

# Melting Pot Immigration to a Meltdown of America

This headline washed across America's computer screens today:

"Spain legalizes up to 500,000 undocumented migrants. Socialist-led government's royal decree faces fierce opposition from conservatives."

Millions of Middle Easterners and Africans continue flooding into Europe annually. They're flooding into Spain because it's the easiest route for smugglers out of Africa to get refugees into the riches of Europe's welfare systems. They originate from failed societies and cultures. They originate from countries that cannot feed, educate or house those refugees.

Spain houses 49.7 million people. Spain equates in size to Montana. Only, Montana features a reasonable 1.2 million people. That's why it's called, "Big Sky Country"; "...the skies are not cloudy all day." Even the longtime residents don't like all the people moving from California to Montana.

But like all of Europe that has been invaded by Third World refugees for the past two decades, Spain cannot function with so many illiterate, unskilled and totally alien cultures overwhelming Spain's citizens.

"In the past decade, Europe has absorbed a massive influx of refugees, with the total population of refugees in the EU

increasing from 2.1 million in 2010 to over 8.5 million in 2025. Significant pressures include the 2015-2016 migration crisis and the 2022-2024 Ukrainian crisis, during which roughly 6.5 million Ukrainian refugees sought safety in Europe by early 2024."

The latest headline in a Swedish newspaper: "Recent immigrants are asked to leave Sweden with a check for \$37,000.00 to repatriate to their own countries." (Source: Will Cain Show, Fox News, January 28, 2026.)

Twenty years ago, Sweden was known as the "happiest and most peaceful" country in Europe. Today, because of its misguided immigration policies, Sweden is known as the "Rape Capitol of Europe." No Swedish women are safe to walk down the streets of Malmo or Stockholm without several Swedish male escorts. Why? Answer: Muslim rape squads dominate those cities. Sweden imported SO MANY incompatible cultures in such high numbers, that they will become a minority by mid-century in their own country. In fact, it will become an Islamic Caliphate by 2050. Swedes will no longer be welcome in their own country. Unless they follow the dictates of the Quran, "Convert or kill all non-believers."

Since 1970, First World countries have enjoyed replacement birthrates of 2.1 children per couple. That birthrate stabilized their populations to meet with environmental and sustainable futures. The world housed 3.5 billion people in 1970. Earth Day failed. Today, it's 8.1 billion.

But what happened in Third World countries? Outside Western Countries, birthrates continued to add 83,000,000 (million) new babies, net gain, annually. Just for the record, about 57 million people die annually on this planet now housing 8.1 billion people. Not only do those 57 million people get replaced by new babies, but another 83 million babies are added, net gain, annually. We humans will reach, according to population projections by the United Nations, to 9.7 billion

by 2050.

In other words, the number of poverty-stricken, illiterate and incompatible religions-cultures-languages continue rampaging into America, Canada, Europe and Australia. Why? Answer: because the countries that birthed them cannot sustain them. Thus, they migrate.

In America, in 2026, we face 25 million illegal refugees, on top of the fact that we import 1,000,000 legal refugees, annually. They, in turn, birth another 1,000,000 babies annually in America. (Source: [www.cis.org](http://www.cis.org)) They are overwhelming our country. They are overwhelming our ability to sustain the "American Way of Life."

### **MELTING POT TO MELT DOWN OF AMERICA**

Unfortunately, the massive invasion of illegal and legal immigrants is causing America to devolve from "Melting Pot Immigration" to crime, corruption, religious conflict, fraud, drug networks, and criminal enterprises like you see in California, New York, Illinois and Minnesota. In other words, the "Melting Post" myth has now degraded into the "Meltdown Reality" of America's homeland.

What does that hold for average American citizens? Answer: it means none of us will escape the massive amount of the expected 40 to 75 million additional people added to America by 2050. We're currently registered at 340 million, plus 25 million illegal aliens, and demographic projections show us at 380 million at the minimum within 24 years. Then, add in that 25 million illegals number, and you've got 405 million people.

It means our cities will explode toward greater air pollution, insane traffic gridlock, and lack of water. When you toss in the environmental consequences such as acid rains, chemicals everywhere, unbreathable air, overwhelmed utilities, et al., you're looking at living in a nightmare; but when you wake up, you cannot escape the reality of your nightmare.

Right now, we've got entirely incompatible ethnic Muslim tribes taking over entire cities like Minneapolis, Minnesota. Same with Detroit, Michigan. Same with New York City. Those same tribes thrive off American taxpayers by living off the EBT food cards, free housing paid for by you, and medical services paid for by you. That's the Islamic agenda to conquest and conquer by birth rates and using host countries against themselves. Muslims NEVER assimilate into Western Host Countries. In fact, they expect to install Sharia Law in all Western Countries. Fact is, they practice Sharia Law already in every Western Country they inhabit.

And, as you can see in Minneapolis, some very powerful, rich and organized power brokers are working 24/7 to bring civil war into Minneapolis. That's only a start. They'll bring it to Chicago and New York City. Who are they? Why are they doing it? What would cause those men to destroy the most successful civilization that's ever been experienced on this planet?

Solutions to stop destroying America:

**1-** Stop all immigration into America, period. We don't need more immigrants, and we are not solving the world's 83 million new babies, net gain, annually, that cannot be saved.

**2-** Voter ID for every person casting a ballot and proof citizenship.

**3-** Deport 25 million illegal aliens back to their own countries, and keep the families together by taking their kids with them.

**4-** Support ICE, ATF, Border Patrol and 87G enforcement officers across the nation.

**5-** Take all benefits away from all illegal aliens.

**6-** Outlaw "Anchor Babies" and anchor baby websites. If you are not an American citizen, your child is not an American, no matter if he's born here or not.

**7-** Stop the \$200 billion annually in cash transfers now occurring by legal and illegal immigrants. Make unlawful

with big prison terms.

**8-** Enforce United States Code 8–Sections 1324, 1325, 1326 that stops all hiring of illegals, housing of all illegals and transport of illegals. Send anyone who breaks these laws to prison and deportation.

If we don't get our butts in gear, we're going to lose America like Europe and Canada have been destroyed. Take action.

- ◆ Stephen Miller: "Why would any civilization that actually wants to preserve itself allow for any migration that is negative to the country as a whole?"
- ◆ Donald Trump (2015): "When Mexico sends its people, they're not sending their best... They're sending people that have lots of problems, and they're bringing those problems with us. They're bringing drugs. They're bringing crime. They're rapists."
- ◆ Donald Trump (2024 campaign): Referenced the "assisted suicide of Western civilization" and described the border situation as "migrant invasion."
- ◆ Rep. Albert Johnson (1924, regarding the Immigration Act): Warned that "a stream of alien blood was poisoning the nation."
- ◆ "Who thinks adding another 100 million people to America is a good thing in our overcrowded 21 century?" American citizen
