

Patriot Michael Flynn Targeted By Deep State Globalists

What the enemy used to hurt you, God uses to prosper you. Not all angels reside in heaven. Many walk the battlefield, both abroad and at home. Veteran Michael T. Flynn is one of them. Don't doubt me, Flynn is one of our toughest warriors, and he will survive.

Mueller's Illusory Investigation

Nothing that former National Security Advisor (NSA), Michael Flynn has given Mueller is in any shape or form damaging to Trump. What he has provided occurred during the transition period when all incoming presidents contact foreign governments in anticipation of making deals with them or discussing policy. Russia was one of 13 or more nations, the leaders of which were contacted by Flynn.

In other words, this is nothing but a “vapor” play on Mueller's part, the last vestiges of a failed investigation, and the charges against the General were the simplest ones they could get him on, and they were repetitious.

Socialist Media v. Truth

The media is all a twitter over this news, and they're delighted to report that Michael Flynn lied to the [corrupt FBI](#) in relation to his phone calls to the Russian ambassador, but this is old news. We knew this last February when the FBI leaked the General's

private calls with foreign officials to the leftist media.

The socialist MSM has a short memory when it comes to former President Obama. In the fall of 2008, **prior to his election**, [Obama was busy interfering in President Bush's policy toward Russia](#). One of his foreign policy advisors, Mike McFaul, made a trip to Moscow to meet with various Russian officials and interest groups, speaking off the record and answering questions. [[Link](#)]

In a WSJ editorial entitled, *The Flynn Information*, it states, "He pleads guilty to a charge the FBI once said it wouldn't prosecute." And yes, it is a witch hunt. So, now that people are finally being charged for lying to the FBI, didn't Hillary Clinton say that she never sent any classified emails from her private server?

The MSM is acting like this repeat story is new. Flynn misled others on a discussion he had with a Russian diplomat before the inauguration. What he did was legal and there are no charges related to his discussion with the Russian diplomat. Forgetting or not reporting on this discussion when asked by the corrupt FBI involved in the corrupt Mueller investigation is his crime. Flynn's resignation in February was related to the same event.

After the General resigned in February as NSA, CNN [reported](#) that Flynn changed his story about his conversations with Kislyak, but that the FBI did not plan to pursue charges in the case. CNN's government sources said that it was not believed that Flynn intentionally misled the FBI.

A [National Review article](#) by David French reports on the charges against Flynn, and he writes, "If this is all there is, then Flynn is the victim of a monstrous injustice." Check it out, Flynn is being charged with lying to the FBI about activity that isn't criminal.

In [Andy McCarthy's latest National Review article](#), he says much the same thing, "There was nothing wrong with the incoming national-security adviser's having meetings with foreign counterparts or discussing such matters as the sanctions in those meetings. Plus, if the FBI had Foreign Intelligence Surveillance Act (FISA) recordings of Flynn's conversations with Kislyak, **there was no need to ask Flynn what the conversations entailed.** Earlier this year, McCarthy argued that [it remains unclear why the Obama Justice Department chose to investigate Flynn.](#)

[Here](#) is General Michael T. Flynn's plea agreement. Everyone knows the National Security Adviser calls heads of state for the new incoming President. Only when the President is Trump and the adviser is Flynn is there an investigation.

NSA Responsibilities

ABC News reported that "Flynn was to testify that Trump directed him to make contact with the Russians to lay the groundwork for mutual efforts against ISIS in Syria." That's what an incoming national security adviser is supposed to do in a transition between administrations. The NSA does this in every administration transition, they talk to the heads of foreign governments.

If this were part of the basis for a collusion case arising out of Russia's election meddling, then General Flynn would not be pleading guilty to a process crime. He would be pleading to an espionage conspiracy. In criminal procedure, **process crime** is an offense charged by a prosecutor alleging criminal conduct related to an investigation of a crime, but not to the crime itself. (Examples include obstruction of justice, perjury before a grand jury and [misprision of a felony](#).) At the end of the day, this remains a process crime, which basically is minor.

There is no collusion with Russia, and this attack against Michael Flynn, destroying his reputation and finances is nothing more than the last refuge of a failed investigation. The charges against Gen. Flynn are weak, and while Flynn lied, there was no crime to cover up.

Americans are outraged at the time and money spent by Mueller's Clinton supporting attorneys to destroy this administration and those who support this President, and we know the real criminal acts have been by the FBI, Comey, and Mueller.

Flynn's Calls to Foreign Dignitaries

A recent article in [The Hill](#) claims the White House is saying the Obama administration approved Mike Flynn's calls with the Russian ambassador during the transition.

According to court documents, Mr. Flynn lied to investigators when he told them that he did not ask Russian Ambassador Kislyak to refrain from retaliating against U.S. sanctions imposed by the Obama administration in response to the alleged Russian meddling.

Mr. Flynn also lied when he told the FBI that he did not lobby Kislyak to oppose or delay a United Nations Security Council vote condemning Israeli

settlements, a resolution strongly condemned by Trump. He admitted that he asked Russia to delay a U.N. vote seen as damaging to Israel, but diplomats said it was not the only country he and presidential adviser Jared Kushner lobbied. [\[Link\]](#) It failed, with the UN Security Council adopting a resolution demanding an end to Israeli settlement building on land Palestinians want for an independent state. The vote was 14 in favor and one abstention by the United States.

Former Israeli Ambassador to the United Nations, Dan Gillerman, [told Fox News' Eric Shawn](#) that Michael Flynn deserves a medal, and...

American voters need to remember that Obama officials **illegally leaked** contents of some of these recorded conversations to the press during the transition, and the [Washington Post published a story](#) which said that the phone calls between Flynn and the Russian ambassador had been listened to and transcribed, and there was nothing illicit on them.

The Corrupt FBI

Yes, Mike Flynn lied to the FBI and yes, it was wrong. He had two other choices, tell them the truth, or refuse to talk to them. What most Americans don't understand is that Flynn knows exactly what the entire DOJ, CIA, and FBI are all about.

Back in July of 2017, I wrote an [article](#) about Deputy FBI Director Andrew McCabe, and the fact that he is under investigation. Robin Gritz, a decorated counterterrorism agent, had filed a sexual discrimination and retaliation lawsuit against Andrew McCabe and other top FBI officials. Once she filed the lawsuit, McCabe began investigating Gritz personally looking for any dirt on her he could find. In 2014, Mike Flynn backed up the sex discrimination charge brought by Gritz against McCabe and other top people at the FBI. Surprise...two years later Flynn is the subject of a McCabe-led FBI investigation about how he supposedly colluded with the Russian ambassador.

Former FBI Agent, John Guandolo has made it clear that the [entire DOJ is infiltrated with Muslim Brotherhood](#), and we know without a doubt that Mike Flynn is an expert on the Islamic terrorist enemy. Read his book, [The Field of Fight](#)!

Sebastian Gorka has made it clear that senior FBI agents and Obama holdovers consider Donald Trump as the enemy, and that includes Mike Flynn.

As for Obama, he hates General Flynn, this is why Flynn was being surveilled by the Obama administration during the transition. Flynn was the head of Obama's Defense Intelligence Agency. Obama parades Islam as a religion of peace, but Flynn has a much different view on militant Islamic terrorism and he was constantly lobbying for foreign policy that would deal with militant Islamic terrorism in the way he thought it presented a threat.

**Robert Mueller,
Guardian of the Swamp**

So why is Mueller out to crucify Flynn? Obviously to get to President Trump, but there's more. When Flynn was head of the U.S. Defense Intelligence Agency and afterwards, he [blew the whistle](#) on the U.S. and its allies willfully allowing Islamic terrorists to flourish in Syria.

That didn't ingratiate him with the Deep State...neither did his expose' in [The Hill](#) about [Fethullah Gulen](#), [his charter schools](#), and the support this Islamic mullah has received from the left, the [CIA and the DOJ](#).

We've always known that Mueller is [part of the Deep State](#).

His buddy, Deputy AG Rod Rosenstein put him in power as the Special Counsel for this bogus Russian Collusion investigation. And what does Mueller do? He brings in a huge team of partisan hacks, all of whom worked for or supported the corrupt Clintons and Obama administration.

[Mueller, Rosenstein and former FBI Director Comey are all good friends](#), and Mueller should have recused himself from the Trump investigation. Their aim is to destroy President Trump.

The entire Mueller team isn't even [based on US law](#), and they continue to [break the law](#) by leaking to the press about this fake investigation. Knowing Mueller's involvement with the

Uranium One scandal alone should have resulted in immediate termination.

This whole rotten investigation should have long ago been shut down, and if the media were actually doing their jobs instead of their partisan lies, this entire Flynn story wouldn't have even seen the light of day, and the Flynn family wouldn't have been financially destroyed. Remember folks, the media lies with impunity, the state libel laws were destroyed because of one of the worst rulings by the [Warren Supreme Court in 1964](#).

And this just in...Two senior Justice Department officials have [confirmed to Fox News](#) that the department's Office of Inspector General is reviewing the role played in the Hillary Clinton email investigation by Peter Strzok, a former deputy director for counterintelligence at the FBI who was removed from the staff of Special Counsel Robert S. Mueller III earlier this year, after Mueller learned that Strzok had exchanged anti-Trump texts with a colleague.

Obama Officials Never Prosecuted

Former Director of National Intelligence, James Clapper, and CIA Director John Brennan both lied to Congress. He has since admitted he testified in the "[least untruthful manner he could think of](#)." But he'll never be prosecuted, yet General Mike Flynn is indicted.

And what about Hillary, she'll never be charged for [lying to congress](#), even though everyone knows she did. This entire Russian investigation is about destroying the President chosen by America's electorate.

The timing of the charges against Michael T. Flynn are not coincidental. It was down to the wire on our President's tax cuts which have passed in the Senate. Mueller pulled this off on Friday, 1 Dec 17 to sweep the tax cut deal off the front pages, the democrat sexual predators out of the news, and the sanctuary-city-protected illegal alien who murdered Kate

Steinle away from our thoughts. Mueller has done this to target our President, and a great veteran who has given 33 years of service to his nation.

Conclusion

Michael T. Flynn is a patriot with exemplary service to this country. He and General Stanley McChrystal were two men who actually knew exactly how to fight the Islamic enemy, and both were fired by Obama. Like many veterans, this man needs our support, but Mike Flynn needs it now because the Deep State has targeted him like no other veteran.

Mike's youngest brother, Joe Flynn told me, "The Flynn family is grateful for the support of [Mike's legal defense fund](#), but it has been a long and arduous ordeal and it will have long term effects. Mike needs your help, he has to put his family home up for sale to pay legal bills. This has been devastating to the family of a patriotic Christian man. Please help us support him."

Many veterans have emailed me wanting to help. One who served under General Flynn and General McChrystal told me that, "Mike walks on water and doesn't even get his feet wet." The veterans love this man.

Won't you please help him save his family home and pay his exorbitant legal fees by donating to his [legal defense fund](#)...Mike deserves your help especially this Christmas. He stood for freedom, stand for him!
