

# Never Underestimate the Power of Stupid People

The sage comedian George Carlin said, “Never underestimate the power of stupid people in large groups.”

Everyone enjoys a “point of view” on just about any subject or event. If you interviewed a dozen people at an intersection where a car accident took place, you would get 12 different versions of the same accident.

A number of weeks ago, Renee Good, mother of three, harassed and blocked I.C.E. agents from doing their jobs arresting criminal illegal aliens out of Minneapolis, Minnesota. Among hundreds of other demonstrators, she used her SUV to block the road so I.C.E. agents couldn’t move their vehicles loaded with illegal criminal aliens. When ordered to vacate her car, she refused and punched the gas with an I.C.E. agent right in front of her. He screamed “Stop”, but she tried to run over him; but instead, he shot her. She died. Really stupid act on her part! She ruined his life. She ruined her children’s lives. She ruined her “gay” spouse’s life. And, she ruined her friends’ lives by her early departure from the planet.

Of course, you have to read another half-dozen interpretations on what happened. Only time and video tapes will bring the truth to all of us. Nonetheless, Renee Good suffered a totally tragic and final act of her life.

Who do we blame? How do we get to the bottom of this national tragedy when Governor Tim Walz of Minnesota and Minneapolis Mayor Jacob Frey encouraged, [supported and instigated common citizens toward anarchy](#), violence and attacking I.C.E. agents? Why did either of those men move that state and that city toward an unlawful “Sanctuary City” status that harbored thousands of illegal criminal aliens of every description? It’s pure anarchy against our United States Constitution.

On top of that, Minneapolis features the largest taxpayer fraud scandal in history. Somalian immigrants stole between \$9 billion and \$19 billion taxpayer dollars while pretending to be non-existent daycare centers or restaurants feeding the hungry. Again, total fraud on a massive scale! Mayor Frey and Governor Walz both knew about it, and both of them squashed any investigation for years—said a half dozen whistleblowers. If not for citizen journalist Nick Shirley, the fraud would have gone on for years.

It proves Carlin’s quote, “Never underestimate the power of stupid people in large groups.” As you know from previous reports, the Somalian people average IQ’s that tap out at 67.7. To give you perspective, a moron is rated at 60 IQ. Yet, 80,000 Minneapolis Somalians scammed billions of taxpayer dollars—with the help of many “smart” state-wide welfare workers.

But what is really stupid beyond understanding, stems from the fact that hundreds if not thousands of seemingly well-educated “white” Minneapolis residents are storming I.C.E. officers, blocking them, doxxing them, throwing bricks at them, blowing whistles, tossing fire crackers and impeding I.C.E. operations to rid America of 25 million illegal aliens. They have already arrested and deported 2,500 out of Minneapolis.

In other words, the “rule of law” has been abandoned by a bunch of thugs who think their neighborhoods should harbor illegal alien sex offenders, drug pushers, rapists, MS-13 gang

members, mentally ill and perverts.

Again, Carlin said, "Never underestimate the power of stupid people in large groups."

So as not to be left out, Alex Pretti, nurse, 37, walked up to U.S. Border Patrol officers brandishing a 9 mm handgun with an entire extra clip of bullets. He threatened them. He would not lay down his weapon. They shot him. Dead! He ruined his life. His family's life. His friend's lives. And, of course caused more chaos and turmoil in Minneapolis.

"Pretti, a 37-year-old Minneapolis resident and U.S. Department of Veterans Affairs ICU nurse, was shot during an immigration enforcement operations early Saturday targeting Jose Huerta-Chuma, an illegal immigrant with a criminal history including domestic assault for intentional conflict bodily harm, disorderly conduct and driving without a valid license. Homeland Security officials said Pretti approached Border Patrol Agents while armed with a 9 mm pistol and "violently resisted" when they attempted to disarm him."

Again, just plain STUPID actions that got him killed.

Who do you blame? Pretti? Governor Walz for instigating the lawlessness? Mayor Frey for supporting anarchy? Or, Joe Biden for allowing 15 to 20 million illegal aliens into America?

In another case, a really stupid teenager: "In Minneapolis, these rioters attacked our law enforcement officers and one of them bit off our HSI officer's finger," McLaughlin wrote in the post. "He will lose his finger."

That's a Federal Offense to attack a Federal Officer. The teenager just screwed up his youth with a jail sentence on his record.

Here's another quote, "Democrats warn that I.C.E. crackdowns will make illegal immigrants afraid to vote."

You must ponder why the support of anarchy from the governors of Minnesota, New York City, Chicago, Los Angeles, Denver and other Sanctuary States and Cities? Why would their leaders support outright lawlessness within their midst? Why would they support and harbor drug cartels? Why support known gangs that kill Americans with drugs? Why would Chicago's Mayor Brandon Johnson want his taxpayers to fork over billions of dollars for illegal aliens? Or, the same for Denver's Mayor Johnston. Or, any of those big city mayors like the new Communist-Muslim-Ugandan Mayor Mamdani of New York City? They are all defying Federal Laws, and they are getting away with it—except for the chaos and deaths they have caused to American citizens.

Notice they are all democrat-controlled cities! Why do democrats support communism-socialism when it has failed across the board for over a century? Why do democrats think men should compete against women in women's sports? Why do they think it's okay to have boys invade girl's changing rooms and showers? What kind of madness do we see creeping across America...into the depths of our once healthy culture?

As we continue to import millions of "Stupid People in Large Quantities" to the tune of 1,000,000 legal immigrants annually out of Third World countries, we're going to see more and more incredibly stupid people doing incredibly stupid things. We're going to hear more and more, "Death to America" chants by our Muslim imports now at over 4,000,000. Think Dearbornistan, Michigan. We're going to see more and more of our schools failing because the kids are SO DUMB from having "SUCH DUMB PARENTS", that our country will degrade into another society resembling Somalia. We're going to see more homelessness. We will see more absurdities that we see in Minneapolis.

Mark Twain offered sharp, humorous, and cynical observations on stupidity, famously advising against arguing with foolish people. "Never argue with stupid people; they will drag you down to their level and beat you with experience," and noting

the power of sheer ignorance “Awkwardness and stupidity can beat smartness and foresight.” He also quipped about the perception of intelligence, saying, “It’s better to keep your mouth shut and appear stupid than open it and remove all doubt.”

Minnesota’s Governor Tim Walz and Minneapolis’ Mayor Jacob Frey have removed all doubt.
