

Officials Ignore Islamist Threat At Our Peril

The United States is in the middle of a “cultural jihad.” In fact, global Islamist jihad is at war with all of Western civilization. Many Americans wonder why their elected officials completely ignore this fact and don’t talk or do anything about it. A quick answer: They fear being called racist! Even though Islam is not a race. They are willing to annihilate future American generations via political correctness than risk their own political career! Many of our elected officials know Islam (perhaps not in full details) is not a religion (forget the peace), but a political ideology, yet, they are willing to sacrifice America’s children and grandchildren, including their own, for the sake of their political ambition. They don’t like to rock the boat (as the saying goes in DC), because it may hurt their chances to be re-elected! SAD!

That is precisely why (even after 9/11 attacks) designated terrorist organizations such as the Council on American-Islamic Relations (CA

IR) and hundreds of others still exist in the US and freely work around the clock to undermine America’s justice system while proselytize the disenfranchised Americans. I am afraid there are no elected officials with the guts to do the right

thing!

Politicians are devotees of the “art” of the political correctness. We all know that. If our lawmakers did what they were elected to do and stood by their oath of office to defend the Constitution and laws of the United States of America against all enemies, foreign and domestic, the counter jihadists patriots, to name a few, [Robert Spencer](#), [Pamela Geller](#), [John Guandolo](#), [Clare Lopez](#), [Janet Levy](#), [Frank Gaffney](#), [Steven Emerson](#), [Dr. Andrew Bostom](#), [Dr. Jamie Glazov](#), [Dr. Bill Warner](#), [myself](#) and a few others would not have to stand up to them incessantly and educate the public.

On top of that, America’s leftist politicians, power-hungry for votes, bend over backwards to accede to Islamists’ demands while Muslims happily ally with them in their goal to undermine and weaken America from within. Many Americans who elect these people to represent them are now baffled as to why many of their elected officials back Islamist ideology, honor and celebrate their holidays such as “[Iftar](#)” and promote it as a religion of peace, knowing full well that Islam is not a religion of peace, but an ideology of terror! We are losing this war, so it appears. The hour is already late to defeat this growing scourge.

An Iranian man who lives in Iran wrote this to President Trump on the occasion of [Ramadan](#) and the “Iftar” dinner at the White House:

“Dear Mr. President Trump, as an Iranian living inside Iran I’m telling you from the bottom of my heart that Islam is very, very, very dangerous for the US and the lovely and wonderful American people. Islam has a big problem with peace and democracy. Please don’t hesitate to overthrow the Islamic dictatorships in the world. First and foremost, start with Iran aka the Axis of Evil. Please don’t negotiate with Iran’s theocratic regime. For 40 years, they’ve killed and imprisoned Americans and have done much, much worse to their own people

as well.”

So, why our elected officials on both sides of the aisle ignore Islam's threat? Where are the [Geert Wilders](#) of America? Why so many lies and deceptions about Islam? “Because [Islam enjoys](#) a large and influential ally among non-Muslims. A new generation of “Useful Idiots,” the sort of people Lenin identified living in liberal democracies who furthered the work of communism. This new generation of Useful Idiots also live in liberal democracies, but serves the cause of Islamofascism—another virulent form of totalitarian ideology.”

Islam is not a typical religion but an extreme ideology. All extreme elements operate outside of the constraints of checks-and-balances. That is, once it starts, the extreme becomes more and more extreme until it self-destructs and takes the larger system down with it. Cancer is a case in point. It begins with only a few cells. Left unchecked, the few cells continue expanding and stop only with the death of the host.

Fanatical Islam may indeed be a minority. Yet it is a deadly cancer that has metastasized throughout the body of the world. Urgent confrontation of this advancing disease is imperative to stave it off.

Europe is on its way and will ultimately lose its independence while it is forced to fully embrace Islam. That's a no brainer. Everyone can see it. America will be next, tragically, no elected official is doing anything to stop this trend.

You, the voter, are the guardian of the Constitution. Your vote determines the health and survival of America. You the citizens, take your responsibilities to heart. Examine the candidates, make the right choices. Elect those candidates who

truly understand the threat of Islamic ideology to our country and our way of life.
