

Marxist Murder of the American Dream

By Lex Greene

From day one, July 4, 1776, when a handful of real American patriots declared our independence from England and British rule, they also established our independence from any form of government tyranny, foreign or domestic.

The basis of the American Dream is self-determination and self-governance. The ability to dream your own dream, set your own course, establish your own goals, and strive to accomplish your own destiny, as only you can do. These ideas culminate in the term "freedom."

Among many other freedoms too numerous to list, the American Dream includes...

- The Right to choose your own Faith, or none at all.
- The Right to choose your own profession.
- The Right to choose your own financial condition.
- The Right to choose your own friends.
- The Right to raise your own family, or not have one.
- The Right to own private property.
- The Right to privacy, and not to be spied on by anyone.
- The Right to be secure in your belongings.
- The Right to enjoy the fruits of your own labor.
- The Right to vote for the public servants of your choice.
- The Right to make your own health choices.

- A Right to Life, Liberty, and your Pursuit of Happiness.
- A Right to equal justice under the Law, not Marxist “equity.”
- A Right to Free Speech, redress of grievances, and to keep and bear arms.

In a free nation, your Natural Rights are far too numerous to number. For most of our 247-year history, Americans were born into these basic concepts, and millions came from around the world, leaving behind the destruction of tyrannical socialist and communist governments, in pursuit of the same freedoms every American was once born into.

To love and support, protect, and preserve these ideas for all American citizens and all posterity, is to be a true patriot of the United States created of, by and for the People of these United States. To do any less, is to be a traitor to these ideas, and an open threat to all Americans who still believe in and revere these foundations for Freedom.

It's not “*In Government We Trust*,” but rather “*IN GOD WE TRUST*,” the creator of all things, from whom our freedom is “endowed.”

Our freedom does not come from any man... and it is “inalienable” by any form of government. ALL government power is derived from the consent of the governed, *We the People*. That makes *We the People* the final arbiters of truth and justice.

Today, 80% of what the Federal Government does, or does not do, is in direct violation of the compact by the people, and between the States, that created the Federal Government. Under US Law, when a member of the contract stands in breach of that contract, the contract is null and void. No party to the contract is obligated to the terms and conditions of that contract once the agreement has been broken. Either the Constitution stands as the Supreme Law of this Land, or the

government it creates and authorizes, has no Right to exist at all. Taxation without representation is unlawful and unconstitutional.

Our Founders spoke of this in the Declaration of Independence, the original Founding document upon which all else is built.

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain inalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, —That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to affect their Safety and Happiness."

Unfortunately, our Constitution and Republican form of self-government has been undermined since the early 1800s, starting with the judicial branch seizing powers granted only to Congress alone, the *unconstitutional* power to make laws via court opinions.

"You seem . . . to consider the judges as the ultimate arbiters of all constitutional questions; a very dangerous doctrine indeed, and one which would place us under the despotism of an oligarchy. Our judges are as honest as other men, and not more so . . . and their power [is] the more dangerous, as they are in office for life and not responsible, as the other functionaries are, to the elective control. The Constitution has erected no such single tribunal, knowing that to whatever hands confided, with corruptions of time and party, its members would become despots." —(Jefferson letter to William Jarvis, Sept. 28, 1820)

In 1913 with the adoption of the 16th Amendment allowing

government to tax “wages” (not income) creating a modern slave state of sorts, and the 17th Amendment eliminating State’s Representation in Washington DC via the US Senate, our Republic is a mere skeleton of its former glory.

Today, we have whole generations, largely since the [Che Guevara styled Marxist Revolution](#) starting in the 1960s, brought to the USA by the [Weather Underground](#), who no longer know anything at all about our foundations of freedom. At least three US generations have been Pavlov raised on Marxist principles and they no longer believe in American freedom, liberty, or justice for all.

For the record, equality and equity are not the same things. In fact, they are polar opposites. Equality means everyone is treated the same, no matter race, creed, or color. Equity is a Marxist term, meaning a superior power (.gov) will decide your station in life, for benefit of another. It’s overt Marxism...

Making matters much worse, as America now exists in a greatly weakened state, ripe for the plucking, Global Nazi Groups like the [World Economic Forum](#), [World Health Organization](#), and [International Monetary Fund](#) have set their sites upon the final destruction of the USA and all independent sovereign nations. They launched the global movement to destroy freedom via their maniacal [COVID 19 Great Reset](#).

Even worse is the fact that almost every major [American corporation is a global partner](#) in the plot to destroy freedom everywhere on earth. **Their motto for YOUR future... is “YOU WILL OWN NOTHING AND BE HAPPY...” which means, they will own everything, and they will define happy for you.**

In 2024, every American will face the same decision... AMERICA FIRST (or) AMERICA GONE!

Personality politics are no longer relevant. All that matters now is the future of freedom, here in the USA and anywhere

else on earth. The global Marxists will either succeed in ending the USA and freedom everywhere, under their [One World Order](#) at the command and control of global Nazi Klaus Schwab and his minions – or... the American people will finally cast off all past political propaganda aimed at dividing in order to conquer, and vote AMERICA FIRST!

Freedom is either in it's final hour, or at the beginning of its rebirth. The American people, not the politicians, not the judges, and not the global Marxists, will decide this...

"If a nation expects to be ignorant and free, in a state of civilization, it expects what never was and never will be."
