

# Ousting the Cockroaches In Between Elections

*"The preservation of the sacred fire of liberty, and the destiny of the Republican model of Government, are justly considered as deeply, perhaps as finally staked, on the experiment entrusted to the hands of the American people."*

– George Washington

Members of the Democrat Communist Party USA, their lap dogs known as the "mainstream media", screeching shrews on cable networks and ignorant low IQ supporters always bellow our elections are fair and election/vote fraud is just more conspiracy theories.

The ~~selections~~ elections earlier this month was just more of the same as I've seen and written about since 1993. Elections have consequences as they say but are real American voters left with no options to throw out the garbage? Do we have to suffer another two years to the mid-term elections; some elected offices are four years?

U.S. Senators: 1/3rd are up for "reelection" every six years. Members of CON-gress cannot be recalled. Sincere real Americans tried to recall crooked senator, U.S. Senator Robert Menendez, [D-NJ] back in 2013. I sent email to one of the people behind the effort and explained they would be wasting time and a ton of money.

[Sen. Menendez Recall Killed by NJ Supreme Court](#), June 22, 2013

(Mine): “As I predicted back in June, and fully explained in Footnote 1 below, the New Jersey Supreme Court has killed the effort to recall U.S. Senator Robert Menendez:

[Nov. 18, 2010. Court kills Robert Menendez recall push](#)

“The New Jersey Supreme Court struck down a tea party-led push to recall Democratic Sen. Robert Menendez as unconstitutional Thursday.

“In a 4-2 decision, state Supreme Court justices said that the Constitution forbids the recall of a sitting U.S. senator. Lawyers for The Committee to Recall U.S. Senator Robert Menendez argued that New Jersey law allows for such a recall, but justices determined that law was pre-empted by federal statute.” Rest at link.

“No where in Art. 1, Section 3 of the U.S. Constitution, Art. 1, Section 3 does it “contain any language about recall. The Tea Party Activists who brought the lawsuit are very unhappy and indicate they will take it to the U.S. Supreme Court. It will be shot down there, too. Just like term limits, the U.S. Constitution would have to be amended. I hope the sincere (and desperate) plaintiffs do not file a Petition for Writ of Certiorari. In my humble opinion, it will be a waste of time and money.”

“...Delegates for the State of New Jersey knew when they ratified the U.S. Constitution that it did not include recall for members of the newly created U.S. Congress. The state legislature of each state was the “You’re fired!” authority, not voters prior to the fraudulent ratification of the Seventeenth Amendment.

“Or, term limits. Of course, back then, how could any of the delegates even imagine individuals (like deceased Sens. Robert Byrd, Teddy Chapaquidick Kennedy and “censured” crook, Rep. Charlie Rangel) serving in Congress would fight like dirty dogs to stay in office 15, 20, 30, 40 –51 years!

“The sticky legal issue in the lawsuit was an amendment to the New Jersey State Constitution back in 1993 allowing for recall for members of Congress. Fed up citizens got a constitutional amendment passed and the first potential history making challenge was shot down.” Rest at link.

Crook Sen. Menendez, who would make the mafia blush, finally got what should have happened years before he was finally tried and convicted: [Former U.S. Senator Robert Menendez Sentenced To 11 Years In Prison For Bribery, Foreign Agent, And Obstruction Offenses](#), Jan. 29, 2025

There is a legal tool to oust the cockroaches, crooks and downright perverts from elected office – as well as some judges (Yes, many lower-level judges are elected): **Recall.** [Valley residents vote in special recall election for mayor and city council president](#) (Video) – This one looks like a success (Nebraska).

## **Introduction**

“In the 19 states that allow state recall elections, citizens can attempt to remove an elected official from office. Typically, the recall process consists of gathering a certain number of signatures on a petition in a certain amount of time. Beyond this, details of the recall process vary by state. This page explains these processes and provides a list of each state’s laws governing the recall of state officials.

“Recall processes vary across states, but generally a recall effort involves collecting a certain number of signatures on a petition within a set timeframe. After a petition meeting the requirements is submitted to the appropriate authority and verified, a recall election is held.” And: “Historically, recall attempts at the state level have been largely unsuccessful. The recall is used much more often, and with more success, at the local level.” Unsuccessful is why

electronic voting and counting machines were shoved down our throats.

As they say, all politics are local. EVERY state in the Union should have recall from the governor to school boards. At the link above is a chart of all the states, who can be recalled, etc. [Ballotpedia is another excellent resource](#): This page lists [political recall efforts](#) targeting **city councils** across the United States. Click on the tabs below for links to the recall coverage from each year.” You’ll be surprised at how many.

Those who believe California gov Gavin Newsom beat the effort to recall him are in denial. My now deceased brother lived here in my city in W. Texas and **received ballots to vote in their elections** – including the Newsom recall. Yes, he did file a change of address when I brought him here to Texas. Rampant mail in ballot fraud. I hounded the county clerk where Richard lived in No. California before he came here for **nearly two years** as well as our Texas SOS. I have the ballots; sent both of them copies of the ballots. Richard was finally removed from the voting rolls out in California.

Exactly how Trump allegedly lost in Nevada in 2020: THOUSANDS who had moved out of the state got mail in ballots in their new state and voted in Nevada’s ~~selection~~ election. I know because I watched the live hearing where Trump’s attorney presented **paper evidence – 7 binders full**. The “judge” dismissed the case despite the overwhelming evidence. I was pissed. Don’t feed me the justice is blind crap after what we’ve seen since Trump announced he was going to run in 2015.

Just type recall city council, county commissioners and mayors into a search engine and you’d be surprised at how many have happened (successfully), i.e., [Historic recall ousts Mesa councilwoman](#), Nov. 10, 2025 (AZ)

I did it here in my city six years ago. I filed the paperwork

to recall my city council woman and due to the great job by several individuals, enough signatures were turned in as valid and *she was voted out of office*. Of course, the retaliation against me as the instigator by certain individuals wasn't pleasant, it was downright brutal. But our district then elected the best city council man you could ask for so it was worth it. Unfortunately, Troy was term limited out so I have a new city council woman.

That wasn't my first recall effort. Way back in the late 1990's, I was asked to help collect signatures in Alameda, California, to oust a member of the state legislature; links now gone, so old. I did on a Saturday and drove the three hours each way. A few volunteers showed up. **The ones who complain the most were no where to be found when it was time for boots on the ground.** Not enough signatures were collected to force a special recall election. However, that state rep's reputation went into the crapper and he did not run for office again.

Mike Lindell, founder of My Pillow, has sacrificed so much in an effort to stop election fraud. He's been going to states rallying real American volunteers, county by county across this country to get rid of ALL electronic voting and counting devices.

Scott Presler, age 37 with [2.4 MILLION X followers](#) was like [a bull dozer in the last election](#): "A conservative activist hopes to galvanize support for an initiative next week that would reform how voters register in Washington state.

"Scott Presler, who helped buoy Republican voter registration efforts last year in Pennsylvania, aiding Trump win the White House, will crisscross the Evergreen State to attend nine events over five days starting Sunday." Rest at link along with cities where he'll be." I've been watching his amazing success, but we need tens of thousands of Scott Presler's. Getting people registered to vote and how to fight our

domestic enemies who are behind vote fraud which is rampant in this country and not just “blue” states. Recently we had a judge and about a dozen other cockroaches here in Texas convicted of one form of election fraud or another.

When I said all politics are local, that is true. County Commissioners and city councils in too many states have adopted the UN’s agenda of evil. As regular readers of NWV’s know, [Tom DeWeese](#) (I became familiar with his organization, American Policy Center, and successful efforts decades ago) focuses on how to stop the globalists in your city and county.

And the great Kat Stansell who has been exposing the rot and corruption in Sean Hannity’s “great free state of Florida”, the GOP’s part and gov. DeSantis. Kat is no light weight and she sources her findings:

[RPOF Under DeSantis Has Been Purging Trump Republicans from the Party](#), Nov. 11, 2025: “America First conservatives spoke up in a public session, held outside of the Hilton in Orlando, Friday, 11/7, where the Republican Party of Florida was holding its quarterly meeting. This I see a master stroke to expose the Anti-American perps in the State Party, who have been taking out MAGA patriots, as they planned their next moves...

“Several hundred angry and frustrated Florida Republicans – who had been removed from elected offices, ignored for meeting requests and even prohibited from running for offices – gathered to tell their story. Coastal Conservative News covered the event. At the end of the event, CCN’s reporter, Michelle Pozi, even spoke of her own bad experiences with the RPOF, as she tried to become involved in Conservative politics in the state. Unexpected, but very telling.

“The gathered patriots are demanding the resignations of RPOF Chair, Evan Power and its Executive Director, Bill Helmich. “Power hungry” and “The Bull” need to go.

“SAY IT OUT LOUD: RON DESANTIS’S RPOF IS PURGING TRUMP REPUBLICANS FROM THE PARTY. PRESIDENT TRUMP NEEDS TO KNOW. I will be posting this on Truth Social and “X”.” Wake up Sean Hannity.

Her new column, Nov. 15, 2025: [FPL’s “Unconscionable Rate Hikes”](#): “An estimated 20% of Floridians in the year Mar, 2024 – Feb, 2025, had their power turned off for non-payment of their bills, due in large part to the hot weather for which Florida is famous. Nationally, the number of people who fail to pay their power bills is nearer to 10%. Florida’s Public Service Commission (PSC) is about to grant its biggest utility, Florida Power and Light (FP&L), an annual increase of 20+% of its base rate.”

Here in Texas members of our PUC (aka Puke) are hand picked and appointed by our guv, Gregg Abbott. I don’t know about Florida’s PSC but if you read Kat’s column above, it REEKS and STINKS: “In August, Florida’s Public Service Commission voted to give Florida Power and Light a suspension of the scheduled rate hearing to give the company and its key stakeholders a chance to finalize a 4-year rate hike agreement. This was opposed by a number of citizens’ groups.

“In addition to Florida Power & Light, the groups backing the deal include a federation of retail companies, industrial corporations and Walmart. Under the deal, revenue from all customers would subsidize increasing discounts on large companies’ energy usage during peak times. Read that again. PLEASE.

“Last summer, Florida citizens protested proposed rate hikes by the big three energy suppliers in the state: Duke Power TECO (Tampa), and Florida Power and Light. They submitted proper forms, contacted their legislatures, only to find that the promised “hearing” in which they would be able to state their case, was “postponed”, on Aug. 11.”

There are county GOP groups and other citizens groups by the thousands across this country. A friend of mine belonged to one in a southern state but is no longer attending the twice monthly meeting for two reasons: (1) Maybe a dozen people show up and (2) The meetings are your typical eat, meet and retreat. Very disappointing.

Going way back ineligible usurper president Hussein Obama was involved with groups like ACORN – community organizing and believe me, the Democrat Communist Party USA in this country gets their people out there. Obama said “we” are going to “transform America”. Boots on the ground and out and out cheating in every important election. If the GOP is going to hold the House and Senate in the mid-term elections next year, there’s a lot of work to get done while at the same time using recall – if possible – and get rid of rotten, corrupt local judges, city council, county commissioners, too many school boards who have destroyed educating America’s children; in bed with the evil “Teacher’s Unions”. (My daughter and her husband are teachers, so settle down.)

We are all overloaded between keeping your job, trying to raise children with two working parents, a roof over your head, gas in the car and buying *healthy* food to feed you or if you have a family. Not processed or “fast” food. But, we’re truly so close to going into the abyss of Hell if the communists, socialists and muslims continue to gain ground. Once our freedoms and liberties are lost, another Civil War could break out. I don’t want to see that happen and I’m sure you don’t either.

All the fun things people like to do (like me who used to go fishing, water & snow skiing all the time) have to sacrifice that time to become a modern-day warrior for our Republic, one nation under God.

*“Where are our Men of abilities? Why do they not come forth to save their Country?”* – George Washington

It's We the People who will save this country but only if enough of us fight back and don't back down.

*"Crouch down and lick the hands which feed you. May your chains sit lightly upon you, and may posterity forget that you were our countrymen!"* Samuel Adams who is known as the Father of the American Revolution. A remarkable man who gave and sacrificed so much for more than a decade to lead the way for America to become a new nation.

If we do nothing, nothing will get done. There are so many wonderful Americans and their organizations fighting back. I hope you can connect with them or your local county GOP committee – even if you're not a registered Republican. Get your game plans mapped out and then go after those destroying our country. (If you don't know how to contact your local GOP committee/club, call your county clerk. They know.

*"However [political parties] may now and then answer popular ends, they are likely, in the course of time and things, to become potent engines, by which cunning, ambitious, and unprincipled men will be enabled to subvert the power of the people and to usurp for themselves the reins of government, destroying afterwards the very engines which have lifted them to unjust dominion."* – George Washington

*"It is when people forget God that tyrants forge their chains."* ~Patrick Henry

God's blessings to you and yours and we ask Him to please help us save this amazing country He gave us. I'm a history buff and there's no question in my mind that without God directing those who birthed this country, our America would never have become the greatest country on earth.

[A Citizens' Audit of an American Election](#), July 10, 2008 (Mine. I interviewed him when I had my radio show): "Richard Hayes Phillips, a former college professor, has written a new book titled, *Witness to a Crime: A Citizens' Audit of an American Election*. This monstrous undertaking covers the 2004 election results in the State of Ohio...What makes Phillips investigation so compelling is the book is filled with concrete proof that the voters of Ohio were robbed of their right to fair and impartial elections. The amount of work that went into this investigation is staggering: 30,0000 images of

forensic evidence, then personally examining 126,000 ballots, 127 poll books and 141 voter signature books from 18 counties in Ohio. This is the definitive and documented evidence of crimes that cannot, must not be ignored.

“One thing that showed up in his findings was the same thing I wrote about back in 1996: discrepancies in the numbers during the voting process – where are they? If you [click here and go to page seven](#) of my findings, you’ll see what I’m talking about. I knew what happened: vote rigging and it was done by the machines. We saw the same thing repeat itself during this last phony primary season. A recount was paid for and done in the State of New Hampshire. The so-called final audit of the numbers did not agree with the results as recorded on primary night. Of course, the numbers continue to change for weeks after a primary or election; I’ve covered this in previous columns in detail.”

There’s no question globalist POS John Kerry won Ohio, but due to the cheating, George W. Bush was given the Electoral College votes and “won” the election. It would have been yet another **horrific tragedy** for our beloved country if Kerry became president but **cheating is cheating and should not happen, period, regardless of your “party”**.

Unfortunately, some of the links in my older columns are no longer there regardless of search engine efforts as I wrote this column. The page seven above is on my web site. Go look at those numbers.
