

Mass Murderers Are Telling Us That They Are Looking For Gun-Free Zones

“Facts are stubborn things; and whatever may be our wishes, our inclinations, or the dictates of our passion, they cannot alter the state of facts and evidence.” –President John Adams

Oh, my friends, if the mainstream media, which works hand-in-glove with corrupt politicians, are not blatantly lying to us about gun violence, then they are doing their best to misconstrue the facts (Proverbs 19:9).

Outside of the fact that the said Supreme court says that it is free speech to teach both young and old alike how to kill through movies, television, music and or video games, it should come as no surprise why we are seeing any of these crimes being committed (Proverbs 22:6).

On top of all of this, we see where they then blame the innocent for the crimes of the guilty (Proverbs 17:15).

What’s worse, most of these mass shootings take place in gun-free zones, which the politicians are guilty of unlawfully creating (Psalm 94:20). It is time to hold them accountable for the crimes committed against the innocent!

This is all going on while they sit behind a desk with armed security detail doing their best to strip the American people of their God-given rights protected under the Second Amendment and at the same time defending themselves against the very people that they are to protect!

Americans, a majority of the people know what this is all about and where it is that the corrupt want to bring this. They want total disarmament (1 Samuel 13:22), and most know the history of such governments.

Aside of all of what it is that most of us already know, here we have John Lott from the Crime Prevention Research Center bringing to light the truth that the corrupt would hope that you didn't see, namely the facts.

He dismantles every single gun control myth right before the eyes of the people, as well as sharing with us that mass murderers are telling us that they are looking for gun-free zones in which to murder the innocent.
