“Useful men, who do useful things, don’t mind being treated as useless. But the useless always judge themselves as being important and hide all their incompetence behind authority.”
–Paulo Coelho

With an invasion of over 11 million illegal aliens now penetrating every corner of America, it’s safe to say that Joe Biden will go down in history as the most useless, incompetent and inept president ever to be elected to the presidency. He did it at blinding speed in 37 months. He did it without any understanding of the long-term consequences. He accomplished his intention to fundamentally change America from its successful foundation to a crumbling nightmare of accelerating conflict.

“The problem with incompetence is its inability to recognize itself,” said Orrin Woodward

Whether it’s Barack Obama, who vowed to fundamentally change America, or his followers who are entrenched in the Biden White House situation room—there is no question that America is being changed by one man or his handlers.

As the radio host Charlamagne said, “Biden has no main character energy.”

In other words, he's boring because he is 81 years old with severe dementia and cognitive problems. He's not in charge. He's not making rational decisions. He's not capable of handling the rigors of being president of the United States. Ironic that he has never worked a real job in his life in that he has been on the public dole in Washington DC for over 50 years. He never introduced one piece of legislation that improved America. He's on par with Maxine Waters, Ilhan Omar or Rashida Talaib who are just as useless. He was an avowed racist through the 60's, 70's, and 80's, but somehow transformed into Black America's hero in the last 20 years.

The New York Times wrote this week, "Biden is not up for another term."

Henry Hazlitt said, "The whole gospel of Karl Marx can be summed up in a single sentence: Hate the man who is better off than you are. Never under any circumstances admit that his success may be due to his own efforts, to the productive contribution he has made to the whole community. Always attribute his success to the exploitation, the cheating, the more or less open robbery of others. Never under any circumstances admit that your own failure may be owing to your own weakness, or that the failure of anyone else may be due to his own defects – his laziness, incompetence, improvidence, or stupidity."

The incompetent withdrawal from Afghanistan that got 13 military personnel killed proved sheer incompetence by Biden and his General Milley. The incredible incompetence and outright corruption of inviting over 11 million illegal aliens into our country tops the list for sheer insanity of non-leadership. The stunning deaths of 300,000 of our young people in the last three years from Biden's open borders for drug cartels should have him impeached for his incompetence. The fact that he can't put two sentences together in one speech or enforce our nation's laws should make him eligible for the

25th Amendment.

“In a hierarchy, every employee tends to rise to his level of incompetence.” Lawrence Peter, The Peter Principle

Mr. Peter wrote that book in the 1960's. It states that in a system like ours, every person is promoted to his or her highest level of incompetence. Once at that level, that person wreaks havoc on everyone below their “rank” or “level” of authority.

As to all the “Sanctuary Cities”, all hell is breaking loose. It's costing billions to house, feed and care for 11 million plus people who broke into our country without permission. One African-American yelled at the Chicago City Council, “Biden's junkin' up our city with these illegals.” Another Black said, “What about our people being served instead of all those illegals?”

New York Sanctuary City Mayor Adams said, “This invasion is destroying New York City.” Well, if you call illegal aliens beating up cops and shooting people, you would be correct. But then, Adams supports the 172,000 law breakers who have invaded his city. The costs are now into the hundreds of millions of dollars.

Whether you're one of the 38 percent of Americans who approve of Joe Biden, which means you must be suffering from Alzheimer's, too...because no one in his or her right mind would support such incompetence. Or, you're part of the rest of the majority of the country that wants him to drop out...he's already done the damage that won't be solved unless every one of those people faces deportation.

No matter how you look at “incompetence”, Joe Biden has set the benchmark for the worst president in American history.
