

Patriotism is Not Obedience to Government

“Patriotism is not Obedience to Government. Patriotism is Obedience to the Principles for which Government is supposed to stand.”

Why can American’s be called racist continually with no opposition? Answer: SCHOOL. Why are Patriots being called racists? Because this is what kids learn in school. Someone sent me this statement. Not sure of the author but how true is that. “Patriotism is not Obedience to Government. Patriotism is Obedience to the Principles for which Government is supposed to stand.”

Why is racism still an issue at this magnitude? Answer: money and ignorance. The race baiters need the race issue for donations so the ignorant Human Capital (their words) learn America and White People are racist in SCHOOL.

How do you teach people to be racists? Real easy! By omission. By promoting the disgrace of America – slavery, they omit the best of America – Guaranteed Freedom for All Americans (including slaves.) By demonizing patriots they develop a group to hate.

Ask any legislator, school board member, Superintendent, DO YOU LOOK AT THE CONTENT OF THE MATERIAL THE HUMAN CAPITAL READ? You will get an overwhelming NO.

So remind me again why are we paying their salary?

The failure of education is basically because no one focuses on the 2 reasons kids learn:

1. Content of material-which today is highly confrontational and racist
2. Method of learning-Skinner/Pavlov training. Your child will be trained like a pet not taught to read, write and do math.

"Where you came from is not as important as where you go," was the subliminal message from some TV show last week. Not quite true. The show's message is HISTORY is not important. Knowing History, our past experiences help us make decisions correcting our mistakes. Not knowing history means we will repeat the same mistakes over and over. Why are Human Capital being told not to talk to seniors? Because seniors know history!

Where you come from gives you the experience and direction as well as the ability to make informed decisions with less mistakes. We all know the one with the fewest mistakes wins. If you know history, you can eliminate many mistakes. So understanding that it is easy to see why History is no longer taught. CCP must eliminate history, because it is their competition.

Look at history of intelligence in America. Remember when parents said, "I just went to the 8th grade." Our seniors learned more from 1-8 than is learned in 1-12 today and yet we are spending more money and getting dumber. Could there be a reason? Can any legislator or bureaucrat pass a test from the 1900's? Notice how all questions are open ended. Students actually had to use their cognitive skills.

School was not necessary after 8th grade. School was not filled with social programs that did nothing for learning.

Schools taught locals following local ideas and plans. Social problems were attended by family and charity. America was very integrated in the 1900 but Pres Wilson returned segregation back into governmental positions. Wilson was a??? DEMOCRAT. A bit of unlearned history skewed in school.

In the 1980's after enough teachers were trained in the NWO divisive education, a massive "modernization" of education was instituted. Education was redefined by Shirley Mc Cune from the Mc REL Foundation under G Bush 41 and Bill Clinton as president of the Governors Association.

- Students are called Human Capital and are defined by the amount of work they can do for the state. (Their words – human capital, useful idiots)

1989 Governor Association on Education direct from Shirley:

- Students are HUMAN CAPITAL Education's purpose is to train students to work. Training takes the expense of corporate training and pushes it on the tax payer enabling corporations to become hugely profitable while taxpayers pay, pay, pay.
- Purpose of Education was to Transform Society from individualism to collectivism. America is individualism, slavery is collectivism.
- Fact Based Education is no longer the primary focus of education Fact based education creates a strong foundation. Value driven is indoctrination into someone else's opinion.

Remember Rachel Jeantel (from Zimmerman case) is a direct result of the Bush-Gates-Clinton-Bush Obama, NWO education. "I can not read sir, I can not read and write cursive." Rachel exclaimed.

- People who can not read are called slaves.
- People who can not read and write cursive have NO SIGNATURE or individuality. they are but a number now

called HUMAN CAPITAL

- People who can not read and write cursive can not read America's founding documents and have no idea of what they have and are giving up.
- People who can not read and write cursive often have poor eye-hand coordination. Cursive writing promotes eye hand coordination.

Now look at your 2012 paper money. Find the Sec Treasurer signature. Don't look at the name printed, look at the signature. The Sec of the Treasury, Jack Lew can not read and write cursive. Who is signing your money? Anyone can make a scrawl like that.

Relying on one kind of program (progressive) without offering choices (individualism, exceptionalism) is a bad idea. Using techniques to divide people with words, content and other programs have allowed the Florida schools to determine that they only expect 75% from the black community. How racist is that?

According to the new modern education the purpose of education is:

1. To replace family with school
2. To replace God with Government
3. To replace America with the UN
4. To replace choice with sustainability=control

American history is erased. Prior experiences are gone. Adults are demonized; they know history. Seniors are called names and discounted in school. History now starts in 1865 with little discussion on Constitution or founders or the glory and struggle to bring Freedom to all. Many Schools only study the Constitution on Sept 17. As a result, most people will have no idea why the Constitution is important or what it

actually says or protects. (3rd generation of indoctrination)

Today all learning is based on sustainability, a failed formula already proven wrong by their own scientists. Why is it still in our schools? Money, Power, Control. Sustainability indoctrinates: doing more and getting less. Lenin: "An educated populace will make too many demands on the government." Best we keep the people down. School has become limited learning for life long labor.

Schools Indoctrinate Global citizenship – what is that?

Global citizenship means you give your life, liberty and personal property to the government. The government decides what you can have depending on your category (divisive and racist) . You own nothing except what the government wants you to own.

American citizenship means your life, liberty and personal property are yours.

Which do you prefer?

By not teaching America, people have no idea what they give up.

People can not be an American citizen and a global citizen simultaneously. Yet schools promote being a Global not American citizen. Why?

Global Citizen follows social justice which divides HUMAN CAPITAL into categories – women, gays, blacks, Hispanics, etc. Every group has a different set of rules. They are defined socially and follow the rules of that group as defined by the government. But the government changes the rules which demonizes one group and pits them against each other so they constantly can be divided. The division becomes more important than the message.

The schools teach social justice not equal justice because divided people do not communicate and that is the final objective. Eliminate communication among Americans and the

Progressives win every time. Gobs of donations come into any NON-Profits touting racism while the media screams. Racism is learned in school and those that are successful enjoy a billion dollar Race Industry all to making sure Americans don't speak to each other.

Exactly what are they afraid of?

Simple: We are many, they are few. The only way to win is to divide the people. To win, just keep talking the truth. Now we must vote and get everyone we know to vote also. You can't win if your don't play the game.
