

# Maybe Just Maybe: America Returning to Reason and Common Sense

Whether you're a liberal, conservative, independent, or, you just don't participate—you cannot help but appreciate that the last four years under the previous dementia-led administration brought America a whole bunch of craziness, absurdities and lunacy.

I mean, come on! The president of the United States and Congress allowed, invited, and engineered the entry of over 12 million unvetted, illegal and totally unqualified refugees to storm our borders. Those refugees have saturated our cities, overwhelmed our food banks, housing, schools, prisons and medical systems. Those refugees displaced our own 774,000 homeless citizens along with tens of thousands of homeless veterans. Those refugees have cost you over \$150 billion annually to care for them. Thousands of them have robbed you blind, and dozens of them have raped and killed our citizens. That beautiful young nurse Laken Riley will never get to live the American Dream. Her death is on Joe Biden, Governor Kathy Hochul and Mayor Nick Adams.

Just last week, Mary Comans, head of FEMA, a multi-million dollar agency in our government, sent \$59,000,000.00 (million) of our tax dollars to keep paying for tens of thousands of illegal aliens in New York City. Is that nuts or what?

Thankfully, Trump's team intercepted our money, fired that lady, and kept that money for Americans. Hopefully, those hotels in NYC start tossing out those illegal aliens who have been living large on our tax dollars.

The bigger question remains as to WHY people at that level of our government were hired when they've got sh\*t for brains. But if you look at the head of U.S. AID, you've got thousands of them sucking our taxpayer dollars down an endless drain. The entire workforce for U.S. AID should be fired for their ruthless corruption! Why is that? They all know the fraud going on and they are complicit.

Isn't it amazing to see all those bureaucrats crying, singing and demonstrating to keep U.S. AID going so they can stay home, draw a paycheck, and do nothing to earn it.

At the same time, you've got lame-brains like House Member Alexandria Ocasio Cortez continually pushing for biological men competing in women's sports and wandering around leering at women in women's bathrooms.

Thankfully, super star swimmer Riley Gaines and other brave women stood up to "that" insanity and brought the NCAA back to "reason." Trump used his executive order powers to stop men from competing in women's sports and stopped them from showering with women in women's changing rooms. That's "REASON" returning our country. That male swimmer, William "Lia" Thomas will go down in NCAA history as the biggest farce, joke and emotionally ill "pretend" woman in U.S. history.

Has anyone ever realized that the Somalian immigrant, House Member Ilhan Omar (D-MN), who married her brother to obtain papers for him to immigrate to America, has broken too many laws to list, but is a member of the House of Representatives--but she wasn't elected by Americans. Over 125,000 immigrant foreigners, who practice Sharia Law, voted

for her. None of them were born here and 90 percent of them remain on welfare after 10 years. Whose bright idea was it to jam 125,000 illiterate Somalians into Minneapolis to bring more color to that formerly "white" enclave? The Somalian babysitting costs are off the charts!

Then, you have to ask how they got away with stealing \$200 million worth of EBT card money before getting caught? They might not be too intelligent, but they outsmarted the heads of the food stamp offices.

When you look at Detroit's House Member Rashida Tlaib, she's a Muslim with a vengeance. When elected by 300,000 Detroit Muslims, she wrapped herself in the Palestinian flag outside her office. She hates Jews! Obviously, she doesn't stand for the U.S. Constitution or America. She would mandate Sharia Law into effect if she had the power. With higher numbers like in the UK, they will overpower Constitutional laws.

Yaglob, the Islamic scholar in UK made it clear about Muslims: "Impose British values on Muslims? No, we don't like your culture and democracy. Islam is better and we want Sharia law. We only believe in Allah!"

Is anyone sick of the entire transgender insanity? How could anyone operate and mutilate little children, and think it's okay for someone under 18 to know if they want their breasts cut off or to be castrated? There's a special kind of insanity and stupidity for anyone who thinks those operations are moral or ethical. Let those kids, by law, wait until they are 21 before they make such stupid and ill-advised body mutilations that will last for a lifetime.

What about our money from U.S. AID going to the United Nations, but those corrupt rats gifted it to the Taliban? What a heck of a cover-up by our own government and the people in it.

As reported by journalist Daniel Greenfield:

1. In 2021, Afghanistan's central bank, controlled by the "financier of the IEDs" that had killed over 1,000 U.S. soldiers, began tweeting pictures of shipments of blue bags of hundred dollar bills as "humanitarian aid".

Australia's ABC even featured a photo of the blue bags on the tarmac at Kabul International Airport containing \$40 million. One of several such shipments.

Where was the money coming from? The American taxpayer!

2. Here's how I break it down in "USAID's Taliban Money Laundering Scheme."

USAID put the money into pooled UN accounts which it did not control allowing it to deny sending money to the Taliban.

3. The UN bought and shipped billions in hundred dollar bills to Afghanistan. Then deposited them in a private bank and transferred money to 'non-profits' on the ground. This let the UN deny it was giving money to the Taliban.

4. The non-profits then exchanged the money with 'Afghanis' from a Taliban-controlled bank. (Source: Daniel Greenfield, [jihadwatch.org](http://jihadwatch.org))

Hopefully, Trump extracts America out of the United Nations. It's a useless, worthless and corrupt bunch of bureaucrats sitting around pandering, but doing nothing for world peace. In fact, it's been proven that many members financially facilitated Hamas for the October 7, 2023 slaughter of men, women and children in Israel.

Hopefully, we're moving away from "Affirmative Action" and "Diversity, Equity, Inclusion" to "Education, Determination, Excellence, Qualifications."

What about Ukraine? Why aren't all of Europe's countries financially supporting the people of Ukraine? Why our tax

dollars? Europe has the most to lose if Putin absorbs Ukraine. He could go after country after country. Why are we being financially sucked dry?

Why do we see all the liberals supporting the insanity of U.S. AID? Why do they support men beating the heck out of women in sports? Why do they want to see little kids butchered in transgender operations? Where is the common sense? How do people like AOC or Ilhan Omar or Joy Reid or Whoopi Goldberg even possess an audience of more than one-themselves? How do governors and mayors create Sanctuary Cities for criminals?

We've got to move back toward what made America SO successful: Law and Order. Personal merit. Personal accountability. Common sense. Personal responsibility. Educational excellence. Pride in America.
