

November 2024: Votes Still Being Counted Congress: Are Those Elections VOID?

Authored by Devvy Kidd Not AI

November 11, 2024

"The real rulers in Washington are invisible and exercise power from behind the scenes." –Supreme Court Justice Felix Frankfurter, 1952

First, I want to thank Almighty God for giving America another chance to save our country from those who control Washington, DC and the greedy, lust for power lapdogs they get elected.

Second, to the massive number of volunteer Americans in groups, GOP party committees, lawyers, door knockers, clubs – all who sacrificed their time and money to get Trump elected and not cheated again.

Third, to every American with the legal right to vote got to the polls. The 'silent majority' have had it with being lied to; their lives and businesses destroyed over the last 4 years. I always say empty bellies make for angry voters and as disgusting and truly unbelievable in a nation so rich in resources, (impossible to get an exact number) Americans across the country regardless of party or race are going without meals because inflation is killing us.

The other day I saw a photo of cars lined up with pet owners and their furr babies to get donated dog food to feed their doggies and cats vs having to surrender to a kill pound or

city “shelter” that does kill because they’re drowning in dogs and cats.

One other outcome of this *election we should thank God and intelligent voters* for and that is Republicans now hold the majority in the U.S. Senate. Think U.S. Supreme Court Justices as well as federal judges confirmed. Remember 2026 mid-terms aren’t that far away. [The 2026 Senate Midterm Map Looks Rough for Democrats](#), Nov. 8, 2024

While brainwashed Marxist voters wail and cry because Trump was able to keep from being cheated a second time and pollsters and blabber mouths on cable networks or political pundits on line – who also support the goals of the Communist Party International, a number of states/counties are still counting as I write this who have yet to finish counting votes long AFTER election DAY for federal offices.

The legal question here is the same one raised in 2020 but only in independent media. The Mockingbird or Legacy Media aka mainstream media as well as social media sites made damn sure the question was never raised. The 2020 selection ~~election~~ wasn’t called until the Saturday following Election DAY.

There are still some active lawsuits out there on this legal issue, but this **MUST** be settled **before the next mid-term elections** because the lying cheating pieces of feces in the Democrat Communist Party USA will spend billions to take back control of the House and Senate. Democrats laughed themselves silly celebrating in 2022 because, allegedly, the predicted “red wave” didn’t happen. Pure propaganda because with election fraud (machines and anti-American vote counters) we have no idea unless a candidate who allegedly lost does a forensic analysis. For those unfamiliar with this, I’m going to include it because it is absolutely germane to this column:

GOP Must Take the House & Senate, Sept. 4, 2024 (Mine)

“I’ve written a million words about vote fraud since 1993, but we are at the end of the rope with this election. Make no mistake about that: [Democrat Voters Want a Communist America](#), August 12, 2024 (Mine)

“Want some provable examples of fraud? Look at my column from August 22, 2016 – especially the links at the bottom. It will sicken you. [Will we let them steal the election again?](#)

“[Electronic Voting Machine Gave Bush 4,258 Votes in a Precinct Where Only 638 Voters Actually Voted](#), Nov. 6, 2004: “According to this article at CNN.com, a voting machine in Franklin County, Ohio, gave 4,258 votes to Bush and 260 votes to John Kerry. The only problem is this: only 638 people actually voted there.”

“I’ll bring this up again because it’s critically important: [A Citizens’ Audit of an American Election](#), July 10, 2008 (Mine) “Richard Hayes Phillips, a former college professor, has written a new book titled, *Witness to a Crime: A Citizens’ Audit of an American Election*. This monstrous undertaking covers the 2004 election results in the State of Ohio.

“What makes Phillips investigation so compelling is the book is filled with concrete proof that the voters of Ohio were robbed of their right to fair and impartial elections. The amount of work that went into this investigation is staggering: 30,0000 images of forensic evidence, then personally examining 126,000 ballots, 127 poll books and 141 voter signature books from 18 counties in Ohio. This is the definitive and documented evidence of crimes that cannot, must not be ignored.

“One thing that showed up in his findings was **the same thing I wrote about back in 1996**: discrepancies in the numbers during the voting process – *where are those votes?* If you [click here and go to page seven](#) of my findings, you’ll see what I’m talking about. I knew what happened: vote rigging and it was

done by the machines. We saw the same thing repeat itself during this last phony primary season.”

“I interviewed Prof. Phillips about his book on my radio show, [Witness to a Crime: A Citizens’ Audit of an American Election](#).

A 100% approval level by readers (which also comes with a disc.) There’s no question globalist POS John Kerry won Ohio, but due to the cheating, George W. Bush was given the Electoral College votes and “won” the election.

“[Diebold Indicted: Its spectre still haunts Ohio elections](#), Oct. 31, 2013 – “Diebold: the controversial manufacturer of voting and ATM machines, whose name conjures up the demons of Ohio’s 2004 presidential election irregularities, is now finally under indictment for a “worldwide pattern of criminal conduct.” Worth the time to read the whole article. Yes, it would have been yet another tragedy for this country had Kerry become president, but I ask this question over and over and over: Are we a nation of laws or lies?

Right now, states still counting votes for those all-important House seats and the Kari Lake run for the senate *care nothing about the law*. Many counties in the destroyed state of California [were still counting](#) as late as Sunday. How shameful Arizona is now outdoing GA & PA as the biggest election cheating states in the Union.

If we’re going to fix a problem, we have to know all the facts and, in this case, it does require a fair amount of reading.

What good does all the work and sacrifices made to get someone elected only to have them declared the loser because of lack of knowledge and cheating? I am not a lawyer and have no legal training, but I do know how to read and research. There’s no question in my mind **federal elections**, – President, Vice-President, U.S. House and the Senate END at midnight ON election DAY.

Here we are nearly a week later: [**CONFIRMED: PRESIDENT TRUMP BREAKS HIS VOTE TOTAL RECORD FROM 2020 ELECTION!**](#) – His Third Straight Election to Gain More Voters – But Kamala’s Totals Creep Higher as Dubious Democrat Mail-In States Still Don’t Have Their Totals, Nov. 9, 2024:

“Trump is expected to add **another 2 million votes** to his totals from California alone when the state finally finishes its counting. **California has only counted 72% of their ballots as of Friday night.** This is totally unacceptable. This shows you how corrupt and insecure the system is in the Golden State. **California is not alone, Washington, Oregon, Colorado and Utah(?) are still counting ballots in an election that ended three days ago!**”

One thing I learned decades ago from my dear friends who are constitutional attorneys, brainiacs, you don't just read what someone says about a court case and believe every word. If a section of a state law, or Article in the U.S. Constitution is cited, *you have to go read the case and pay attention to the footnotes.* Obviously the same applies to decisions made by a court at whatever level. Many, many times over the decades I've had to hunt down the cases and read the decisions as well as verify state or federal statutes to make sure the author is accurate.

Oh, but we're all so sick and tired of listening to election “stuff”. Trump won, the GOP took the Senate and hopefully, after the unlawful and endless searching for votes days or longer the House will hold the majority. This issue and part 2 below *must become a priority* for YOUR state legislature, the RNC, all incumbents and candidates **AND judges** because the *2026 mid-term elections will be here before we know it.* Every GOP County committee and citizen voter integrity organizations and groups will need to hammer on their state judiciary committee.

Part 1: On Nov. 8, **2020**, a lawyer named Ren Jander wrote this: [Congress Has Affirmed State Legislatures' Unilateral Authority to Void Elections at Midnight after Election Day.](#)
Just a peek at what this is about:

Congress has exercised this authority by enacting *3 United States Code §1-18:*

“§ 1. Time of appointing electors

The electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President.

“The electors “shall be appointed, in each state” on a very specific day. This special day is known throughout the land as Election Day. The statutory language is facially, and analytically, unambiguous. The electors *shall be appointed* on Election Day. “Shall be appointed” is a command to the States.

“The exact day prescribed by this law upon which the electors shall be appointed is also unambiguous. Now, I ask you, were any electors appointed on November 3rd in any of the aforementioned states? The answer is unequivocally negatory. No electors were appointed at the time prescribed by law.

“Did Congress provide a means by which electors could be appointed if the states failed to appoint them on the day prescribed by law? Yes:” Rest at link above.

Now to part 2 by Jander, Nov. 18, 2020: [Elections Undecided by Midnight are Void & Preempted by Federal Law – Foster v Love \(1997; 9-0 Decision\)](#)

PREFACE OF THE BATTLE PLAN (Federal statutes are included.)

(Nov. 18, 2020) – “When the federal statutes speak of ‘the election’... they plainly refer to the combined actions of voters and officials meant to make a final selection of an officeholder... By establishing a particular day as ‘the day’ on which these actions must take place, the statutes simply regulate the time of the election, a matter on which the Constitution explicitly gives Congress the final say.” *Foster v. Love*, 522 U.S. 67, 71-72 (1997)

“We will take a closer at this binding precedent below, but in

preview, please understand that it emanates from a 9-0 *decision* of the United States Supreme Court, wherein the entire Court joined, not just the outcome, but also the opinion on this very point.

“The voters vote. The officials count. These combined actions form “the election,” and the election must be decided on *the day*. States that failed to make a final selection of officeholder by midnight after Election Day have violated the statute, subjecting the nation at large to the very evils Congressionally mandated deadlines were drafted to prevent.

“Federal Election Day statutes were designed to curtail fraud, and to infuse a prima facie sense of integrity in our electoral process. But these States – in failing to obey Congressional deadlines – have flagrantly attempted to preempt federal law. This is certainly prohibited, and this is why the late election results are void.”

Jander asked everyone to contact Trump – which I did twice by express mail; no response from him or his COS, Stephen Miller. Too bad Trump didn’t retain Dr. Edwin Vieira to go right to the U.S. Supreme Court (*Foster v Love was THEIR decision*) if Edwin would have agreed to represent Trump. And so, the circus of lawsuits and pressers began.

Referring back to part 2 by Jander, it’s very important to read: OCTOBER TERM, 1997

Syllabus

FOSTER, GOVERNOR OF LOUISIANA, et al. v.

LOVE et al.

[certiorari to the united states court of appeals for the fifth circuit](#). No. 96–670. Argued October 6, 1997–Decided December 2, 1997. It then went to the U.S. Supreme Court: [You can read the transcript of the oral arguments in Foster v Love here](#).

[Facts of the Case here.](#)

And here we are with another election mess with still undecided House and Senate seats almost a week later: [Republicans Now 6 Seats Away From Keeping House Control–But Key Races Too Close To Call](#), Nov. 8, 2024

I'm writing this column now so Americans, legislators, lawyers and hopefully some judges have plenty of time to get educated on what constitutes election DAY which does not mean days or weeks. As Jander writes in part 2 regarding the Big Steal in 2020, there was a very good reason for federal elections to end ON election DAY: "Federal Election Day statutes were designed to curtail fraud, and to infuse a prima facie sense of integrity in our electoral process. But these States – in failing to obey Congressional deadlines – have flagrantly attempted to preempt federal law. This is certainly prohibited, and this is why the late election results are void."

Kat Stansell has been in the trenches a long time and works very closely with Tom DeWeese, another true patriot and founder of his organization, [American Policy Center](#). Kat is an expert, *really*, on Florida's voting/politics and the RNC. Posted on her substack dated May 27, 2024, [RNC "Working Feverishly" Against Trump](#). I strongly urge you to read it. At the bottom of the page are a couple more articles, *this one will anger Republicans but we cannot hide from the truth: With Intent To Deceive*

URGENT: Call your U.S. Senator today and spread the word. The Senate is going to vote to elect a new Senate Majority Leader – the big power in the Senate. It's my understanding the voting will be behind closed doors and could take place over the next few days. God forbid it's my senator, John Cornyn or Thune. The first choice in reading all the predictions is Sen. Rick Scott [R-Fl].

READ: [Tucker Carlson Sounds Alarm on McConnell's Secret 'Coup' to Derail Trump's Plans](#), Nov. 10, 2024: "Tucker Carlson has thrown down the gauntlet, calling on Trump supporters nationwide to demand their senators back Rick Scott (R-FL) for Senate GOP leader.

"Carlson's rallying cry comes as longtime Senate Republican leader Mitch McConnell (R-KY) schedules a rushed vote for a new leader before newly elected senators from Tuesday's midterms are sworn in. The timing of McConnell's maneuver is raising eyebrows across the conservative landscape, as it could sideline incoming pro-Trump voices and cement the old guard's control over the Senate." [Mitch McConnell: 'America First' Is Foreign Policy 'Nonsense'](#), Aug. 2, 2024

The holidays are coming soon (Thanksgiving, Christmas and New Year's). But come January, this issue: federal elections end ON election DAY among a hundred others that should be at the very top of the list. **This insanity of what we're seeing must stop.**
