

Obama: His legacy of damage done to America

"In the face of war," Obama told the crowd gathered in Springfield for his presidential campaign launch in 2007. "You believe there can be peace. In the face of despair, you believe there can be hope. In the face of a politics that's shut you out, that's told you to settle, that's divided us for too long, you believe we can be one people."

Within two weeks, our national Obama nightmare fades into history's dust bin. Obama said, "I will stand with the Muslims if the political winds turn in an ugly direction."

As a Muslim, he lied as he pretended to be a Christian. He created the greatest racial divide in America since the 1960s. He created Islamic terror like never before by insuring ISIS enjoyed Iraq as a base of operations when he told them of his intention to leave that country unguarded.

As an African-Kenyan-American, Obama lived outside our country until the age of 12. He never inculcated the American way of life or our ethos, but he did become indoctrinated in the ways of Islam. He isn't and wasn't and never will be an All-American.

At some point, historians will unravel why he carries a fraudulent Social Security card. It will lead to the unscrambling and exposure to his real origins.

During his eight years in power, he flooded our country with Muslims and concurrent terrorists from the Boston Marathon to San Bernardino to Chattanooga to Orlando to Minneapolis to Ohio State University and more to come.

During his term, three out of four African-American children arrived into this world without a father. They arrived via

welfare to be locked into welfare for the rest of their lives as a mindset of entitlement. Welfare turns able-bodied human beings into slaves of the EBT card and handouts. Obama did nothing to change that.

As to race relations, Obama watched Muslim-Americans execute police officers to the tune of 64 deaths in 2016 alone. Obama facilitated "Black Lives Matter" as they marched in New York City, Dallas, Texas and Chicago, Illinois chanting, "Kill cops...when...NOW!"

He facilitated the false narrative from the criminal-thug Michael Brown episode with, "Hands up, don't shoot!" Obama never spoke to the fact that over 6,000 black Americans shoot 6,000 other black Americans, on average, every year during his term in office. As president, he could have created jobs, educational programs and positive action for America's inner cities. With his only qualification as a community organizer for being president, he stayed true to his credentials and did nothing.

Chicago became a black killing zone by blacks. This week, four black youths beat and tortured a mentally disabled white boy boasted their heinous act by featuring it on Facebook.

"Chicago, which just had one of its most violent years ever with over 800 black on black murders, was the scene of another horrifying attack this week. A young man, described as law enforcement sources as developmentally challenged, was beaten, kicked, and tormented for half an hour," Elliott, a witness, explained. "He concluded by alluding to the assault being broadcasted on Facebook and how the victim "had been reported missing from his home in the suburbs" but "is now in the hospital and four suspects are in custody."

Obama employed at least eight Muslim operatives as aides who advised him in the White House daily. As with all Muslims, their prime directive remains: "Convert or kill all non-

believers.”

Obama’s top aide Valerie Jarrett said this in 1977 in the yearbook at Stanford University: “I’m an Iranian by birth and my Islamic faith. I am also an American citizen and I seek to help change America to be a more Islamic country. My faith guides me and I feel like it is going well in the transition of using freedom of religion in America against itself.”

One other aide in the White House, Imam Magid, called the “Sharia Law Czar,” worked tirelessly to install Sharia Law into the American legal system. That law stands diametrically opposed to U.S. Constitutional law and against everything in America’s way of life.

Obama broke more laws by executive action than any other president. If not for the color of his skin to save him from prosecution, he could have been tried for treason and impeached for his illegal amnesties to illegal aliens.

Along with that reality, he did nothing to protect American workers from an average of 500,000 illegal aliens, including terrorists, crossing our borders annually for the past eight years. (Source: Dr. Steven Camarata, www.cis.org)

As to his bogus Obamacare, Barack Hussein Obama proved he lacked the intellectual horsepower or common-sense talents to construct a workable healthcare plan for all Americans. The Washington Examiner reported, “Obama also failed to wrest power from special interests, one of his central promises in 2008. Instead, he handed more power to lobbyists and big business. The drug lobby he campaigned against actually wrote the Obamacare legislation together with the hospital industry, and this helped make the law as bad as it is. The revolving door spun as fast as ever, with more than 100 lobbyists landing gigs in the administration, and untold dozens of Obama appointees cashing out to K Street or Wall Street.”

On so many other realities such as his increasing the national

debt from \$7-9 trillion to \$20 trillion, or allowing 350,000 anchor babies annually to swindle our tax dollars, or his \$85 million we paid for his vacations, or his importing terrorists along with Syrian refugees that will make their mark as they set off bombs or gun down our citizens which is guaranteed to happen in 2017 and beyond, or the neglect of our infrastructure, or the chaos of our foreign policy, and the list grows.

Remember Obama being given the Nobel Peace Prize after he attained the White House? He did nothing to merit it. Again, another act of Affirmative Action that led to ISIS and Islamic conquest.

His support of 300 "Sanctuary Cities" for criminal illegal aliens that contributed to the deaths of countless Americans—remains unconscionable.

Now, Americans await President Trump to pick up the pieces and reconstructing our county.

All in all, after eight years, Obama provides us a historical lesson of enormous proportions: we must vote men and women into office who merit our trust by their actions and proven talents. We must not vote via emotions to make someone else feel good. We cannot continue "affirmative action" within the halls of Congress or the White House.
