

Oregon State Has Purposefully Defrauded and Disenfranchised the Public

By Oregon Senator Dennis Linthicum

October 19, 2024

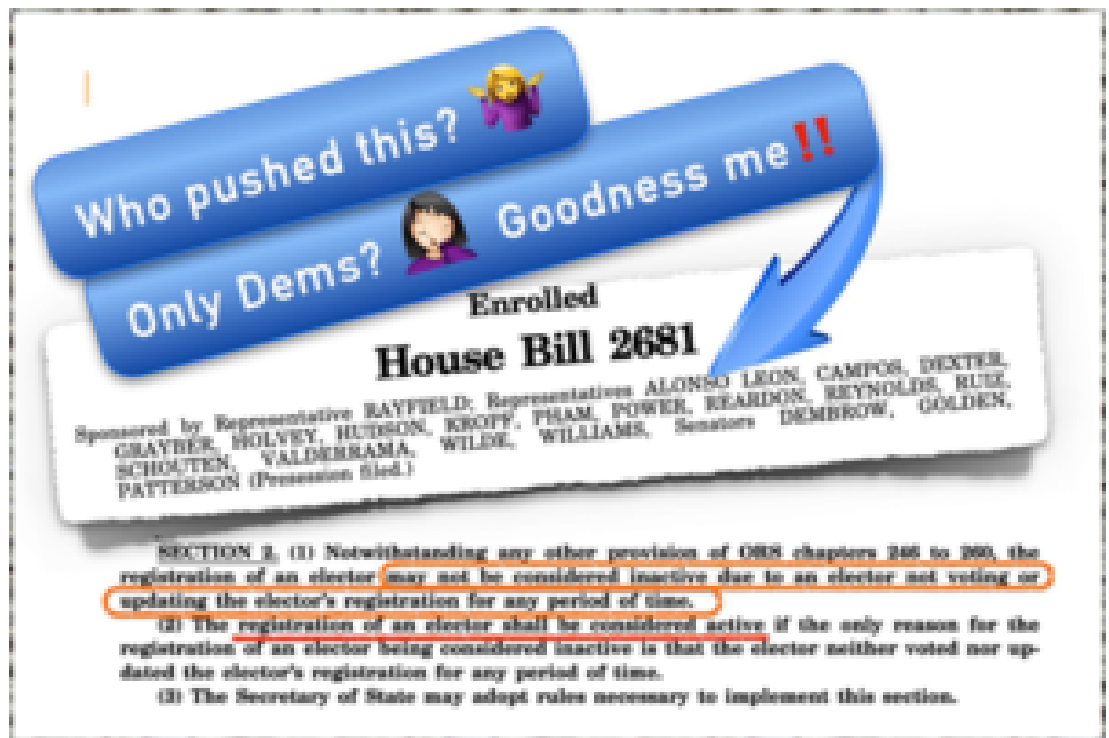

Over the next several newsletters I will highlight numerous instances where the **majority party**, in Oregon, has **purposefully defrauded and disenfranchised the public** by undermining the integrity of our elections.

Today's example is a law, passed in 20221, HB 2681 which requires that all voter registrations **SHALL be considered active, regardless of any period of inactivity**. Frankly, "any" period of inactivity will certainly include the quiet years after their own passing.

How can any thoughtful legislator truly believe that this new 2021 law, following the heated Biden/Trump 2020 election, **would safeguard election integrity?** In a time when public trust in the electoral process is fragile, it's essential to have measures that reassure the electorate, **not deepen their doubts.**

Does this law provide meaningful, transparent checks that prevent fraud, or does it simply gloss over key issues? Shouldn't we **focus on measures that reinforce voter confidence**, instead of implementing laws that seem to conveniently **align with political agendas** rather than genuine security improvements?

Fraud, or
fair-
play?
Does this
make
sense?
Does it
match the
rhetoric?

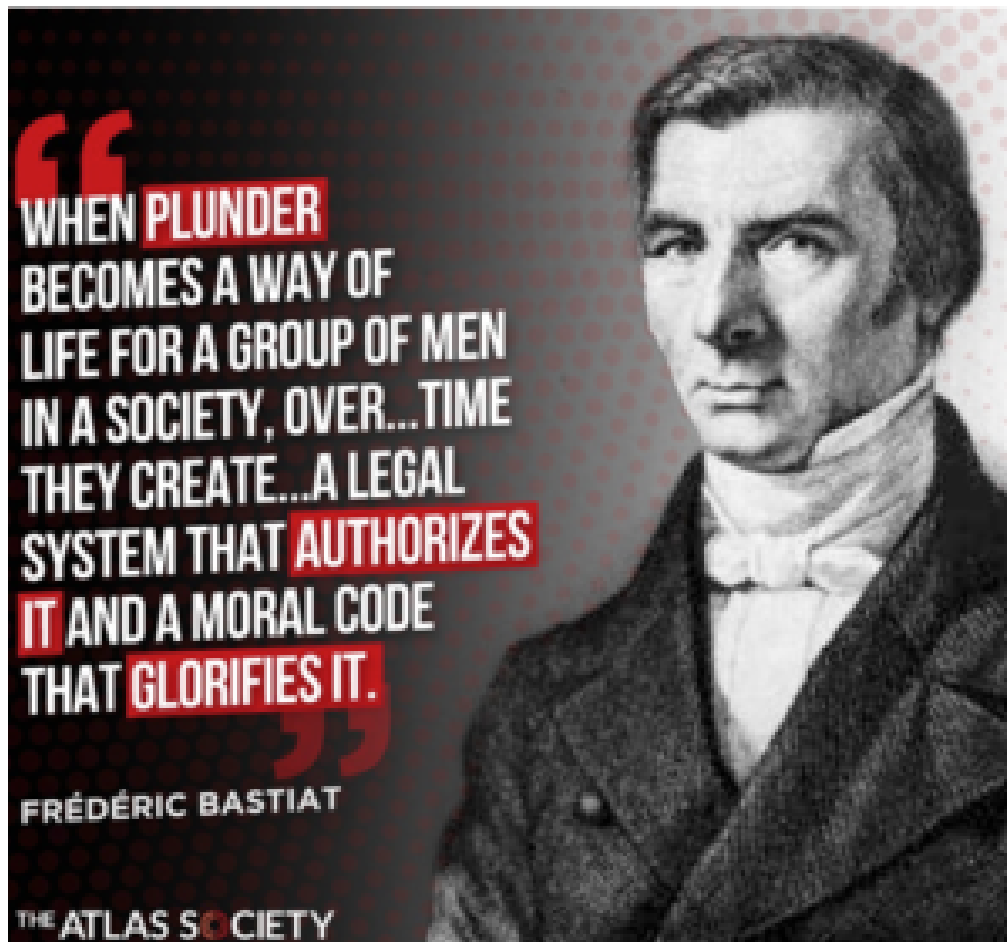

Oregon is at a critical juncture. Like America and much of the world, people have lost sight of freedom and feel like they are being pushed along by the **elites, the higher-ups, the political kingpins** of our time.

Our **personal thoughts, preferences, and opinions** have been branded as **radical**, while media **bombards** us with **trendy buzzwords** meant to **mislead, manipulate, and gaslight**. As a result, common sense and rationality now seem to be met with widespread skepticism, especially across social media

The good news is that we now have a **the perfect opportunity to reclaim the narrative**. More and more, I meet people who are simply searching for the truth, they want answers. Fortunately for us, **honest reflection and genuine investigation** are making a much-needed comeback.

Our American government was originally **designed to protect our individual freedoms, rights, and liberties**. The rule of law was established as a **shield to safeguard** our lives and constitutional rights. However, in today's world, **the ruling elites have weaponized this very system**, transforming it into a tool that glorifies and extends their own power.

Thomas Jefferson wrote, "The God who gave us Life, **gave us Liberty**" and believed government should protect Life, Liberty and our own just pursuits for individual Happiness.

Throughout the history of our American experiment, whenever a **rogue authority, whether a legislative body, agency, department or governor, engineered a policy that crushed those core constitutional rights** the government's authority was considered **null and void**. The view was that government's rules carried no weight or basis for enforcement because the policy itself was lacking constitutional authority.

The same should be said for laws, rules, and regulations that **defy logic, common-sense or original intent**.

For example, if everyone on our political players list is claiming the moral high-ground around election integrity, then they should **abhor legislation, like the above HB 2681, that diminishes the integrity and fairness of our elections**.

Right?

Stay tuned for more **purposefully disingenuous** details from

Oregon's one-party, Democrat-controlled majority.

It's clearly time for a change!
