

New Election Lawsuit: Plaintiffs RNC & Donald J. Trump

Authored by Devvy Kidd not AI

“One of the most cowardly things ordinary people do is to shut their eyes to facts.” –C. S. Lewis

There is great hope President-Elect Donald Trump, who was absolutely cheated for a second term, will win this November. Never mind all the conspiracy theories peddled by the prostitute media and mindless hens on garbage TV shows like The View that career criminal, Joe Biden, won in 2020.

That quote pretty much sums up the blabbermouth “experts” on CNN, MSNBC, ABC, NBC, FOX, CBS and bird cage liner newspapers like the *NY Times* “all the news that’s fake to print”. It’s really all about blind loyalty to a political party and their agenda, not to pedo sniffer Joe Biden. It’s about the immoral and unconstitutional rules and regulations that have been rammed down our throats by unconstitutional cabinets and agencies. All unelected by We the People.

and his love for Executive Orders he can shove where the sun doesn't shine. Please remember Executive Orders only apply to federal employees and are not law. [VERIFY: Explaining the difference between executive orders and laws](#)

What's most important right now is to make sure the shadow government's pimps don't get away with it again. Not only was Trump cheated but so were constitutionally grounded candidates running for the U.S. House and Senate.

Kari Lake won the governor's race, not the lying, cheating, morally bankrupt skank, Katie Hobbs, who parades around masquerading as AZ's governor like she's some kind of queen. Well, Katie: Look in the mirror and what do you see? Someone who cheated her way into a high office who hasn't an ounce of integrity or honesty. Someone who cares nothing for the truth, only her ego and lust for power.

Dominion admitted their software was defective three days after the Nov. 2020 Election by LYLE J. RAPACKI, Ph.D., *ARIZONA TODAY* who was/is heavily involved in exposing the truth about the Big Steal in AZ (as did happen in NV, PA, GA, MI, MN). Quoting Lyle from his email, March 14, 2024: "For the past three and a half years, more concerns, evidence, witnesses, and discoveries have shown a well-planned and executed process to interfere with the election of November 7,

2020, and then again in the 2022 election, at least within Arizona. Almost the entire legal system either denied such, would not hear such, or would not rule on such even after compelling evidence and testimony were presented.

“People directly involved lost jobs, income, and positions in the community fighting the good fight to restore election integrity and security. Many elected officials could not be bothered to tackle such controversy and “conspiracy-minded” stuff. The cost to those who continued to fight the good fight for election integrity has been quite real, quite heavy – emotionally, as well as financially. To this day, I periodically meet someone who doesn’t hesitate to tell me it was all a conspiracy and political theatre.

“As running mates, Mark Finchem and Kari Lake filed in U.S. District Court, Arizona, an action requesting a temporary restraining order, alleging such egregious acts and violations of integrity in the electoral process.

“Today a Writ of Certiorari (cause to re-examine) is being submitted to the U.S. Supreme Court given the copious and prodigious amounts of evidence not allowed into lower courts but have now become painfully evident that such should have occurred. The gravity of the evidence from 2020 and continuing to present, is alarming and quite sobering. Then I received the 19-page report below dated March 19th, 2023, wherein Dominion admitted their voting software was defective, had “design flaws,” and “serious bugs.”

“Let us pray that the U.S. Supreme Court accepts the petition to re-examine, people are held accountable, and face consequences; and our electoral process takes a giant step forward toward returning to a transparent, secure, and integrity restored, so we all can trust again. [The link below](#) takes you to the 19-page Dominion report and confession.”

Dominion admitted their software was defective three days

after the Nov. 2020 Election – Mar 13

“Dominion Voting Systems knew its software was compromised and covered it up until Friday. That was when emails between Dominion employees disclosed the cover up. The emails are now evidence in a Michigan Court case, 2023-285759-FH.

“Dominion employees admitted that its voting software was:

- defective
- had “a serious bug” and
- “design flaws.”

The filing is 59 pages and [is linked here.](#)”

Of course I read it. Please do note almost all the names are Serbian: Aleksandar Lazarevic, Dragan Djordjevic, Dalibor Milovanovic, Ranko Stamatovic and Goran Obradovic to name a few. Pg 10: Affidavit of Sheriff Dar Leaf signed and notarized March 8, 2024.

Pg. 36: Must stop all the wild conspiracy theories “promoted by the president.” Email dated Nov. 12, 2024, obviously referring to President Trump. Pg. 52: Oh, my...the F word.

And, of course election fraud in local elections, i.e.:

[Harris County Judge Orders New Election for 180th District Court Seat After Controversial 449-Vote Loss – Nearly 1,500 Votes Cast Illegally](#), May 15, 2024

“In a landmark decision, a Bexar County visiting judge has ordered a new election for the 180th District Court seat in Harris County, Texas. This ruling comes after Republican candidate Tami Pierce narrowly lost to Democrat DaSean Jones by a mere 449 votes in the November 2022 election.”

BREAKING BOMBSHELL

“At this very moment at a polling location in Columbia, South Carolina, not only do we have access through the devices to the poll-pad, the system. BUT WE ARE IN.” It’s called hacking. How the votes were changed for Biden.

Besides the massive fraud from voting machines and scanners, the Big Steal was made possible by fake Americans counting votes. I say fake because true Americans should believe our elections must be fair and honest even if our candidate of choice legitimately loses. 2020 & 2022 exposed our election system as two of the most corrupt, dishonest election events in our history.

The destruction since usurper, Joe Biden, was unlawfully sworn into office along with cackler fake VP, Ho Kamala Harris is almost beyond words. Credit for allowing the fraud to succeed should also be given to the rotten SOB, FBI Director (Trump should have fired him on day one), Christopher Wray.

Turncoat U.S. Attorney Bill Barr as well as state judges who turned a blind eye to actual, *physical evidence* as was the case in Nevada. I also watched the Nevada hearing live and despite *paper proof* thousands and thousands of votes cast by registered voters WHO NO LONGER EVEN LIVED IN NEVADA was just fine with the judge who sided with the cheaters. Another partisan hack with no moral standards.

Trump has promised that on day one he will begin the biggest deportation operation ever seen in this country among other critical issues. Like Trump, hate his old tweets, don’t like his hair – put a sock in it. This isn’t a personality contest or gee, isn’t Bill Clinton so handsome! Yeah, like a rattlesnake. Our very survival is going to depend on getting Trump in the WH and taking control of both the House and Senate. Unfortunately, too many RINO’s allegedly won their primaries so it won’t be all roses and happy days. But Trump

is going after the hordes of illegals.

Only We the People can stop another steal. Regular readers of my columns know I've been focusing on the 1997 U.S. Supreme Court 9-0 decision in *Foster v. Love* 9-0 for years. Did everything in my power to get Trump to file with the Supreme Court right away. (I know others did, too but were also ignored.) Since I'm a nobody in Trump's circle, I'm sure my packages to him, his Chief Adviser, Stephen Miller and his NV case attorney, Jesse Bennell, just got tossed in the garbage can. Instead, the "legal" circus that ensued following Nov. 3, 2020 was obscene. *It never had to happen that way.*

THAT is exactly the sledgehammer that cheated Trump: Huge containers of ballot dumps in the middle of the night, tens of thousands of ballots "found" after Cheater Joe Biden was selected and rubber stamped by whores in the so-called "mainstream media" and state courts giving the okay to accept and count ballots days or weeks after election DAY. Day – singular – is 24 hours, not three days or two weeks later. Trump was ahead before midnight ON election DAY. China Joe Biden could not have won the election.

January 29, 2024: [Finally: RNC Files Bombshell Election Lawsuit](#) (Mine). If you missed it or need a refresher, **please take the time to read it** because it has all the details and FACTS as well as using *Foster v Love*. Most important is another lawsuit filed. Every GOP State Republican Party (and plaintiffs) in this country should join with Trump as Plaintiffs and file NOW using Nevada or Mississippi's filing.

[Trump Campaign Files First 2024 Election Lawsuit, Demands Ban on Counting of Mail-In Ballots After Election Day](#), May 4, 2024 (Emphasis mine): "The lawsuit is a response to legislation passed by Nevada's Democratic-controlled legislature back in 2021, which allows the tallying of mail ballots received up to four days after Election Day so long as the envelopes are postmarked before the end of the day.

“Nevada’s ballot receipt deadline clearly violates federal law and undermines election integrity in the state,” RNC Chairman Michael Whatley said in a statement. “Ballots received days after Election Day should not be counted.”

“Nineteen U.S. allow the counting of mail-in ballots received after Election Day.* The law’s claim they allow more voters to participate, although they are commonly used as a way of giving Democratic operatives enough time to “find” the necessary votes to ensure victory. (I think author meant 19 U.S. states.)

“Although this is the first lawsuit filed by Trump’s presidential campaign, the RNC has already filed five separate lawsuits targeting election integrity across six state.” (I think the author meant states.)

UNITED STATES DISTRICT COURT DISTRICT OF NEVADA filed May 3, 2024:

REPUBLICAN NATIONAL COMMITTEE; NEVADA REPUBLICAN PARTY; DONALD J. TRUMP FOR PRESIDENT 2024, INC.; and DONALD J. SZYMANSKI, Plaintiffs

COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

Page 7:

“I. There is only one federal Election Day.

26. The U.S. Constitution’s Elections Clause vests state legislatures with power to set the time, place, and manner of congressional elections. U.S. Const. art. I, §4, cl. 1.

27. But the Elections Clause also reserves to “Congress” the power to “at any time by Law make or alter such Regulations, except as to the Places of chusing Senators.” Id.

28. A law governs “‘the election’ of a Senator or

Representative” when it “plainly refer[s] to the combined actions of voters and officials meant to make a final selection of an officeholder.” *Foster v. Love*, 522 U.S. 67, 71 (1997).

29. Exercising its constitutional power to pass laws governing elections for federal offices, Congress has established one specific day as the uniform, national Election Day for members of the United States House of Representatives and of the United States Senate. For both offices, the “Tuesday next after the 1st Monday in November” is “the day for the election.” 2 U.S.C. §7 (elections for members of the House of Representatives held on that day “in every even numbered year”); see also *id.* §1 (Senators to be elected “[a]t the regular election held in any State next preceding the expiration of the term for which any Senator was elected to represent such State in Congress, at which a Representative to Congress is regularly by law to be chosen”).
30. The U.S. Constitution also vests in “Congress” the power to “determine the Time of choosing the Electors” for the offices of President and Vice President. U.S. Const. art. II, §1, cl. 4.”

Now, I have spoken with our County Judge who presides over our county Commissioners Court and is responsible for our elections. Judge Johnson (I voted for him) is an honest man, a genuinely patriotic American who is taking this seriously. I explained to him last week just because we have such a disgusting low voter turn out doesn't mean down the road we could have 75% voting.

There are almost 3,200 counties in the US; Texas has a whopping 254. Howard County is small. The corrupted census (they count ILLEGAL aliens) shows our 2020 population at just under 34,000. I've also spoken with the head of our Elections Division who assured me that Supreme Court decision doesn't

really affect us because they're done counting ballots by 10:30 pm and go home.

Well, when you have only 8.74% of registered voters get to the ballot box (*truly disgusting*), sure, it can get done fairly quickly. **But it does matter:** *ALL counties in the U.S. must follow federal law regarding federal elections, period.* I will keep readers up to date on the lawsuits. The Democrat/Communist Party USA and their coconspirators are already planning how to steal the November election again and you can bet they will demand ballots can be harvested and counted forever after election day using voter suppression or some other BS as justification.

I must bring this up. Career criminal, fake president Joe Biden, is in the first stages of Alzheimer's so forget the senile or dementia as he's long past that. [Joe Biden Spins Around Looking Dazed and Confused at Campaign Event in Atlanta \(VIDEO\) – May 18, 2024.](#)

Anyone whose been around a person with Alzheimer's knows how their loved one reacts, talks and gradually loses their mind. *It is horribly painful for family and the individual.*

My message to Trump is stop running ads making fun of Biden falling on stairs and his constant mumbling, stumbling and obvious loss of being able to remember what he's saying even though there's a teleprompter to guide him. It simply isn't necessary as the whole world can see Joe Biden's brain no longer functions properly. [President Trump Eviscerates Joe Biden In Hilarious 'Keeps Falling' Music Video On Truth Social](#), May 18, 2024.

According to the Alzheimer's Association, seven MILLION Americans suffer from Alzheimer's. *Their families suffer with them.* To have a presidential candidate run ads poking fun of someone who suffers from that terrible disease during a campaign rally/speech, IMHO, shows no compassion even if it's

only directed at his political opponent. Trump might consider family and friends of a Alzheimer's victim probably vote and I think many could get angry enough to vote against Trump or simply skip that box on the ballot. Trump has enough ammo (metaphorically speaking) on Biden's failures without having to resort to mocking Biden's obviously absent mind.

Even tho' Biden is a career criminal who should be tried, convicted and sent to Supermax in Colorado, it will never happen. I predict that in the not-too-distant future there may be no other choice but to put him in an Alzheimer's facility. Pumping old Joe full of amphetamines can only go so far. [EXCLUSIVE: WY Rep. Harriet Hageman Slams Merrick Garland's Election Interference in Hiding "How Joe Biden is Failing in Terms of Mental Acuity"](#) By Refusing to Turn Over Biden/Hur Interview Tapes (VIDEO), May 18, 2024

Who knows what's going to happen between now and the DNC convention. Should Joe step aside "for the good of the country", who knows which Marxist marionette will be the new standard bearer as long as that traitor follows instructions from the real power behind the Oval Office. No question it's been dirty cheater, America hating, Hussein Obama and Valerie Jarrett since January 2021. Actually, he's just the middle man following orders from the cabal of massively wealthy global elites.

The most important goal for the traitors running America behind the curtain is to keep Donald Trump from winning again. The lawfare plan has backfired big time and bottom feeders like Jack Smith, Porky Alvin Bragg, Big Fani Willis and the rest of them know it – including a couple of partisan judges who have disgraced their profession and don't give a damn. Just "get Trump".

Regardless of the size of your county, only We the People are going to stop another steal. I know we all have full plates but we are down to our last chance to stop this communist

revolution taking place on college campuses, Congress, state capitols and lower city and county officials. I've been in the trenches full time for 31 years, *do not doubt my word*. The Unreachables and useful fools can call themselves liberals or progressives but their political ideology is communism with a good dose of fascism thrown into the cauldron.

It isn't enough just to stand around and watch votes counted. We saw what happened in 2020 when authorized Republican observers were literally shoved out the door. Like many others, I wrote a million words about the Big Steal. We can't let it happen again. How we stop it will be my next column. I know Trump's teams are on this but with almost 3,200 counties and all the thousands of precincts, it's going to take lots of boots on the ground.
