

Mr. President, Who On Earth is Vetting Your MAGA Appointees? Part 2

By Kelleigh Nelson

November 18, 2024

Trump cannot be bought, but his advisors can. –Tom Homan

It is essential to seek out enemy agents who have come to conduct espionage against you and to bribe them to serve you. Give them instructions and care for them. Thus, doubled agents are recruited and used. –Sun Tzu

President Donald Trump has already declared what he plans to do. He expressed his objectives over and over again in every rally. He also [promised to cancel all restrictions of arms shipments to Israel](#), already [blessing our nation](#). We were overjoyed listening to him during those rallies, horrified at the assassination attempts and failure to protect him, and ultimately thrilled with the election results.

We said a resounding “NO” to the Stalinist Democrat Party’s promotion of inflation, border invasion, endless wars, presidents who try to jail their opponents, the celebration of infanticide and surgical mutilations of our children.

We’re already reaping benefits from Trump’s November 5th win. Joan Swirsky lists the multitudinous advantages in her latest article, [Let Me Count the Ways](#).

I believe in my heart that our Creator put Donald John Trump in this office for such a time as this. After four years of watching the communist destruction of America the people rose up and, for the third time, pulled the lever for Trump's America.

Trump is skipping the normal vetting process of appointees by Biden's FBI, so who chose the private companies to do background checks on Trump's choices?

Where is Mike Benz, John Eastman, Peter Navarro, J. Michael Waller, Dr. Carson and General Michael Flynn?

The latter was promised a position in front of a huge audience.

Benz and Waller belong in intelligence.

Susie Wiles

President Trump met with President Biden in the White House on November 13th. The meeting seemed very cordial and Biden looked to be quite happy to welcome Trump.

For the first time in my memory, a newly named Chief of Staff, Susie Wiles, accompanied Trump to the White House meeting. She is Trump's Gatekeeper. [Her background is impressive](#), but it is not America First. Wiles openly states she disagrees with a lot of Trump's policies.

She is co-chair at Mercury LLC, a subsidiary of Omnicom, a global leader in marketing communications that makes money through its relationships with Ford Foundation, Uber, Kaiser Permanente, United Nations Foundation, Pfizer, Gilead and Bill Gates' GAVI. Omnicom is a partner with the World Economic Forum, a promoter of DEI, who controls 1,500 marketing and communications agencies and provides brand and advertising services to over 5,000 clients in more than 100 countries. Susie has stated publicly that she is pro-trans and for open borders. She is not MAGA.

She has been with Donald Trump since 2015, and especially active the last three years.

In 2020, dissident physicians disagreed with the hospital protocols and Covid jabs and wanted to see President Trump. Attorney Tom Renz tells J.D. Rucker that Susie Wiles made sure those physicians were never allowed to see President Trump. Scroll to about 45 minutes into the video.

If you wondered why Trump chose the EUA untested shots, you now know. Attorney Tom Renz, who testified at Senator Ron Johnson's congressional inquiry on the COVID injections and mandates, revealed how Susie Wiles prevented people like cardiologist Dr. Peter McCullough from having access to Trump. She kept him from learning the truth. A recent [major study of two million Covid-vaccinated](#) uncovered a 1,236% Surge

in Cardiac Arrest Deaths.

As the keeper of the schedule and the one who gets to decide who talks to President Trump, she is the **most** important person in Washington.

Caveat emptor!

Who chose Trump's transition team? Was it Trump and/or Susie Wiles? Led by Linda McMahon and Howard Lutnick, co-chairs include Democrats RFK Jr., and Tulsi Gabbard and sons, Don Jr. and Eric Trump.

Some of the appointees allegedly vetted by the transition team belong to organizations like those Susie Wiles belongs to. Anathema to America's history of liberty and freedom, those organizations are filled with men and women without empathy or compassion. They encompass political grifters, looters, parasites and authoritarians.

Trump's Appointees

- **Stephen Miller** is by far one of the most brilliant conservatives on the Trump team. He served as Trump's senior adviser for policy in his first term. Trump has named Miller Deputy Chief of Policy. Miller is the President of [America First Legal](#), an organization fashioned as a conservative version of the American Civil Liberties Union. AFL has challenged the Biden administration, media companies and universities over freedom of speech, religion and even national security.
- **Tom Homan** is a former police officer and was Immigration and Customs Enforcement (ICE) Director under Trump. He has been named as Border Czar. He pledges to uphold the law, to find missing children, reform asylum system, reform the [Flores Settlement Agreement](#) to allow longer detention of migrant families, modify the [Trafficking Victims Protection Act](#) to enable faster processing of unaccompanied minors, overhaul asylum laws and reinstate

the "[Remain in Mexico](#)" program.

- Karoline Clair Leavitt, Trump's campaign spokeswoman, has been named as next White House Press Secretary. She is the youngest press secretary in history at 27 years old. Trump says, "Karoline is smart, tough, and has proven to be a highly effective communicator. I have the utmost confidence she will excel at the podium, and help deliver our message to the American People as we Make America Great Again."
- **Lee Zeldin** has been named Head of the Environmental Protection Agency. His experience is rather thin, but he signaled a tough road ahead for the thousands of Leftist community advocates who have spent years purposely pushing for stronger regulations in the nation's zones where concentrations of oil and gas are located.

Barring an unlikely major rewrite or repeal of the Inflation Reduction Act (IRA), the goals laid out in Biden's IRA will remain among the priorities that Zeldin will find on his plate when he assumes office next year. Trump is still on board with carbon reduction and as such Zeldin will be responsible for eliminating the bottlenecks faced thus far and smoothing the way for carbon capture. This is a hard Left project that has been proven totally unscientific.

What is enabling this foolish CCS trend? Massive subsidies from the federal government. An IRS tax credit program known as 45Q has provided a per-ton credit to companies based on how much carbon dioxide they capture. In total, 10 companies have claimed about a billion dollars over a decade. But a damning 2020 [report](#) from the Treasury Department found that almost \$900 million in capture credits did not even meet the Environmental Protection Agency's monitoring and verification guidelines.

- **Elon Musk and Vivek Ramaswamy** have been named to lead the new "Department of Government Efficiency." What can one say about South African Elon? PayPal, Neuralink,

SpaceX, Tesla and X.com. Jeff Bezos is worth 230 billion, but Elon Musk's worth is 309.1 billion. He championed Trump's 2024 election.

Ramaswamy is a first cousin to Usha Vance.

The Paul & Daisy **Soros** Fellowship was awarded in 2011 to Ramaswamy to pursue a JD in Law at Yale University, same alma mater as JD and Usha Vance.

On page 41 of "[Superclass](#)" by David Rothkopf he writes, "Wu Xiaoling governs the foreign reserves of the People's Bank of China, which amount to more than \$1.4 trillion. The bank controls more financial assets than any other single public financial institution in the history of the world, with the total expected to pass \$2 trillion by 2010. It has already extended its reach overseas with a \$3 billion investment in the New York-based Blackstone Group from a bank controlled by the CCP. Wu also ranked eighteenth on Forbes's list of the world's most powerful women in 2007 – probably an understatement of her global influence."

Blackstone was the forerunner to BlackRock, where Larry Fink shared managerial duties with his partner Stephen Schwarzman. They had a falling-out and Fink created Blackrock. It would be Blackrock that later synthetically boosted Vivek's company Roivant Sciences by buying their stock and inflating its value.

Link is also on the steering committee of the World Economic Forum. They named Vivek as a young global leader. Once this was discovered, he disavowed it and claimed that they used his name without his knowledge. (Very unlikely.) Vivek has been "managed" by the Davos crowd since he was a kid, groomed for power. You can see both he and Pete Buttigieg masquerading as "average college kids asking questions" on [Chris Matthews' show "Hardball" when Vivek was 19](#).

• **Senator Marco Rubio** has been appointed Secretary of

State. "He is head of the Senate Intelligence Committee, he's also a board member on the CIA wing of the GOP, the political back channel of the Republican Party and the CIA. That's what the International Republican Institute (IRI) is, started in 1983 by the newly formed National Endowment for Democracy which was created by Reagan at the request of CIA's William Casey to win back what they lost in the 1975-1976 Church hearings. The Democrat Party has their own National Democrat Institute (NDI). These two organizations are responsible for most of the internet censorship. The NDI and IRI target the enemy, the populist Trump supporters.

"Rubio is also on the Senate Foreign Relations Committee overseeing the State Department. He oversees both the CIA and the State Department. Not only is Rubio a member of the IRI, but five

months ago, they gave him their 'freedom award in the name of their founder, John McCain.' He gave a 20-minute speech accepting the CIA's award to him. The IRI is the CIA, created by the CIA to offload the CIA's dirty work."

Listen to the entire [17-minute video by Mike Benz](#). All of this was set up by the Republican CIA/IRI in 2016 in response to Trump.

Rubio is affiliated with the Aspen Institute and the Council on Foreign Relations. His [voting record is abysmal](#), and many times he is absent for votes. The [Rubio-Schumer Gang of Eight amnesty bill](#) passed thanks to Rubio.

Anchor baby, [Marco Rubio](#) armed the [Benghazi rebels](#).

- **Matt Gaetz** has been nominated for US Attorney General. He resigned his House seat immediately after being nominated and reportedly days before the House Ethics Committee was preparing to release a report on sexual misconduct and drug allegations against him. He practiced for a law firm headquartered in Fort Walton Beach for about eight years, much of that time while also serving as a state legislator.

In February of this year, I wrote an [article concerning the Congressman's views](#). Like many republicans, Matt is promoting a new Constitutional Convention. Rather than obeying the law of the land, many choose to change it.

Gaetz will tell you he's anti-LGBTQ because he claims he's against "drag queen library hour" with children. However, while in the Florida legislature, Matt succeeded in promoting and passing adoption for LGBTQ individuals.

The Florida Representative wants cannabis nationally legalized, as does his father, Don Gaetz, the Florida Senate

legislator.

Matt was on the [Climate Solutions Caucus](#). He drafted a resolution which he hoped would be the Republican answer to Alexandria Ocasio-Cortez's "[Green New Deal](#)." Gaetz tells his constituents and fellow Republicans that "earth is warming, and we should be focused on solutions." His Green Real Deal included eliminating regulations that he said block more hydroelectric dams from being built, calling for carbon sequestration by pumping carbon dioxide underground into dried up oil wells.

In a shocking 2018 speech to Florida's Okaloosa Stem Academy Speech and Debate Class (sixth through eighth graders) Gaetz told them why we must be tolerant of people who don't fit into "sexual" societal norms. [Here](#) is the full Facebook video.

- **Doug Burgum**, Governor of North Dakota, has been nominated as Interior Secretary. Burgum is one of the wealthiest politicians in America. He bought a share of a software company, built it up and sold it to Bill Gates for \$1.1 billion. It became Gates' second largest campus after Seattle.

When Burgum first ran for governor in 2016 (first political office), he skipped the regular primary process and just went straight to the primary without the backing of the state Republican Party. He has never endorsed a Republican candidate at a North Dakota Republican convention.

When he became governor, he poured money into state media enterprises to build his brand and promote himself.

Burgum hobnobs with globalist New World Order folks, oil and gas barons, BlackRock, etc. He has made a fortune in energy ventures and plans to clean up with the dangerous CO2 pipeline folly.

North Dakota regulators approved the state's section of the

planned Midwest carbon dioxide pipeline.

- **Kristi Noem** has been named as Secretary of the Department of Homeland Security. What does she know about this unneeded addition to the federal government and who they oversee? The DHS was created in 2002 in response to 9/11 and the failure of intelligence agencies to share information. The DHS was combined with all or part of 22 different federal departments and agencies into a unified, allegedly more effective, integrated Department, and a more secure America better prepared to confront the range of threats we face.

Butler, Pennsylvania, July 13, 2024 proved that statement false.

Under Alejandro Mayorkas, we now have over 22 million illegal aliens, criminals, terrorists and military aged Chinese in our country because of the open southern border.

When 4th generation farmers asked Noem for help in regard to the CO2 pipeline taking their land via eminent domain, she told the farmers/ranchers that she wouldn't fight their fights.

Litigation over the pipeline's encroachment on private property is now underway across nine counties in the state as rural residents object to the project on their land. Surveyors with Summit Carbon Solutions, however, are reportedly showing up on property while lawsuits remain pending. And the state's Republican governor, Kristi Noem, is nowhere to be found.

Noem wrote in her book, [No Going Back](#), that she [shot a 14-month-old puppy in the face](#) because it wasn't learning fast enough. Why didn't she give the puppy away rather than killing it.

- **Tulsi Gabbard** is Trump's choice for Director of National Intelligence. This is where Benz and Waller belong.

1) She co-sponsored a bill in support of a two-state solution.

2) When Obama **refused** to veto a U.N. Security Council resolution condemning Israeli settlement policies, Gabbard opposed a measure to criticize him citing “the harmful impact Israeli settlement activity has on prospects for peace.”

3) Gabbard voted in favor of the [JCPOA](#) – the agreement that allowed Iran to develop nuclear weapons. She later **criticized** President Trump for withdrawing from the JCPOA saying he was “setting the stage for a war with Iran.”

4) When the Assad regime launched rockets carrying the deadly nerve agent sarin into Damascus killing more than 1,400 people, Gabbard voted **against** the condemnation of Syria for war crimes and crimes against humanity and **against** military action. She also criticized Trump for firing cruise missiles on Syria.

5) Gabbard was a co-sponsor of Rep. Ilan Omar’s bill in support of the right to boycott Israel and refused to censure Omar’ antisemitic statements.

More on Gabbard’s disturbing views [here](#).

6) Gabbard criticized President Donald Trump’s confrontational stance toward Beijing and warned about the downsides of escalating tensions with China. She says a cooperative relationship is needed instead to confront global challenges.

7) Gabbard highlights her record as a lifelong environmentalist and campaigner for action on climate change, including proposals for sweeping legislation on clean energy. She has spoken in favor of many aspects of the [Green New Deal](#) framework.

8) Gabbard is a skeptic of multinational trade deals, which she argues have led to large U.S. job losses, lower wages, and

a loss of U.S. sovereignty. She also opposes Trump's trade war with China.

9) Gabbard's campaign has been centered on the need to avoid "[regime change wars](#)" in the Middle East, while also advocating further steps to fight Islamist radicalism.

10) Gabbard is broadly noninterventionist, arguing that the United States should not use its military power to reshape other countries' political systems, but rather should use diplomacy to find common ground and avoid war even with the most intransigent adversaries.

- **Michael Waltz** has been chosen as National Security Adviser. He has a conflict of interest with his wife's position at Atlantic Council.

Waltz [voted for the Consolidated Appropriations Act \(H.R. 1158\)](#), which effectively prohibits Immigration and Customs Enforcement from cooperating with the Department of Health and Human Services to detain or remove illegal alien sponsors of Unaccompanied Alien Children.

On July 19, 2022, Waltz and 46 other Republican representatives [voted for the Respect for Marriage Act](#), which would codify the right to same-sex marriage in federal law.

The [PACT ACT](#) which expanded [VA](#) benefits to veterans exposed to toxic chemicals during their military service, received a "nay" from Waltz. Regarding cannabis, despite lobbying from [VSOs](#) such as the [DAV](#), Waltz also voted against the [2022 MORE Act](#).

Waltz voted to [include provisions for drafting women](#) in the NDAA of 2022.

Waltz [supports bombing Russia and Afghanistan](#). WWII.

Mike Waltz is married to Dr. Julia Nesheiwat. She is a distinguished fellow with the Atlantic Council's Global Energy

Center and a recognized expert for energy, environment, climate change, and national security issues as a public servant, academic, former military officer, and US diplomat.

The Atlantic Council has up to six former CIA chiefs on the Council. Their commitment to globalism is at the core of its mission statement. Preserving NATO and [fostering](#) a Cold War-era hostility to Russia are among its chief priorities. It is no surprise that the Council is thoroughly engaged in Ukraine. With the Left's attempts to first initiate a coup against President Trump via claims of Russian interference in the 2016 election having proven a dismal failure, the defenders of entrenched New World Order globalism in the U.S. government have now turned to Ukraine in a second attempt to oust the despised outsider in the White House. And Atlantic Council personnel are front and center in the effort.

Nesheiwat served on the World Economic Forum's Global Advisory Council on low-carbon energy transformation as well as an international affairs fellow with the Council on Foreign Relations. Nesheiwat is a visiting professor at the Naval Post Graduate School on Energy Security and has lectured at Stanford University and the University of California San Diego.

Big Pharma, WEF and intel agencies are a common thread with many of these appointees. That thread points to the "Ice Maiden," Susie Wiles.

We deserve and expected more than this.
