

Making America Mexico Again?

By Lex Greene

February 5, 2025

Until now, I have always held a certain degree of empathy for families who entered our country illegally in search of a better life for their children. It's true, the USA is by far the most culturally diverse nation anywhere on earth, a result of our country being a great melting pot of immigrants from all over the world.

Don't get me wrong, I oppose illegal entry into our country just as much as I oppose illegal entry into my family home. Illegal is illegal, and such activities must never be tolerated, or our home isn't our home anymore.

Like it or not, sometimes, the price of tolerance is just too high. The American people have tolerated so much total insanity for so long that those things started to look like some kind of crazy new norm. But the price of ongoing tolerance is just too high now, and there's no room for tolerance anymore.

In case you have not noticed, the "illegal migrants" in our country are [protesting in our streets](#) and they are not flying the American flag. In fact, too often, they are burning our flag while [marching under the flags of their home countries](#). We don't need any clearer message about their true national loyalties, which are not to the USA, do we?

Like the BLM, ANTIFA and pro-Terrorist marches that have gone on in our streets for the past four years under Biden and

Harris, many of the protesters are stupid young white (high school and college age) American kids who were raised by transgender DEI teachers in government-controlled classrooms.

Like I said at the beginning, until recently, I had a certain empathy for decent families seeking a better life in our country. But over the past four horrifying years under the 3rd Obama term, this isn't who democrats have been flooding into our beloved country. Sadly, as a result, even decent families who truly just want to be Americans, will be caught in the crossfire now.

Still, the USA (and many other nations) has no choice but to clean up the mess created by the [WEF/UN/NATO George Soros "Open \(borders\) Society"](#) garbage designed to destroy every free sovereign people. In case you've never seen it, here's the United Nation's "[Replacement Migration](#)" plan.

In the USA, our government has been engaged in open genocide of natural-born Americans. They have supported the killing of more than 70-million by way of abortion. Since the 1950s, numerous leftwing policies have resulted in a [declining birthrate for American citizens](#).

Our [overall population](#) has steadily climbed even though the American [birthrate has steadily declined](#) through that period. Mass "illegal migration" is how... ever since [Ellis Island](#) was closed in 1954.

Yes, our government has been replacing freedom and liberty loving Americans with a foreign population for about the past 70-years or so, accelerated greatly via the three Obama terms since 2009. Our population exploded by another 38-million people just since Obama took office in January 2009.

Meanwhile, the American birthrate [declined every year during Obama's reign](#).

2016	12.198	-0.940%
2015	12.314	-0.930%
2014	12.429	-0.920%
2013	12.544	-1.980%
2012	12.798	-1.940%
2011	13.051	-1.910%
2010	13.305	-1.870%
2009	13.558	-1.840%

As people all around the globe are rising up against their leftwing governments, from Canada to the UK and EU, stupid American kids are protesting the USA in our own streets, in support of totally unsustainable massive illegal migration, well-known Middle East terror groups like Hamas and Hezbollah, determined to be the cause of their own demise...and ours!

College Professors like Obama groomer and [Weather Underground terrorist William Ayers](#) have trained our own kids, at least two generations, to hate the [foundations of freedom and liberty](#), and fight us on behalf of those who hate America and have worked for decades to destroy us.

As a result, my empathy for all foreign invaders has greatly diminished, and will soon be gone altogether!

The nation I grew up in was absolutely the greatest nation ever known to mankind. But that isn't what our country is today, and unless we do something real about it, it will never be that country ever again.

We cannot afford to care how our horribly misinformed children feel about it. The United States simply cannot survive the damage leftwing policies have caused in our country. We have no choice but to stop it and reverse it.

The only way to reverse the damage is through mass-deportation of everyone in our country illegally. Then maybe our kids and

grandkids will see a brighter future and start having American children of our own again.

In fact, I no longer think we can reverse the damage by just deporting everyone here illegally, marching against us in our own streets, under the banner of their own foreign nations. We will have to do something about the two generations misguided by educators who now have them wondering if they are really even male or female.

To be very clear here...anyone marching in our streets against the UNITED STATES and our Charters of Freedom, is an enemy of our nation. I know that many don't know any better, but it's time for us to teach them!

The only way to ever Make America Great Again is to rid our nation of all who hate our country and stand opposed to our Foundations of Freedom, Liberty and Justice, established in our [Charters of Freedom](#). Those who refuse to assimilate into American culture, principles and values, can no longer be welcome in our home!
