

# Our Constitution is Unique, Highly Valued and our Most Powerful Asset

By Andrew Wallace

**Our Constitution is the Supreme Law of the Land, the sole final and ultimate legal authority for all government in the United States. Getting this fact to the American people is the primary purpose of this paper.**

It is the greatest document ever written, second only to the Holy Bible. We are the only country in the world to be blessed with the protection of such a document. But we must protect it from enemies, both foreign and domestic.

**The Constitution protects our right to keep and bear arms; otherwise we would be slaves like Canadians and Australians, who recently gave up their firearms.**

After giving up firearms, they immediately found themselves in a dictatorship. People came to America to escape the wretched life in European cities, and now our cities are more dystopian than in Europe!

**Our Constitution protecting the people is despised and hated by the Parasitic Super-Rich Ruling Class (PSRRC), wealthy families, and their Communist minions in 'woke' corporations, and government.**

Why? Because they want to rule the world with the "Great

Reset", the New World Order where average people are slaves of the self-proclaimed nobility, as in the past and in other countries.

**It is imperative that you understand that our Constitution is the ONLY LEGAL BASIS for government in the United States of America.**

The PSRRC, elected officials, bureaucrats, judges, and military flag officers have created a counterfeit façade of our Republic.

**I call it the Big Dictatorial Blood-Sucking Machine constructed of all the unlawful actions by courts, elected officials and bureaucrats, of which there are many.**

Those who oppose the traitors have every legal right under the founding documents to do so. If only there was an honest law-enforcement agency who could arrest the criminals and an honest court to hear the cases!

**The Parasitic Super-Rich Ruling Class (PSRRC) constructed a completely fake government .**

It consisted of unelected law-making bureaucrats (the Administrative State), unconstitutional laws, open borders, two-tier system of justice, unlawful executive orders applied to the states, unlawful expenditure of government funds, unlawful Federal Reserve Bank and currency, wars for profit without Declaration of War, foreign aid, etc, etc, etc.

**Concentration of power was the ultimate objective so they could fund countless unlawful activities, steal and control the Communist indolent with money from WORKING Americans.**

This was accomplished by constructing unlawful federal departments to transfer money to the PSRRC and the Communists. The most important of these fake departments are: Labor, Agriculture, Health and Human Services, Education, Energy,

Transportation, and Housing and Urban Development. Most people assume that these departments are legitimate and constitutionally-authorized; they are not!

**These faux departments are unlawful usurpations of state powers that bribed or cowardly governors refuse to nullify when they have the power to do so!**

It is estimated that 70-80% of federal government is unconstitutional and is sucking the life-blood out of the people to finance wars for profit of the PSRRC.

Most Economists agree that the excesses of the government are on the verge of destroying the economy, productivity, government and related benefits in a "Depression of Soup-Line Magnitude." Our Communist dictatorship can only survive by stealing from productive workers as long as they exist!

**Our current economic situation is rapidly deteriorating to a point where the government can do nothing to prevent absolute and total collapse.**

My objective in writing is to make people more aware of the power of the Constitution and how they are being screwed. No one likes to read long articles so I try to keep my writing succinct and interesting. I hope that my writing motivates people to read the work of scholars of the Constitution to learn more details and specifics as a method to survive the coming times. Your Courage, the Constitution and God are the keys to survival! I don't believe that you can sit on your hands and pray for God to do the heavy lifting without your involvement. Victory requires much more knowledge of the Constitution, and a commitment to enforce it!

I highly recommend the following scholars who write for Newswithviews.com: Publius Huldah, Lex Green, Paul Engel, Devvy Kidd, Edwin Vieira Jr., Jeff Dover, Cliff Kincaid. If you read some of their papers you will be well-prepared to confront our traitors and the ignorant graduates of our

brainwashing educational system.

God Bless Our Constitutional Republic.
