

Open Letter To Supreme Court Justice Clarence Thomas (SCOTUS)

Andrew C. Wallace

December 20, 2022

Greetings, Justice Thomas,

Our state and federal governments ignore the Constitution and do as they please for money, election, and power. Many of these officials are cowards, corrupt, and outright traitors as defined in the Constitution. But SCOTUS is unique; they are appointed to office for life. I understand that SCOTUS, for the most part, can't act on its own without legal requests from others. But they could certainly be more responsive to requests they do receive and indicate willingness to adjudicate other critical issues like I have listed here. Some would say that such risk aversion is cowardice by SCOTUS.

I have great respect for you, but not so much for the Court, which has failed the Republic because of the inability of the people to finance litigation or wait for it to be resolved. This is a problem the court could solve if it wanted to. I am a Patriot, 88 years old, legally blind and a disabled veteran with a modicum of education in Economics and the Constitution. Based upon performance by most lawyers and lower court judges, I think I might know more about the Constitution than many of them, or maybe the problem is that their greed and cowardice prevents them from honoring their sacred oaths.

The supreme Court, by failing to act to protect the Rights of the People for whatever reason, has allowed the destruction of our Constitutional Republic. Listed below are just some of the failings of SCOTUS of which I am aware. I know that you are aware of all of them, and more.

1. It is true that the American people failed to overcome the multi-billions of dollars spent by the Parasitic Super-Rich Ruling Class, (PSRRC, vote fraud, and other schemes to rig elections, **and SCOTUS failed to act.**
2. It is true that out of 108 federal departments, 81 are Unconstitutional usurpations in violation of the Enumerated Powers. All of the laws relating to the 81 departments are unconstitutional **and SCOTUS failed to act.**
3. It is almost impossible to petition government and seek redress without being told that you lack standing, **and SCOTUS failed to act.**
4. Our money is not gold and silver as required by the Constitution, which allowed millions of innocent people to be murdered in wars for profit while transferring the Peoples' assets to the wealthy. **And SCOTUS failed to act.**
5. The Unconstitutional Federal Reserve Bank (owned by private banks) has transferred the Peoples' wealth to the elite, supported wars for profit, government boondoggles, depressions, destroying our country with inflation, etc. **And SCOTUS failed to act.**
6. Congress terminated the Constitutional Militia of the several States with the Dick Act and authorized the FBI (for which I can find no support in any of the Enumerated Powers). The Federal government has no police powers in the states, but congress gave some to them unconstitutionally. **And SCOTUS failed to act.**
7. Congress enacts all manner of Unconstitutional acts that are not authorized by the Enumerated Powers, such as laws relating to education, housing, charity, energy,

agriculture, medical, et al, which are only some of the organic powers usurped from the states States. **And SCOTUS failed to act.**

8. The administration spends the Peoples' money on many things that are unconstitutional, such as foreign aid, troops based in foreign countries without a declaration of war, etc. **And SCOTUS failed to act.**
9. It is Treason, as specified in the Constitution, to give aid and comfort to enemy invaders with supporting benefits and unprotected borders. There is no way to arrest and prosecute traitors with our corrupt system. **And SCOTUS failed to act.**
10. Our federal income tax, as it is now administered, is unconstitutional. **And SCOTUS failed to act.**
11. Congress is only Constitutionally-authorized to pay only for government debts, Defense and the General Welfare. It can't spend money on subjects not related to the Enumerated Powers. I can see no Constitutional authority to fund Ukraine or give them military equipment, leaving our military without weapons for our defense. **And SCOTUS failed to act.**
12. Power of the vote has been transferred from the citizens to the wealthy and their controlled 'woke' corporations with unlimited funding to buy, rig, and control elections. **And SCOTUS failed to act.**
13. The corrupt FBI with no Constitutional authority is terrorizing people in the states, acting under Color of Law with or without support of the courts. **And SCOTUS failed to act.**
14. Americans have been jailed and tortured in solitary confinement without due process of law under the False-Flag of an "insurrection" on January 6, 2021, promoted by the government. **And SCOTUS failed to act.**
15. Government violates the Fourth Amendment right to privacy by hacking private information without a warrant. **And SCOTUS failed to act.**
16. One must not forget that ALL Americans have been

impoverished by the 81 unconstitutional Federal agencies and their related laws. But thousands of people have been totally destroyed financially and put in jail for violating these unconstitutional laws. This is mostly a result of the concentration of federal power obtained by usurpation of state powers.

In Conclusion: Justice Thomas, I know you to be a good, even great, man and I know you are one of the few who have the position, intellect and courage to save our country from total ruin. We are close to a Major Economic Collapse of a magnitude never seen in America, which will leave us devastated. If history is any guide, conditions in America would be very close to those in France that brought on the Reign of Terror. We must prevent such a catastrophe! Please tell me how SCOTUS (our last hope) can save the country before a Civil War, not why it is not possible. If SCOTUS can conjure up a Constitutional justification for abortion or rewrite Obama's Health Care Bill, it should certainly be able to do something *on its own volition, sua sponte*, about clear violations of the Constitution. Otherwise, it is superfluous to the Union. When the court wants to do something it finds a way. SCOTUS may be the only hope to save our Republic!

I would gladly initiate litigation if I could afford it, and it could be fast tracked to save our country before it is destroyed and I die.

Thank you for your consideration. I look forward to hearing from you.
