

# Paul Ryan in bed with Obama, again! part 2 of 2

TREASON: Aiding and abetting an enemy. This is treason in my opinion. Obama and Jeh Johnson, head of Fatherland Security should be indicted along with any others involved. Obama said we would never be at war with Islam, but by God, Muslims are at war with America. And now the blood runs on American streets and in soft targets like a night club.

- DHS ordered me to scrub records of Muslims with terror ties
- Homeland Security pushes to ban words 'sharia' and 'jihad'

The impostor president who has used FIVE aliases. How many other U.S. presidents have ever used one alias, never mind five? None.

Obama deliberately 'dismantling' America's defenses – 'If we don't face this truth voluntarily, we'll eventually face it involuntarily'

- Afghanistan Migration Surging into America; 99% Support Sharia Law
- Orlando terrorist connected to radical Muslim cleric who was released from prison last year after he converted 36 people in jail and 'runs a website used to dispense his teachings'
- Florida prosecutor suspended for Facebook post following Orlando shooting
- Obama's FBI Shrugs off Mateen, But Red Flags Were Everywhere
- Homeland Security worried 'right wing extremists' pose same threat

Loretta Lynch, that foul piece of baggage serving as our Attorney General: "Partial Transcript" Of Orlando 911 Calls Will Have References To Islamic Terrorism Removed

'Islamic refugee' caught in U.S. with gas-pipeline plans  
Politically correct fools who don't understand the term Trojan Horse: Southern Baptists split with Trump on Muslim refugees. As for them being displaced from their homelands, WE are paying for the so-called rebels in Syria who don't want peace. All borrowed money to fund killers who didn't like the outcome of an election.

The ignorant in the media, dumb, stupid politicians and civilians continue to demand a ban on assault weapons because of Orlando:

Despite What You've Heard, the Orlando Terrorist Did Not Use an AR-15 in Attack

"The terrorist was actually armed with a Sig Sauer MCX carbine. Bearing Arms' Bob Owens has more details about the firearm and how it relates to an AR-15: The rifle used by the Islamist terrorist in Orlando was instead a Sig Sauer MCX carbine, a modular, multi-caliber (able to swap to different calibers, including 5.56 NATO, 300 BLK, and 7.62×39) rifle system that sometimes utilizes STANAG magazines common to more than 60 different firearms, but otherwise has no major parts that interface with AR-15s in any way, shape or form."

Paul Ryan is pro-amnesty for cheap labor for his masters. He wants to reward 25-30 million liars, cheats, thieves, rapists, murderers and those who steal the identity of Americans to obtain jobs illegally or by using black market social security numbers making the lives of Americans hell. That would be illegal aliens. He's pro-Muslim and like the criminal impostor in the White House, Paul Ryan doesn't give a damn about American lives.

'Muslims are our partners': Paul Ryan wallops Trump as he insists U.S. battle is 'not a war with Islam' – What BS. He's simply parroting what the fraud in the White House has been yapping for almost eight years.

Ryan turned his guns on Trump after Orlando:

Paul Ryan threatens to sue Trump over immigration ban

"House Speaker Paul Ryan was the latest to criticize Trump's border plans, telling the Huffington Post just this week that he would actually consider suing the billionaire businessman if he won the White House and pressed forward with that border control. "I would sue any president that exceeds his or her powers," Ryan said, expressing doubt that Trump's border suggestion was legal, as Talking Points Memo wrote.

"Ryan went on: "That's a legal question that there's a good debate about. On the broader question, are we going to exert our Article I powers and reclaim this Article I power no matter who the president is? Absolutely."

Since when did Paul Ryan suddenly have any respect for the U.S. Constitution? We know ISIS and other Muslim zealots have infiltrated refugee movements and to think they won't come here is rank stupidity. Paul Ryan doesn't give a damn about American lives whether in danger from illegal aliens or Muslims. Now he's threatening to sue a potential president from his own party for common sense who wants to protect the people of this country.

## ISIS recruiters in U.S., hunting teen girls

Legal experts say the courts would strike down such a ban. Other legal experts say it is constitutional. I haven't read anything in the U.S. Constitution which gives anyone the 'right' to come to this country. If there is an individual or group that represents a danger to the people of America, why would we let them in? Muslims are taught to lie to advance their quest for world domination and jihad. Hide what's in their hearts until they can build up their numbers. For God's sake, look at Europe. Remember this one:

## Offended Muslims erupt on school board, September 22, 2015

"A school-board meeting in New Jersey descended into chaos when a room full of angry Muslim parents were denied a last-minute request by its members. Tempers were so raw last Thursday when the Jersey City Board of Education decided not to close schools for the Muslim holiday of Eid al-Adha that officials had to order security to 'take charge.' The holiday falls on Sept. 24. 'We're going to be the majority soon!' said one woman into a microphone, WNBC-TV reported Sept. 17...

"The speaker's statement echoed a top Islamic preacher, Sheikh Muhammad Ayed, who said during a recent sermon at Jerusalem's Al-Aqsa mosque of Muslims taking root in America and Europe, "We will breed children with them, because we shall conquer their countries – whether you like it or not," WND reported."

And this one: Saudi-born Muslim infiltrated Navy, leaked plans to sink new U.S. aircraft carrier, 2015

"A Naval engineer was charged Friday with trying to leak drawings of the military's new aircraft carrier to the Egyptian government, not knowing that he was dealing with an undercover FBI agent. Federal authorities alleged in court filings that Mostafa Ahmed Awwad, 35, of Yorktown, Va., gave computer drawings of the USS Gerald R. Ford to an agent posing as an Egyptian intelligence officer and talked about where to

shoot the vessel to sink it. He was charged with attempted exportation of defense articles and technical data and was ordered held after an initial appearance Friday in federal district court in Norfolk.”

We are importing death and destruction while Paul Ryan and his ilk turn a blind eye. Americans have two choices in November. They can vote for a morally bankrupt CROOK who doesn't give a damn about minorities or anyone else in this country. Bill & Hillary live nearly as good as Saudi royals while she pretends to care for the working people in this country. Hillary's actions speak louder than her campaign BS. The only thing Hillary Clinton cares about is how much money and power she can obtain before she drops dead.

Or, Donald Trump, a man who has been in the public eye for well over thirty years and was never called a racist until he decided to run against the Democratic/Communist Party USA. A man who wears a bullet proof vest traveling around this country with a message and how he wants to turn things around.

I think Paul Ryan hates Donald Trump because, think what you will about him, Trump is a fighting man. Paul Ryan is a perfumed sissy in bed with Barack Obama who won't fight him down and dirty. Why would he? The two parties are like two wings on the same bird of prey.

Carroll Quigley, Bill Clinton's mentor wrote in his 1966 book *Tragedy and Hope: A History of the World in Our Time*:

“The chief problem of American political life for a long time has been how to make the two Congressional parties more national and international. The argument that the two parties should represent opposed ideals and policies, one perhaps, of the Right and the other of the Left, is a foolish idea acceptable only to doctrinaire and academic thinkers. Instead the two parties should be almost identical, so that the American people can “throw the rascals out” at any election

without leading to any profound or extensive shifts in policy. The policies that are vital and necessary for America are no longer subjects of significant disagreement, but are disputable only in details of procedure, priority, or method ....Then it should be possible to replace it, every four years if necessary, by the other party, which will be none of these things but will still pursue, with new vigor, approximately the same basic policies.

Ryan is carrying out the agenda of global elites that will destroy this country. Trump says no, we're not going to take it anymore. How about you?

[Just a short note about 9/11 and Smart Electric Meters. The cost of America's undeclared "war" (invasion) in Afghanistan has now reached \$1 trillion borrowed dollars – massive debt heaped on us all based on what happened on 9/11. Regular readers of my column know I continue to press for the truth about the events of 9/11. Military grade nanothermite is not a conspiracy theory. It was found and tested from the rubble at the twin towers. A new, powerful film has been released: The Anatomy of a Great Deception. Just released: New Expanded Global Edition. For full disclosure I receive no compensation, but I want you to get a copy (or a few) and share it with others or give a copy as a present. I've purchased half a dozen copies and given them to individuals I believe seek the truth. It's very powerful simply because it's one 'ordinary' man's story who ask a simple question that led him to a not so simple journey. There is factual information in this film that many have never heard about but everyone should. Just a suggestion, order more than one and give one to a friend. Also, must see video on the dangers of Smart Meters on your home, titled: Take Back Your Power.]
