

Part 2: It's a Full-Scale Invasion by Design and Fully Orchestrated by Biden and Congress

May 4, 2023

Part 2: Drug cartels own the border, Title 42 expires, planned invasion by our own politicians, end results in American lives.

This week, White House spokeswoman Karine Jean-Pierre stated, "When it comes to illegal immigration, you've seen it come down by more than 90 percent." It's a quiet secret that the White House press corps whisper that she is an "air head" or worse, "S.F.B.'s."

Since I stood on the Texas and Arizona border for two weeks in April, my own eyes can verify to you that she is a flat-out liar. But then, so is her boss. He lies; she lies; they all lie. None of them know what's occurring at the border. Wait a minute! Yes, they do! They orchestrated this invasion.

U.S. Senator Sinema (I-AZ) hit back at Jean-Pierre, "Obviously, the border is not secure. Anyone with eyes can see that. And anyone who lives in a border state like I do, born and raised in Arizona, actually takes offense at comments like that because they're just factually not true. The reality is, is that border communities in my state are suffering already,

and that's before the end of Title 42."

Here are the facts as reported by the U.S. Border Patrol: illegal migrants have averaged 150,000 crossings monthly for the past 26 months with several months at 251,000 per month. Border Patrol officers tabulated 5.5 million illegals processed and sent into the country with 1.1 million "got a-ways" who snuck in without being processed.

As reported in Part 1 of this series, Biden invited a total of 10.1 million people into the USA in the past 26 months. If he gets re-elected, it will mean in excess of 20 million people from 150 countries with absolutely NO allegiance or affinity to our culture, language and/or way of life.

As President Lincoln and others have said, America would never be defeated from without, but rather from within. The Historian Arnold Toynbee worded it differently: "Great nations die by suicide." The Roman Empire, said to have forfeited its hegemony to the barbarian Visigoths, Vandals, Franks, and Celts in 476, was on its way out long before that: its economy over extended, with a devalued currency; barbarians invading porous borders, diluting the culture; corruption and division in government; the society rife with immorality. Sound familiar? America 2023!

One of my friends said, "Very sad that our children and grandkids will never know the America of post-Depression, post-WW2. A quote (paraphrased) attributed to FDR: "If the people think that important world events happen by chance, they would be wrong. We planned them that way." (Remember Pearl Harbor)

"Our society is now too under-educated to know the import of what has been happening to America over the past century."

"While America is being brought to its knees, the Chinese are taking over the resources needed to feed the Green Energy agenda, including planting EV battery plants in Michigan,

while organizing a counterpart to Western alliances with BRICS, intending to replace the Petrodollar with the Yuan: a roller-coaster ride from Republic to Ruin. The Nobel-winning Economist, FA Hayek, wrote a book in the 1940's entitled. The Road to Serfdom."

My interviews of the Border Patrol officers were taken in their trucks right alongside the 30-foot barbed wire wall. I could see illegals with packs walking along the wall in Nogales, Arizona. They wait until five o'clock a.m. to make their moves into the USA where the fence is gone.

Officer Agarrie said, "The fools in Washington don't understand what they are doing to the country. I've got two kids and I'm afraid for their future. We catch migrants in the morning. We process them. We return them to Mexico on Title 42. They jump the border again until they escape north."

When does it end?

"Well, Trump had stopped most illegals with his 'remain in Mexico' mandate," he said. "Once Biden got in, he opened the floodgates."

How do so many get to the border?

"Mexico transport busses rush them to the border by the millions. Mexicans are making a fortune," he said. "Even though the drugs are deadly to America's youth, we see no end to the drugs coming across the border. As long as there is a market, there will be suppliers."

How would you like a 30-foot iron fence through your town? How would you like three rolls of concertina wire at the top on your side, and three more rolls of concertina wire at the bottom? How would you like drug dealers, rapists, and killers like the one in Texas who killed a family of five this week, and had been deported four times—to enjoy easy access to your community?

Why would Biden appoint foreign-born Alejandro Mayorkas to be head of the Department of Homeland Security when he has done nothing to stop the invasion? In fact, in Senate committee testimony, he said that we should have open borders for all to enter.

Mayorkas: "We Can Solve the Border Crisis by Opening the Border."

Columnist Neil Munro said, "Mayorkas is a pro-migration zealot who argues that laws curbing migration as subordinate to the "Nation of Immigrants" narrative that was established by lobby groups during the Cold War, when immigrants were just 7 percent of the population

He has said his border management is "all about equity" which is really the core founding principle of our country."

What kind of equity does that create for our 540,000 homeless Americans, our tens of thousands of homeless veterans, our drug-addicted youth dying off at 100,000 annually, our cities being overrun by illegals that we pay for at \$150,000,000,000.00 annually out of our taxes, our food prices exploding through the roof, our cities gridlocked with cars and toxic air pollution? Is that "equity" Mr. Mayorkas or is it "collateral damage?"

Where's the equity in all our major cities where crimes dominate the news, daily? What kind of equity does it create for our overwhelmed schools and our kids?

My final questions to you as an American: What do we do when our entire culture, language and ethos fragments into foreign enclaves? Have you seen France or Sweden lately? How do we pull ourselves back from the suicide-brink as spoken by historian Arnold Toynbee? Do we think we can outsmart history? Can we endure another Biden press secretary who features "S.F.B.'s?"

Part 3: What's the final curtain? What happens to American born citizens? What happens to our culture? What about our sustainability as a civilization? Who has the guts to speak up? What happens when Title 42 expires on May 11, 2023?
