

Mr. Trump, beware of globalist insiders

America Deserves Better!

"Be sober, be vigilant; because your adversary the devil, as a roaring lion, walketh about, seeking whom he may devour:" 1 Peter 5:8 KJV

Mr. President, who is giving you your advice on those for your cabinet?

I am an ordinary citizen who helped get you elected to bring some reason and sense to our government and I feel I have an obligation to tell you this:

PLEASE get away from the Washington establishment as you are choosing your appointments. One of the many reasons we supported and elected you was because you weren't the establishment or a politician and many names that are on this list are establishment neocons and those that have looked to changing our Constitution completely and are leaning to a New World Order. Washington is and has been corrupt for some time and we need to put some of these people in their place.

This is the main reason we voted for you, Mr. Trump, because of the corruption in Washington – I will NOT put the blame totally on Obama since the corruption from both branches to include the previous White Houses has been there for a long time and I can prove it. Moderate Democrats certainly did not vote for you to find themselves faced with individuals who are the head of various departments that have been involved in nefarious actions toward the people of this country and have no respect for the Constitution.

If what we wanted was the status quo we would have just picked one of the other 16 that were standing on the Primary stage

with you. You aren't a politician so why does everyone heading up your cabinet have to be??? There are so many smart, decent individuals around this country for you to choose from and if it doesn't work out at first, you try again.

We have idiots on our streets who are not hard working Americans like us who pay their bills and take care of their families, but spoiled, entitled, lazy kids who have been brainwashed by grossly liberal college and university professors like Bill Ayers and Arne Duncan who will now tell you they are Socialists or Communists. You didn't see those of us who were against the 8 Communist years of Obama out on the streets calling for war, murder, and burning buildings because we lost an election.

Myself and others see the actions taking place on the streets not as an expression of Freedom of Speech, but Sedition under 18 U.S. Code Chapter 115 – Treason, Sedition, and Subversive Activities. Sedition according to Webster's is "conduct or speech inciting people to rebel against the authority of a state or monarch; synonyms: rabble-rousing, incitement to rebel, subversion, troublemaking – which is exactly what is happening on the streets of our larger cities.

Please sir, you must take a clearer look at America and not short change her people – get away from the establishment politicians who have been acting like we work for them and have totally ignored our distress for years – the very reason for the initial rise of the Tea Parties. My suggestions below are my opinion from the research I have done and experiences I have faced with my own politicians! Some of the names are from the posted list with my additional suggestions. If there is no comment on someone on the list, than I have no opinion and/or do not know of the person.

List of Potential Trump Cabinet Nominees:

Attorney General:

Edwin Vieira, Jr. – YES – holds four degrees from Harvard: A.B. (Harvard College), A.M. and Ph.D. (Harvard Graduate School of Arts and Sciences), and J.D. (Harvard Law School).

For more than thirty years he has practiced law, with emphasis on constitutional issues. He is also one of our country's most eminent constitutional attorneys, having brought four cases that were accepted by the Supreme Court and having won three of them. In the supreme Court of the United States he successfully argued or briefed the cases leading to the landmark decisions *Aboud v. Detroit Board of Education*, *Chicago Teachers Union v. Hudson*, and *Communications Workers of America v. Beck*, which established constitutional and statutory limitations on the uses to which labor unions, in both the private and the public sectors, may apply fees extracted from nonunion workers as a condition of their employment.

He is the world's most foremost authority on the role of our Constitution as it relates to money and has written numerous monographs and articles in scholarly journals, and lectured throughout the country. His most recent work on money and banking is the two-volume *Pieces of Eight: The Monetary Powers and Disabilities of the United States Constitution* (2002), the most comprehensive study in existence of American monetary law and history viewed from a constitutional perspective.

Gov. Chris Christie – NO – better suited for another job!

Pam Bondi – NO Self-serving – Too much pay-to-play with this one stating it is always for the state; supported the NRA push for sale of guns to 18-20 year olds; has spent too much time supporting environmental issues of other states when we have some major ones here in FL to include the Everglades and the pollution of our waters by the Koch Bros. industry; and her allegiance to Gov. Scott is not necessarily a good thing since his backroom deals with Jeb Bush and Arne Duncan on Common Core and his manipulation of state funds for Enterprise

Florida leave a great deal to be examined in regard to Gov. Scott. Also not enough experience and prone to judge according to her opinions rather than the law.

✖ **Sen. Jeff Sessions** – Unless he wants an appointment America needs him in the Senate – someone with common sense and a level head to replace Mitch McConnell. If he chooses to accept an appointment he would be good at any one of them suggested.
Former Mayor Rudy Giuliani – We love this man!

Secretary of Commerce:

Chris Christie – No – better suited for a different position

Former Nucor CEO Dan DiMicco – Responsible choice

Former Gov. Mike Huckabee – Is this the same Mike Huckabee and his wife that removed furniture from the governor's mansion when they moved out; or the very same one that told his national TV audience that he no longer supported Common Core after been on Jeb Bush's team to push it on our children, then went and had lunch with the CCSSO and told them not to dump Common Core but to "re-brand it – rename it" and soon enough parents would forget what Common Core was. The same one just before stating he was going to run for the Presidency him along with all the other ex-governor's decided they no longer supported Common core. [[LINK](#)]

Sen. David Perdue – Globalist insider

Sam Brownback – Superior Choice – Currently Gov. of Kansas, in 1990, he was accepted into the White House Fellow program and detailed to the Office of the U.S. Trade Representative from 1990 to 1991. Brownback then returned to Kansas to resume his position as secretary of agriculture and remained in that position until 1993. In 1994 he was elected to the U.S. House of Representatives.

Former Sen. Jim Talent – NO – Senior fellow on American Enterprise Institute (AEI)

Agriculture Secretary:

Charles Benbrook, Ph.D. Great Choice – Benbrook holds a bachelor's degree in economics from Harvard University (1971), as well as an M.A. (1979) and a PhD (1980) in agricultural economics from the University of Wisconsin-Madison. Author of the landmark paper on the use of glyphosate which is causing serious health issues for Americans and the world such as liver and kidney diseases, as well as non-Hodgkin lymphoma to name a few. The paper details that nearly 19 billion pounds (8.6 billion kilograms) of glyphosate have been used world-wide since the introduction of "Roundup Ready" GMO crops in the mid-90s. In 2014 alone, enough glyphosate was sprayed to cover three-quarters of every harvested acre of cropland in the U.S. Most shocking, 74% of all glyphosate ever sprayed has been done so in the last decade as the amount of genetically engineered crops has grown exponentially across the globe.

Stephanie Seneff, PhD, biologist – She has three degrees from MIT: Bachelor of Science (BS) in biophysics in 1968, a master's (MS) in electrical engineering in 1980, and a doctoral degree (PhD) in computer science in 1985. Senior research scientist at the Computer Science and Artificial Intelligence Laboratory (CSAIL) of the Massachusetts Institute of Technology (MIT). She noted that the side effects of autism closely mimic those of glyphosate toxicity, and presented data showing a remarkably consistent correlation between the use of Roundup on crops (and the creation of Roundup-ready GMO crop seeds) with rising rates of autism.

Gov. Sam Brownback –Yes – current Gov. of Kansas, signed into law one of the largest income tax cuts in Kansas' history and turned down a \$31.5 million grant from the U.S. Department of Health and Human Services to set up an insurance exchange as

part of the federal health care reform law.

Kansas secretary of agriculture in 1986.

National Council of Farmer Cooperatives CEO Chuck Conner – NO – NCFC supported the TPP which tells to me that Mr. Conner does also.

Gov. Dave Heineman – Great Choice – Gov of Nebraska – Among his accomplishments as governor, Heineman pointed to the passage of the largest tax relief package in state history and the most comprehensive revision of the state's economic development incentives since the 1980s.

Texas Agricultural Commissioner Sid Miller – NO – When they begin introducing someone as a politician before their qualifications I am leary but he is qualified. Not enough information to make a decision.

Former Georgia Gov. Sonny Perdue – No – status quo – Globalist insider!

Secretary of Education:

Anita Hoge: YES – Lectured all over the United States in the 90's about illegal & controversial testing, curriculum, & collection of data by our government. Arranged & lectured town hall meetings all across the state of Pennsylvania to withdraw affective student learning outcomes to stop Outcome Based Education. In January of 1992, parents in Pennsylvania won the battle against OBE when the Independent Regulatory Review Board had requested that the State Board of Education remove all outcomes which dealt with attitudes, habits, traits, feelings, values, & opinions which are difficult & subjective to measure & that the remaining outcomes be defined & coordinated with academic requirements that can be measured. The battle continues.

Continues to research and address the issues regarding the

education of our children for parents i.e., Common Core, Charter/Choice/Vouchers, ESSA, Data Mining

Ed Martin, President Eagle Forum – YES – He is a lawyer who has worked alongside Phyllis Schlafly working on the essential problems facing our country and against the new liberal forms of education. He also holds degrees in Medical ethics and Philosophy.

Dennis Cuddy, Ph.D. – YES – Historian and political analyst received his Ph.D. from the University of North Carolina at Chapel Hill (major in American History, minor in political science). Dr. Cuddy has taught at the university level, has been a political and economic risk analyst for an international consulting firm, and has been a Senior Associate with the U.S. Department of Education.
