

Mujahedeen Khalgh's New Deceptive Tactic

Recently, I came across a website by the name of Organization of Iranian American communities or (OIAC). Its mission statement says: "OIAC works to promote human rights and democratic freedoms for the people of Iran. This includes advocating for a democratic secular government in Iran, founded on respect for human rights, religious tolerance, and equality among all citizens." Nothing could be further from the truth.

Well, it appears OIAC or better known as the MEK is following in the footsteps of the National Iranian American Council (NIAC), an influential Islamic Republic of Iran (IRI) lobby in Washington, DC, one which has long sought rapprochement between Washington and Tehran and has infiltrated the US Congress promoting Iran's Mullahs agenda while claiming "NIAC promotes an active and engaged Iranian-American community in the US and celebrates the community's deep historical and cultural roots and traditions." Pure garbage.

Hassan Dai, an Iranian activist and political analyst, in an OP-ED slammed this despised and deceptive group that used the White House (during the Obama administration) to advance The Islamic Republic's agenda.

OIAC or MEK is an Islamist-Marxist cultish group headed by Maryam Rajavi, the wife of the deceased co-founder of MEK, Massoud Rajavi. During the 1970's they rebelled against the Shah and were involved in bombing and shooting American and Iranian targets. The MEK or (OIAC) executed U.S. Army Lt. Col. Lewis Hawkins in 1973 as he was walking home from the U.S. Embassy and in 1975 killed two American Air Force officers in their chauffeur driven car, an incident that was studied and subsequently used in CIA training as an example of how not to

get caught and killed by terrorists. Between 1976 and 1978, the group bombed American commercial targets and killed three Rockwell defense contractors and one Texaco executive.

Mujahedin-e Khalq (MEK) is known for its cultish Foreign Terrorist Organizations and represents a critical threat to Iran's indigenous democratic movement. Unlike Iran's democratic opposition, which advances the principles of democracy and human rights through nonviolence, the MEK is an undemocratic organization that pursues its agenda through violence.

Michael Rubin, penned an Op-Ed stating: The Mujahidin e-Khalq Aren't America's Friends.

"The Trump administration, however, is reportedly reconsidering the pariah status of the MEK within U.S. diplomacy. Barbara Slavin, an American analyst often apologetic to the Islamic Republic, reports that "US administration talking points no longer exclude the Mujahidin-e Khalq as a potential replacement for the government of the Islamic Republic of Iran." While there remains a great difference between "refuses to exclude" and "supports," Slavin is correct to raise concern.

Houston, we have a problem. The MEK cult was listed as a terrorist group in the US until 2012 – but its opposition to Tehran has attracted the backing of John Bolton, Rudy Giuliani and others bent on regime change.

After the American invasion of Iraq, Maryam fled to France. Her headquarters in Auver sur d'oise in the suburb of Paris was raided by the French Police in June 2003. She was placed under arrest together with 160 of the group members and the assets of the MEK were frozen by the French judiciary. The Police seized millions of dollars from the group's headquarters. The group was accused of preparing to commit or finance acts of terrorism and money laundering.

A dozen diehard supporters of the Cult of Rajavi set themselves on fire to protest the arrest of Maryam. Two women were killed eventually.

French Police released the cult leader to stop the horrible scenes of self-immolations in European capitals. In France, Maryam became the administrator of Massoud's office. The close relationship between Maryam and Massoud in the office led to their dramatic marriage in 1985 immediately after her divorce from Medi Abrishamchi. The marriage was celebrated as an

ideological revolution in the history of the group. Maryam Rajavi was named the co-leader of the MEK.

Maryam Rajavi is highly admired by America's mayor, Rudy Giuliani. For years, Giuliani has been one of the most prominent American officials to advocate on behalf of the MEK, a Marxist Iranian opposition group that claims to be the legitimate government of Iran and more resembles a cult.

Giuliani went so far as to call Maryam Rajavi a heroic woman. He tweeted: "2018 Iran Uprising Summit #FREEIRAN2018 is focused on the uprising in Iran posing an alternative to the homicidal regime. The regime has announced that the MEK is the only organization that can realistically replace them. The movement is led by Maryam Rajavi, a heroic woman."

Maryam Rajavi, a self-styled president in exile is another Khomeini like leader. Like her deceased husband, she is extremely narcissistic and an Islamist-Marxist fanatic. If she ever grabs the power in Iran, the first thing she would do is to eliminate the opposition and use the mass media to brainwash the people just as the MEK has done to their handful of followers. They will create a Stalinist dictatorship that would make both Iranians and Westerners nostalgic for the mullahs. **Don't do it!**
