

Mark Steyn: Here's to you!

Authored by Devvy Kidd not AI

May 27, 2025

"One man with courage makes a majority." President Andrew Jackson

The "global warming" aka climate change hoax is falling apart. The so-called "environmental crisis" was cooked up by the communists in Moscow in 1928; 20 delegates from the U.S. voted for that diabolical plan to destroy capitalism in America.[1]

[Solution to global warming and disappearing polar bears](#), June 5, 2008 (Mine):

"How about those inconvenient scientists who know Al Gore is a phony?

["World's Top Scientists 'Manmade Warming' Is A Dangerous Lie.](#) December 13, **2007**. "In particular, it is not established that it is possible to significantly alter global climate through cuts in human greenhouse gas emissions. On top of which, because attempts to cut emissions will slow development, the current UN approach of CO2 reduction is likely to increase human suffering from future climate change rather than to decrease it."

["Hundreds of scientists reject global warming.](#) December 21, **2007**. "A new U.S. Senate report documents hundreds of prominent scientists – experts in dozens of fields of study worldwide – who say global warming and cooling is a cycle of

nature and cannot legitimately be connected to man's activities.

“Of course I believe in global warming, and in global cooling – all part of the natural climate changes that the Earth has experienced for billions of years, caused primarily by the cyclical variations in solar output,” said research physicist John W. Brosnahan, who develops remote-sensing instruments for atmospheric science for clients including the National Oceanic and Atmospheric Administration and NASA.”

“It matters not to the converted card board puppet, Al Gore, turned king of the environmental guru's, that a judge over in Great Britain [slapped down his cock and bull](#), [2] he continues to peddle his pernicious lies. The same as these career poltroons in Congress; entrenched bureau-rats who spew lies as their daily dogma. The American people have been pummeled with all the dire predictions and “proof,” enforced by intellectually lazy saps who hold major positions in print and electronic media.

“I encourage you to [watch this 2:08 second video](#) of closet communist, Barry Obama, aka Barrack Hussein Obama. “Listen to what he says about using this phony global warming to create jobs. This is the tactic used over and over to enrich the elites and crush the middle “class.

“Barry has simply taken up the plan laid out by Gus Hall, head of the Communist Party USA for decades...” Old Gus' book *Ecology, Can we survive under capitalism?* published in 1972 was pure Marxist propaganda. On page 88: “The demand must be the nationalization of industry that violate anti-pollution laws.” Why do you think the unconstitutional EPA was created?

Over the years so many of us in the independent media have been educating Americans about the big lie called climate change. Hounded our state legislatures and CON-gress to stop raping us in taxes to pay for our own destruction. The big

lie is global as was meant to be and good people who do care about the environment have been brainwashed to believe one lie after another all to 'save the planet'.

Brainwashed as children. Way back in 2003 (the year Greta Thunberg was born), Holly Swanson's book, [Set Up and Sold Out: Find Out What Green Really Means](#) came out and *she nailed it on the head way back then*. Get ahold of the kids and start indoctrinating them into believing the bald faced lies about 'what green really means'. I encountered brainwashed seniors as a substitute teacher in 2018. Young, impressionable and scared because through social media, they just knew teen Greta Thunberg was right: They would be dead in ten years so why do the classwork? By 2018, Thunberg was the climate hero scolding world leaders at the rotten, corrupt UN holding another BS climate change conference.

[No More Money for the BIG "Climate Change" Lie](#), (Mine) Oct. 21, 2024 and [Republicans Must Denounce Climate Change Scam](#), Feb. 13, 2023 (Mine) – Both of these columns have a lot of FACTS all Americans need to know if we're going to stop the madness and stripping us of our rights, private ownership of land and protect our precious farmers and ranchers from the lunatics in elected office.

READ because it will spread: [Eco-Fascism – 2026 Ballot Measure Seeks "End Of Farming" In Colorado](#), May 22, 2025: "The Trump administration, focused on delivering **economic growth** and **food production** in the U.S., is attracting the opposition of zealots and **degrowth monied interests alike**.

To wit; **two radically authoritarian ballot measures** – which have the support of [initiatives](#) and [frameworks](#) of **International Governmental Organizations (IGOs)** – ask Colorado and Oregon voters to **give up the family dog** and hand over their private property rights in what some have called "the end of farming and ranching" in the Mile High state...

Oregon

“Leading up to the 2022 election in Oregon, a similarly wonky **Initiative Petition 13** was introduced to make raising, riding, eating or owning domestic livestock illegal. Similarly, the state donated resources to the petitioners by sending back a lengthy **how-to guide**.

“After significant tweaks, [that Initiative Petition is back as IP28](#) and greenlit for signature collection ahead of the 2026 election. In addition to making it illegal to own companion animals such as dogs or cats, the IP would make it illegal to render animals for meat in the State of Oregon.

“While some might be quick to dismiss the actions of a few, seemingly lone environmental zealots, others cite bigger-picture concerns for connections to IGOs and dark money influence...**Yet by narrowly redefining “harm” as an illegal taking—such as removing or poaching—the Trump administration is attempting to rectify decades of federal overreach** that have resulted in the loss of grazing rights on privately owned lands and the lowest cattle volumes in 70 years.”

This is dead serious because of big money and hypocrites with that money who fly around in \$50 million-dollar private jets to go party on a \$100 million dollar yacht halfway around the world. Oh, but their “carbon footprint” is okay because they are the privileged. To them, we are nothing but oxen under the yoke to be pushed around, all for conservation and save the planet! Our farmers and ranchers (and sure, there’s always a few bad apples in any category) are the best stewards of our land yet they are under attack constantly either by bureau-rats in some state agency, state legislatures and the destructive EPA. [Why the Environmental Protection Agency must be abolished](#), Mine, Jan. 21, 2005, WND

And, [Democrats in Colorado are preparing to permanently end farming in the state](#): “This would be the end of farming and

ranching and private (farm) land ownership in Colorado”
“There’s something happening in Colorado which is not so good. The corridor of people that don’t understand the rural lifestyle that live in all the cities in Colorado are controlling that state. This would be the end of farming and ranching and private land ownership in Colorado.

“Because what they propose is that they want to set up a committee that cannot have any farmers and ranchers on the committee to decide what happens to our public lands and private lands in the name of conservation. They want to be able to say that any, put any species on the state endangered species list, which would dictate what you can do on your land if you have that species on there.

“So they could just say, oh, this squirrel is endangered. And now you have 400 restrictions on your property that you can’t use it. You for this. You can’t cut down this tree. You can’t move cattle in this area. This is activist environmental proposal to take over that entire state. Because if they get control of that, they can literally dictate the use of any land, public or private, in the name of conservation.”

Farmers and ranchers in other countries have been destroyed to save the planet! It has been truly tragic to read about. [Peter Sweden: IT’S SPREADING – Massive Farmers Protest in Germany](#) (Video), Jan. 1, 2024: “You might have heard about the farmers protest in the Netherlands. Farmers have been protesting against government plans to essentially SEIZE 3000 farms in order to meet 2030 climate goals.

“Earlier this year I traveled to report on the farmers protest in the Netherlands. Some 10,000 people turned out.” Rest at link. All to enforce the big lie and the 2030 date to finally crush all of us.

And lunacy by elected morons continues: [“Reduce the Need for Personal Vehicles”](#): Top Massachusetts Democrat Wants to Limit

How Many Miles Residents Can Drive or Drive at All, Because 'Climate Change', May 25, 2025

Mark Steyn

Mark is a remarkable man who filled in here and there for the late Rush Limbaugh; more frequently as Limbaugh battled cancer. Funny and very intelligent. A man of many, many accomplishments. A man who became the target of "climate change" hustlers and lawfare attack. Two heart attacks (one while on the air) and over ten years later, after losing a defamation lawsuit against him, he has been vindicated:

[Michael Mann – the Scientist Behind the Debunked Global Warming Hockey Stick Model – Wins \\$1 Million from Mark Steyn in Defamation Case](#), February 9, 2024. I knew all about this case from the beginning and it sickened me. But Mark didn't sit around feeling sorry for himself even though every effort was made to destroy him emotionally and financially. It didn't work: [When the Ice Cracks: Michael Mann's Legal Defeat and the Climate of Accountability](#), May 24, 2025 – Important backstory.

[Mark Steyn's Vindication: A Triumph for Free Speech and Personal Fortitude](#), May 24, 2025: "A Warning Shot Against SLAPP Tactics"

"This case, like Mann's broader legal campaign, embodied a SLAPP, a Strategic Lawsuit Against Public Participation. These lawsuits are designed [not to win but to exhaust](#), intimidate, and silence. And in the world of climate science, where the political and the empirical are often inseparable, they have been used to devastating effect.

"The Power of the Individual

"Mark Steyn's story is not just about one man's fight against the system. It's about the system's fear of one man." Rest at link.

The fear of one courageous man – THAT is what the “left” and all these lunatics elected by either brain dead or uninformed voters fear the most. But our numbers have grown exponentially over the decades and the truth about the manufactured ‘climate crisis’ has spread around the world. WE THE PEOPLE. OUR AMERICA. It’s up to us to stop the destruction of what made this country great as [I wrote in my April 29, 2024 column](#). Millions of us have stayed on this hoax and going after elected lunatics.

The more sane with common sense are finally getting elected or placed in positions to **stop this communist goal**: [Watch: Morano on Fox explains why Dem Senators attacked Trump’s EPA Chief: ‘Zeldin is the most consequential EPA Chief in the history of the agency’ – ‘He is dismantling their climate agenda, they are running scared’](#), May 23, 2025

My previous columns covered the Rio confab: [Watch: Morano on Varney on Fox on Trump quitting ‘the world’s oldest climate treaty’ – ‘Our long national nightmare will have ended’](#), May 16, 2025: “Stuart Varney: Marc Morano is the executive at Climate Depot. What happens if they withdraw from this 1992 treaty? Are we out of the climate business?

“Marc Morano: Yes, and in other words, our long national nightmare will have ended.

“This is the most significant thing that the Trump administration could do. Administration could do to end this climate hold that has been on America, these 32 years ago since 1992 when George H.W. Bush, the first Bush, went to the UN’s Rio Earth Summit to appear ‘green’ in the battle against Bill Clinton and Bush lost the election anyway. But he signed onto the Rio treaty, which created all the United Nations climate summits.

“Donald Trump is trying to do now is withdraw from the treaty, and then the next president will have a much harder time –

needing two-thirds to get it passed back in. This is something no republican President has ever attempted. This would give permanence to Trump's agenda." (Exactly why [I've pounded on abolishing the Seventeenth Amendment](#). Treaties have to be approved by the Senate.)

Going back to Mark Steyn. Sean Hannity, Clay and Buck and some others have large audiences (do miss Dan Bongino's show), but I favor Mark's radio show; he has a very large listening audience. [You can listen here](#). His [interviews on climate change are here](#) and worth listening to. What a gentleman and someone to admire for his intelligence; a dedicated truth seeker with wit and grit.

"The planter, the farmer, the mechanic, and the laborer... form the great body of the people of the United States, they are the bone and sinew of the country men who love liberty and desire nothing but equal rights and equal laws." President Andrew Jackson

For a thorough, comprehensive education on the Fed, the income tax, education, Medicare, SS, the critical, fraudulent ratification of the Seventeenth Amendment and more, be sure to order my book by calling 800-955-0116 or click the link, ["Taking Politics Out of Solutions"](#). 400 pages of facts and solutions. Order two books and save \$10.00

[Trump’s cabinet just delivered the biggest blow to the Green New Deal that will send energy prices plummeting](#), May 14, 2025

“Renewable energy” is not what people have been brainwashed into thinking will help “save the planet” from turning into a massive fire ball. It sure as hell didn’t save over 300 Texans during the Polar Vortex in Feb. 2021, who froze to death. Both columns below are mine; I live in W. Texas, the Permian Basin. Fact: Nearly 40 percent of all oil production in the United States and close to 15 percent of its natural gas production is where I live.

[Texas Disaster – What Americans Need to Know](#), February 22, 2021 and [Renewable Energy IS Causing an Environmental Wasteland](#), March 1, 2021

[Back from the Dead](#): *The Mark Steyn Show*, January 30, 2023

Best web sites that prove global warming aka climate change is and always has been a big fat lie. A long-ago invention of the Communist International Party that was concocted for one thing only: Destroy US, our rights and brain wash well-meaning (and some very highly educated) Americans to give up their land, their rights, their dignity, their hopes and dreams for a monstrous lie.

2 BEST: [Climate Depot](#) for facts, truth. **This fake climate/environmental crisis has been affecting every one of us for decades.** Pray to God we are close to driving out the vermin who’ve promoted and profited from this big lie and used it as a power grab. Peddle your lies someplace else.

[Electroverse](#) – Documenting Earth Changes During the Next Grand Solar Minimum

Karl Marx's "10 Planks" to seize power and destroy freedom:

1. Abolition of Property in Land and Application of all Rents of Land to Public Purpose. 2. Extension of Factories and Instruments of Production Owned by the State, the Bringing Into Cultivation of Waste Lands, and the Improvement of the Soil Generally in Accordance with a Common Plan. 9. Combination of Agriculture with Manufacturing Industries; Gradual Abolition of the Distinction Between Town and Country by a More Equable Distribution of the Population over the Country.

Rancher-Direct Clean Food (I always try to support and promote our family farms and ranchers and clean food. For full disclosure I do not receive any financial compensation for recommending the web site above or their products.
