

# Paul Ryan in bed with Obama, again! part 1 of 2

In my 26+ years in the trenches, I've never seen what's going on right now in either of the two anointed political parties.

On the Democratic/Communist Party USA side, the only two candidates who 'rose to the top' and stayed there are almost beyond words. Sanders didn't earn his first paycheck until he was 40-years old. A socialist who lived like a bum occasionally earning a few bux writing about masturbation and rape.

Comrade Bernie Sanders was a member of some party called the Liberty Union prior to 1979. A very far left operation. From 1979 to 2015 he was a declared independent socialist. In November 2015, Sanders announced he would now be a Democrat. He is still listed as both independent and Democrat so who knows. Sanders should never have been allowed to run. He is a seditionist working to overthrow our constitutional form of government.

The presumptive nominee of Bernie's party is half of the worst criminal duo in American political history, serial adulterer and rapist, Bill Clinton and his enabler 'wife', Hillary Hildebeast Clinton.

Hillary caught up in deadly-drug scandal

"I have always said that there is no crime that is beneath Bill and Hillary Clinton, the Bonnie and Clyde of American politics. They even attempted to steal priceless White House furniture on their way out of office in January 2001, only to have to shamelessly return it once caught.

"In the prior years, this duo was associated in even worse potential criminal acts – that is in many deaths – from the

“mysterious” murder or suicide of Vince Foster, who had been Hillary Clinton’s law partner and extra-marital boyfriend at the Rose Law Firm in Little Rock, Arkansas, before Bill and Hill ascended to the throne of the presidency and “firstladyship,” and Foster became “Hillary’s” deputy White House counsel. In addition, over 80 others, including material witnesses, wound up dead in their world record number of scandals, ranging from Whitewater to Chinagate, Filegate, Travelgate, IRSgate and a host of others...

“So, it would appear that again Hillary Clinton is at the epicenter of a scandal of growing proportions. For money, as usual, it would appear that Hillary greased the skids with President Obama for Hamburg to become FDA commissioner, all in exchange for political and other contributions. Now, according to FDA statistics, over 5,000 innocent victims are dead with more dying or severely injured, including my victim clients. I am sad to say that this comes as no surprise. This is the way Bonnie and Clyde operate. Selfish greed and the rest of us be damned.”

Flashback: Clinton blood scandal exposed in new film, Oct. 30, 2005 – Tainted blood, AIDS

The Clinton Foundation has been referred to as a slush fund Bill & Hill Clinton have used to enrich themselves. As far as my research into the issue of Clinton’s email legal problems, she is the first presidential candidate in history, a presumptive nominee of her morally and ethically bankrupt political party, to be under an official criminal investigation by the FBI. Not the first major party presumptive nominee with a vagina, but under criminal investigation by the FBI.

Hillary the Hun is also soft on Muslims & Islam regardless of how many they murder on this globe and right here in America: Hillary’s State Dept. Blocked Investigation into Orlando Killer’s Mosque – Further proof Hillary fueled rise of ISIS .

A must read: Hillary's Huge Libya Disaster by U.S. Navy Rear Admiral Charles R. Kubic, Ret. Putting that wretched witch in the position of Commander in Chief would be absolute lunacy.

Donald Trump, the GOPs presumptive nominee has been treated like dirt by GOP elites who don't give a damn about what voters want. The incoming from GOP establishment individuals (think loser Mitt Romney) as well as Republicans in elected offices refusing to endorse their own presumptive nominee has been something I've never seen before. For an individual who brought more votes in during the primary season than any other Republican from all walks of life to be treated the way Trump has by his own party should prove to voters just what and who GOP elites care about and it isn't them.

Paul Ryan should never have become Speaker of the U.S. House of Representatives. He's just the new rat who took over from former crook, Johnny Wino Boehner. Paul Ryan is a dirty operator who has NEVER introduced a single bill to cure the cancers eating away at our economy, the illegals invasion, unconstitutional spending or anything else. Paul Ryan is owned by the anti-American U.S. Chamber of Commerce and corporate America. Yet, he is leading a perfectly good challenger in his primary race by a 93%-7% margin. That primary is August 7th.

What in the hell is the matter with the people in Paul Ryan's district? I can tell you. They have NO understanding of key issues like the disabilities of our monetary system, what 'free' trade has done to this country, why Muslims should never have been allowed in this country (nothing to do with bigotry), the true nature of the federal 'income' tax and where it goes plus much more. One of the reasons I wrote my new book, Taking Politics Out of Solutions, coming out in a few weeks. [An image of my new book should be just to the left of this page] If Paul Ryan supporters read my book they would run Ryan out of town on a rail.

It wasn't bad enough Paul Ryan wouldn't endorse Trump

immediately following Trump's victory going over the top to obtain the required number of delegates, but his latest threat is simply extraordinary.

Trump has said there should be an immediate ban on Muslims coming into this country because we don't know who they are or any other verifiable information about them. They also lie to get into this country. Think San Bernadino killer's wife.

I was in my hotel room in Denver when I turned on FOX and saw what was unfolding in Orlando, Florida. I wasn't surprised but I was sickened by the carnage. No, it wasn't Baptists, Presbyterians, Methodists, Catholics or Jews. Once again it was a Muslim. I won't say radicalized Muslim because Islam is exactly what we saw in Orlando. Nothing but hatred and savage violence throughout the history of that alleged religion.

"But the truth is that Islam is not the name of a 'Religion', nor is 'Muslim' the title of a 'Nation'. In reality Islam is a revolutionary ideology and programme which seeks to alter the social order of the whole world and rebuild it in conformity with its own tenets and ideals. 'Muslim' is the title of that International Revolutionary Party organized by Islam to carry into effect its revolutionary programme. And 'Jihad' refers to that revolutionary struggle and utmost exertion which the Islamic Party brings into play to achieve this objective."

There's been a lot of speculation the killer was a sexual deviant. Who knows? He married females twice and fathered a child. We know during the time he held hostages he texted 'Love you, babe' to his wife. Several women have stepped forward and said he hounded them for dates; one woman said she blocked him from her social media because she felt he was stalking her. Every American he slaughtered at that night club or injured was a human being, not a sexual preference. Every one of them cut down and all the injured were innocent regardless of what kind of night club it was.

The killer made known his motivation: 'I Did It for ISIS': Orlando Terrorist Spoke to News Station During Attack. The killer's history of spouting off his hatred in the workplace is well documented, just like the Ft. Hood murderer. Nothing was done because both are Muslims. My personal opinion is it had nothing to do with the killer seeing two men kissing as his father tried to put forth as an excuse. It had everything to do with that toxic belief system called Islam. Yes, even though pedophilia and pederasty is rampant in countries like Afghanistan, Muslims believe sexual deviants should be put to death and it's done on a regular basis.

However, Muslims are forbidden alcohol. Maybe the killer chose a night club because they serve alcohol although he was known to booze it up. We know for a fact the killer and his wife were casing Disney World: Disney Warned FBI about Mateen, Wife back in April as they Cased Theme Park Resort for Potential Attack. It was easier to hit the night club because it was a gun-free zone where a lot of people were corralled in one place at the same time. Trying to get into Disney World with weapons would have been close to impossible unless it was a bomb that could be assembled.

Both Barry Soetoro (Obama) and that old fool Joe Biden, attended memorial services for those killed in Orlando. I always thought a president (which we do not have since Obama usurped the office) and VP were not to appear in the same place at the same time because of assassination concerns – except at the State of the Union address. I guess Orlando was more important than attending the funeral of Colleen Hufford, the woman in Moore, Oklahoma, who was beheaded by a Muslim in September 2014. I suppose had she been a lesbian Soetoro would have been there with flowers fake tears.

There's been a million words written already on the Internet about what happened, who the killer was and other threads. Below are ones I feel are worthy of reading. I provide them for anyone interested. If you didn't know, the killer was a

registered Democrat who legally purchased the guns he use to commit mass murder.

[Just a short note about 9/11 and Smart Electric Meters. The cost of America's undeclared "war" (invasion) in Afghanistan has now reached \$1 trillion borrowed dollars – massive debt heaped on us all based on what happened on 9/11. Regular readers of my column know I continue to press for the truth about the events of 9/11. Military grade nanothermite is not a conspiracy theory. It was found and tested from the rubble at the twin towers. A new, powerful film has been released: The Anatomy of a Great Deception. Just released: New Expanded Global Edition. For full disclosure I receive no compensation, but I want you to get a copy (or a few) and share it with others or give a copy as a present. I've purchased half a dozen copies and given them to individuals I believe seek the truth. It's very powerful simply because it's one 'ordinary' man's story who ask a simple question that led him to a not so simple journey. There is factual information in this film that many have never heard about but everyone should. Just a suggestion, order more than one and give one to a friend. Also, must see video on the dangers of Smart Meters on your home, titled: Take Back Your Power.]
