Democrat Party. On a gravestone of a man who died in 1890 this was written about the Democrat Party: ***Through this inscription to enter my dying protest against what is called the Democrat Party. I have watched it closely since the days of (Andrew) Jackson and know that all the misfortunes of our nation has come through this so-called party, therefore beware of this party of treason.*** These words are as true today, if not more, as they were then. The Democrats will not stand against infanticide and the liberal media won't report on it, the Democrats have voted to allow illegals to vote in our elections yet decry “Russian involvement” in the 2016 election, yet the media is surprisingly silent about the illegal vote.

The MSM's lack of coverage of the very positive things

President Trump has accomplish is inexcusable. Keep in mind that he has boosted the economy to a point that it is the best it has ever been, black and Hispanic unemployment is at its lowest in history, more women are employed than at any time in history, manufacturing jobs that were 'never going to come back, according to Obama, have returned and the whole nation is 100% better off than at any time since Reagan, yet 90% of the news stories by MSM concerning Trump are negative: **Media Research Council analyzed every moment of coverage of President Trump last year on the ABC, CBS and NBC evening newscasts, usually seen by more than 25 million people each night.**

The major findings:

- **The Trump presidency was the biggest story of the year, accounting for one out of every three minutes of evening news airtime – nearly 100 hours in total.**
- **The tone of coverage has been incessantly hostile: 90% negative, vs. just 10% positive(These percentages do not include neutral statements).**
- **There were only three months in 2017 when Trump's level of good press rose above 10 percent on the evening news More than two-fifths of evening news coverage of the President (43%) focused on controversies, not policies, with the Russia investigation alone accounting for one-fifth of all Trump coverage (1,234 minutes).**
- **Despite their massive coverage of Russia, the networks had almost no airtime for questions about how the investigation began, or whether special counsel Robert Mueller's current investigation is biased. [4]**

We now have the 'news coverage' that we had prior to the Revolutionary War. It is controlled by the liberal party for the purpose of the liberal party's agenda. What could go wrong?
