

Only way to save America is at the local level

Many of us old time education/political researchers assume the average American understands what is going on in our country since we, in the trenches for so long, understand the situation 100%.

My recent feeling is that the average good American really doesn't have a clue about what is really taking place in our nation due to:

(1) The gradual imposition, starting in the early part of the 20th century, of a Marxist anti-American dumbed down curriculum starting in kindergarten and continuing through university level.

(I recall a 1975 U.S. News and World Report cover story entitled "Marxism in the Universities" which underscored my unpopular statement above.)

ABCs of DumbDown: Guilty for Being Privileged

and

(2) 100% Internationalist/Rockefeller et al-controlled TV, newspaper, and partial internet media blackout of the truth, from the international to the national to the state to the local level, certainly since 1945.

It is my belief and hope that if we can get "in their (citizens') faces" with the truth, they will, if for no reason other than their concern for their children's futures, get on board with the Action Plan outlined in this article.

Charlotte Interviews Anita Hoge May 6th 2014 – YouTube

" Anita, herself, considers this interview to be her most comprehensive, easy-to-understand interview regarding the terribly serious and complicated mess which includes Communist Core, Assessment, values measurement and remediation, technology, invasion of privacy, FERPA, dollars follow the child, school to work, national/international curriculum, and Trojan Horse: tax-funded school choice and charter schools

w/unelected boards (taxation without representation). I sure agree.”

Watch Hoge video; listen to it over and over again; pass it onto everyone you know: family; public and private school teachers; private, religious and home schoolers; local colleges, Maine Street businesses, pastors, priests, rabbis, doctors, dentists, veterinarians, civil rights groups, ALL state and local elected officials, including Governors, etc. Post video on Facebook, Twitter, all social media.

SEND VIDEO TO ALL PRESIDENTIAL CANDIDATES with request they view it, respond immediately, and at least acknowledge receipt.

If you don't have time right now to listen to it straight through, at least listen starting at 29.00 minutes. And then go back and listen straight through...over and over again. The You Tube viewer comments will explain to you that this video is a BOMB.

Don't allow election hype, important as is any presidential election, to divert you from what is going on behind the scenes to kill the America you know “in the name of education”.

EDUCATION IS THE ENORMOUS ELEPHANT IN THE ROOM AND IF WE DON'T DEAL WITH IT IMMEDIATELY, IT WON'T MAKE ANY DIFFERENCE WHO WE ELECT AS PRESIDENT.

EDUCATION AND OBAMA'S HUD (Housing and Urban Development) REDISTRIBUTION OF POPULATION RULING ARE HUGE AND CRITICAL PARTS OF COMMUNIST UN AGENDA 2030. [Link]

ABCs of DumbDown: Speak Out!

PASSAGE OF THE EVERY CHILD SUCCEEDS ACT (ESSA) DECEMBER 2015 WAS THE NAIL IN THE COFFIN OF FREEDOM IN THE USA. [Link]

Anita Hoge was never allowed to testify before the House or Senate Committees which passed the ESSA. What does THAT tell you?

THE FOLLOWING #1-4 IS WHAT ALL AMERICANS ARE LOOKING AT, IF WE DON'T STOP EDUCATION AGENDA:

(1) Every school, repeat “every”, will become a corporate/government school geared to communist/fascist

lifelong global workforce training, NOT academics for the upward mobility of your children.

(2) Post-secondary (college/university) will be tied into elementary and secondary schools for smooth transition to this totalitarian lifelong workforce training system.

(3) All, repeat "all" services womb-to-tomb will be included in this birth to death government school. ABCs of DumbDown:
WOMB TO TOMB

(4) There will be no locally-elected school boards. Property tax funding of schools will be moved to the state level. Agenda for local education will be crafted and dictated at the state level. Local schools will be "managed" by teachers trained in transition from academics to workforce training, behavior modification, and change agent skills. We will have a national school board, to which local and state levels will report, made up of carefully selected community, corporate and education leaders, et al, hooked into UNESCO (United Nations Educational, Scientific and Cultural Organization) and OECD (Office of Economic Cooperation and Development), Paris, France, and elsewhere.

If you want to know first hand what this kind of education/workforce training is, take a trip to Cuba. Less expensive than going to Europe, China, or elsewhere.

ACTION PLAN:

I have racked my brain to figure out how to get Anita Hoge's impeccable research to the public in order to stop UN Agenda 2030 in its tracks. Agenda 2030 cannot proceed as planned without brainwashing/assessment component and use of tax-funded school choice/charters, with unelected boards, all of which are covered in Anita's presentation.

THROW A BOULDER IN THEIR PLANS!

Here's a suggestion:

Contact the following groups and request they invite you to speak and to present Anita's video at their next meeting: local school board, home school groups, private and religious schools, churches, Women's Club, Garden Club, Kiwanis, Rotary,

et al.

When and if you do get an invitation, be sure announcement of your talk and showing of this video is published in local papers and advertised on local radio/TV well in advance. Be sure to confirm press coverage in advance of your meeting.

Be sure, after the showing, to follow up with the above groups to make sure they are on board with you, and to plan future activities to STOP this anti-American, anti-child, anti-academic teacher agenda.

You can continue your effort to expose this communist agenda at follow-up meetings, taking advantage of all the free Internet resources listed at the bottom of this article, especially the Exposing the Global Road to Ruin through Education 8-dvd/cd disc set which is also a free download here.

Submit letters to the editor regarding Anita's You Tube video and your plan to get the video into the hands of all your town's taxpayers and residents, and local, state, and national elected officials.

The United States, as we have all known it, is on borrowed time.

No President, no matter how good, will be able to change things for the better without help from the American people at the local level. Legislation repealing unconstitutional laws, especially related to education and regional government, MUST be crafted and passed at the state level.

Pray hard for our children and our nation.

BUT ALSO, PLEASE, PLEASE, 'ACT' ON THIS REQUEST.
