

MoveOn...NO!

By Lex Greene

Americans have become accustomed to “going-along to get-along,” but there are some things that we just can’t move-on from without confronting the issue and fixing what was broken. In a nation focused on precedence rather than the rule of law, we cannot allow bad precedence to stand.

Our Founders knew this day would come... *“all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed;”* – Declaration of Independence, 1776

The MoveOn.org domain name was registered on September 18, 1998, following the September 11, 1998 release of the [Independent Counsel Starr Report](#). The organization founders were computer entrepreneurs [Joan Blades](#) and [Wes Boyd](#), the married co-founders of [Berkeley Systems](#), an entertainment software company based in San Francisco.

It was originally created to oppose the impeachment of then President Bill Clinton, who had been caught sexually abusing a young intern in a room off the Oval Office, lying about it to the American people, and under oath. Clinton was indeed impeached by the House and even convicted by the Senate. But he was not removed from office due to a massive grassroots campaign led by the DNC and folks at MoveOn.org.

Today, that operation is a full-blown extreme left community organizing operation under the new domain [front.moveon.org](#).

Along with the [DNC ACT BLUE](#) international money laundering scheme, [BLM](#), [ANTIFA](#), the [WEF](#), WHO, [Davos Group](#) and UN, and hundreds of [Soros NGOs and “non-profits”](#) scattered all over the globe, this is the Obama “community organizing” machine responsible for the ongoing efforts to “fundamentally transform America” into a 3rd world Marxist toilet. It’s also the money machine for every [anti-American protest and riot on American soil](#).

Today, treason from within is as common as the sunrise and [despite a lot of political chatter about it](#), nobody ever seems to face treason charges. It all emanates from these organizations and is deeply embedded throughout the U.S. government, all in the democrat party and some in the republican party, often referred to as “the deep state” or “shadow government” actually running things in America.

Americans need to face the reality that our country is under siege, swamped with immoral and unethical anti-American Marxists and dumbed-down fruitcakes, hanging from the proverbial cliff by our fingernails, and the fight would already be over had we not stopped another stolen election last November.

To be clear, the newly minted Trump administration should have already frozen all related funds pending the outcome of criminal investigations into the anti-American actions of these groups. I don’t know why they haven’t, but it likely has something to do with the following...

At the epicenter of it all in the USA is one Barack Hussein Obama, the American leader of the “[cultural revolution](#)” not unlike [the revolution that destroyed China](#) many years ago. His entire history is one great big fat fraud.

The utter destruction of the USA since 2009 has been massive. Citizens who remember what America was like before can barely recognize the country today, and they fear for their children

and grandchildren's future.

Obama's unlawful occupation of our Oval Office isn't just the biggest fraud ever perpetrated on the American people...it is an overt act of [treason](#).

▪ 2381. Treason

"Whoever, owing allegiance to the United States, levies war against them or adheres to their enemies, giving them aid and comfort within the United States or elsewhere;"

This is not something we can "move-on" from.

Treason from within the highest levels of government cannot be tolerated, because it cannot be survived.

Honestly, every person who sets out to undermine, subvert, or overthrow the U.S. Constitution is [guilty of treason](#). Everyone who attempts to overthrow our republican form of government in concert with anti-American powers here and abroad, is [guilty of treason](#), whether they are smart enough to know it or not.

In my opinion, the entire democrat party is anti-American today. Many in the republican party are too. Politicians get away with it because the people are either just as corrupt, too dumbed-down to know, or too cowardly to hold them fully accountable for their anti-American actions.

No nation can survive treason from within. Until the [Obama fraud and treason](#) is dealt with, the nation cannot be saved.

[We can't "MoveOn" until this evil is corrected.](#)

Step One in defeating the enemies within requires cutting off the money supply to the operation. This requires the Department of Justice to freeze and seize all global assets of Act Blue and every Soros related organization, along with that of operations like [front.moveon.org](#) and [numerous others](#).

To win this war, we have to either take the fight out of the enemy or take the enemy out of the fight!

Someone has to do something, and that someone is YOU and ME!
There isn't anyone else!
