

Pfizer, Moderna, J & J: Will Grand Juries Recommend Criminal Charges?

By: Devvy

October 30, 2023

The carnage from those experimental gene therapy injections continues. It will NOT stop unless Americans demand their state attorney generals convene grand juries to investigate one of the greatest crimes against humanity ever.

As someone who has written a gazillion words since early 2020 and spent countless hours doing research, the truth about those injections continues to surface as scientists and doctors evaluating the contents find even more devastating scientific results.

To this day, **ignorant college boards** are again requiring a student to take an experimental injection which can kill or disable them for life or forget getting an education. They should all be jailed. **No college degree from some big name college/university indoctrination center is worth your life and future.**

Same for medical personnel in all fields from doctors and so-called scientists from big name hospitals [like John Hopkins](#). "Yes. The two mRNA vaccines, Pfizer and Moderna, authorized by the U.S. Food and Drug Administration (FDA) and recommended by the Centers for Disease Control and Prevention (CDC), are very safe and very good at preventing serious or fatal cases of

COVID-19. The risk of serious side effects associated with these vaccines is very small.”

*None of them have a shred of credibility left. Those “vaccines” are safe so mandatory for nurses, technicians and even janitors in hospitals. **Their denial and ZERO knowledge of what has happened as a result of those experimental injections is no excuse.***

Tragically, school districts across this country, also drowning in ignorance and denial, have added the COVID-19 “vaccine” to the list of cocktails for kids. It’s heart breaking.

Career politicians like my governor (TX) Greg Abbot and our alleged “health & safety” committee did NOTHING to stop distribution in this state. In early 2021, I wrote six letters to both Greg Abbott and every senator on that committee warning them about those experimental injections. That they were NOT vaccines. That the FDA considered (Pfizer & Moderna) their product gene therapy. **Gene therapy treats diseases like cancer and is not a vaccine.** Mis-labeling is a felony. Fraud does not protect vaccine manufacturers and their precious immunity. Response: Crickets.

I remember quite well all the demonstrations at state capitols from angry Americans who couldn’t go to work, who had to wear a mask and other draconian measures based on NO science. Demonic governor of Michigan, Gretchen Witless Whitmer, another one of Satan’s Pimps didn’t give a tinker’s damn. She was still getting her fat paycheck.

So where are the demonstrations now that over 500,000 Americans are dead from those injections? I base that number on several sources but the only way to get something close to the actual number is through Medicare & Medicaid death files and hospitals.

The number of now permanently disabled has yet to be

determined because there has to be a forensic investigation which will be time consuming. Ed Dowd has come up with 1.3 MILLION more disabled added to the count for last year if I remember correctly from one of his recent interviews.

Injuries from the injections that range from mild to catastrophic will also require a forensic investigation into state and federal records. Since Dec. 2020, after the injections were released, injuries are well over 1.6 million. The reason actual hard numbers will never be known as VAERS (Vaccine Adverse Event Reporting System) is a joke with about 1-10% reporting.

"The batch of Pfizer clinical trial documents released in April 2023 by the Food and Drug Administration (FDA) under court order contains a shocking, eight-page document titled, "Pregnancy and Lactation Cumulative Review." The data in the Cumulative Review span "...from the time of drug product development to 28-FEB-2021." A Pfizer employee, Robert T. Maroko, approved the Review on April 20, 2021. (p. 8)

"This document is among the most horrifying yet to emerge into public view. **It reveals that both Pfizer and the FDA knew by early 2021 that Pfizer's mRNA COVID vaccine, BNT162b2, resulted in horrible damage to fetuses and babies.** (Though I arrived at the conclusions in this article on my own from reviewing the document linked here, Sonia Elijah previously covered some of this same material on April 22nd on TrialSiteNews and on April 26th on Substack and Redacted.) Actually, it's a film with several parts. Any grand jury who watches it, I believe, would return a true bill. Yes, this is all very time consuming but Americans (and the people of the world shot up) must take the time to become informed and then act as I've done.

I know from experience (a close family member) those who took those experimental injections (doctor insisted) do not want the truth. It scares them. Denial: I'm fine so leave it. My family member took them 18 months ago and her health (her doctor said you must get one) has been steadily declining and she's in a lot of pain.

If you don't die within a few weeks, it can take 4-18 months after getting jabbed for the technology to *start destroying your natural immune system*. Someone with no comorbidities could take 3-5 years and then premature death. It's not easy for me to write these columns because it just tears at my heart strings.

The 'genie is out of the bottle' and cannot be put back. The truth, despite the NEVER -ENDING LIES pumped out by the prostitute media (ABC, CBS, NBC, CNN, MSNBC, NY Times, USA Today, Reuter's, AP and all the rest of them – *the truth backed up by actual science is now out of the bottle*. **This is a dangerous time because the guilty are now backed into a corner and with so much at stake, they are dangerous.** The guilty want to silence us because the cry around the world, censored by the media in this country, is I will not comply and we will fight you.

So many have "died suddenly" at home, at school, on a sports field. Don't know why, hurry and get them into the ground. It's the new medical category: SADS – Sudden Adult Death Syndrome.

So many lives ruined from teens to adults. Myocarditis is inflammation of the heart muscle which reduces the heart's

ability to pump blood. It causes chest pain, shortness of breath, rapid or irregular heart rhythms. It weakens the heart so your body doesn't get enough blood. This can lead to clots forming in your heart leading to a heart attack or a stroke. Pericarditis is fluid build-up in a sac around your heart which affects how well your heart is working.

Now, look at the thousands, not hundreds of athletes, but thousands, since those injections were unleashed who've died on the field in many countries besides the U.S., had heart attacks or can no longer play their sport. Like soccer players. One story I posted in a column was about a father weeping in a video; it was awful to watch. His son, an up-and-coming soccer star will never play again. 17-years old and will now be leading a somewhat sedentary life to keep strain off his heart: Myocarditis.

In defense of President-elect, Donald Trump. **Operation Warp Speed was well planned.** Did you know this:

[BioNTech co-founder Ugur Sahin “designed the COVID-19 “vaccine” in one day, Dec. 12, 2020.](#) “By the end of the day, Sahin became one of the 500 richest people in the UK. Total disinformation regarding efficacy. (Pfizer)

“But perhaps most remarkably, BioNTech co-founder Ugur Sahin designed the vaccine in just a few hours in **mid-January**, according to The Journal, a podcast from Gimlet and The Wall Street Journal. Moderna’s vaccine also took just two days to design, as Business Insider previously reported. The reason both candidates could be designed so quickly comes down to the technology they rely on: messenger RNA, or mRNA.”

Do you think Trump was told that by prolific liar, Dr. Death Anthony Fauci? **He was suckered using the big fear stick.** Trump wasn’t even told about COVID-19 until on or about **January 27, 2020.**

[Remarks by President Trump During an Update on Operation Warp Speed, Nov. 13, 2020](#) – “The average development timeline for the vaccine, including clinical tests and manufacturing, can take 8 to 12 years. Through Operation Warp Speed, we’re doing it in less than one year.”

Say what you will about Donald Trump but he genuinely and sincerely loves all the American people. He was so proud “we’re doing it in less than one year”. Think he knew Ugur Sahin designed that killer injection which is not a vaccine in one day? Think he knew Moderna already had “designed” their “vaccine” in two days?

I have probably another 100 or so articles. Regular readers know my past columns on those experimental injections are also full of articles. **We can write about this until the cows come home, but in the meantime, those responsible are still walking around free making big money.**

The Center for Disease Creation (CDC), Federal Death Administration (FDA), Moderna, Pfizer – the list goes on. All co-conspirators in unleashing those experimental injections. State Attorney Generals must file state RICO charges against all of them. We have no Justice Dept at the federal level.

In early Feb. 2023, two new postings went up on my web site; devvy.com:

[Who Created SARS-CoV-19, When, Where and How it Got to Wuhan, China](#) AND [The Dead Book – Deaths, Serious Injuries, Permanently Disabled Doctors, Scientists: Pull Those Experimental Injections from the Market](#)

They are very comprehensive; it was a TON of reading and cross-checking for me. I printed them all out which took forever on my poor old printer. I gave a copy to our City Attorney whom I have known since 2016 asking him to give those huge, heavy files to the County District Attorney which he did and even had Wilkerson sign for the files. I did not know at the time Wilkerson (a Democrat) was going to retire in May but those files sat there for months because apparently, Wilkerson spent the last 5 months in office basically doing nothing. Good riddance.

The City Attorney, Joshua Hamby, was then appointed by Gov. Abbott to replace Wilkerson as our new County District Attorney. By then it was early summer. I kept dropping off new information for Mr. Hamby. I knew a new grand jury had been impaneled. Well, that was that as Mr. Hamby suddenly stopped returning any of my phone calls. Very disappointing because we've always had a very cordial relationship. Perhaps

it has to do with the secrecy of grand juries, but time will tell. Hamby is a good man, really.

As soon as those files were uploaded to my site, I sent another set of those huge, heavy files to my new state senator, Kevin Sparks, in Austin. A really great senator. Unfortunately, because he was newly elected and the new session began in Jan. with only 140 days to get bills introduced and passed, the files sat in a corner collecting dust. I had requested Sen. Sparks get them to our state AG Ken Paxton because I'm a nobody. I also really don't have the financial resources to get to Austin. A six-hour drive each way, kennel the dogs, food, gas and lodging. Anyway, after several very polite phone calls to Austin, Sen. Spark's aide told me one of their staff would walk the files over to Paxton's office. That was about five months ago.

Little did I know – nor did the rest of the people in our state – back stabbing RINO's in our house of reps at the capitol began a secret investigation to get Paxton impeached (they started in March). The impeachment charges were brought against Paxton on May 26, 2023. Paxton's office had opened a criminal investigation into Pfizer, Moderna & Johnson & Johnson on May 1, 2023. Paxton was found not guilty on all counts by the senate. It was a political hit job by our RINO Speaker of the House, drunk Dade Phelan.

Now, these two new files posted to my web site are dynamite and list witnesses Paxton's investigative legal team needs to call, including Ed Dowd. Beneath the two files is MASKS.

I'm sending them, including MASKS to Paxton's investigative team. A huge amount of reading and cross-checking, again. This is big time dead serious. I will make a copy for my county DA, Hamby, and drop it off at his office as a courtesy.

The Florida grand jury investigating Pfizer & Moderna expires Dec. 31, 2023. Likely, it will take some time for the final

report as people continue to die, suffer horrible, debilitating things like Myocarditis or become permanently disabled. Killing off our work force.

I've done all I can on this but it really is up to the American people to raise holy hell and demand full investigations. The horror stories about real people will continue, but until the guilty are indicted, it's just repetition (I'm sorry to have to use that word.) NO doubt in my mind who the guilty are and that any grand jury – even though this scares people who've taken those injections – looking at all the hard evidence would return a true bill which means indictment. I will stay on Paxton's office and hopefully connect with one of the investigators soon. Unfortunately, I have no title so basically, I'm a nobody to them.

If you have time whether you live in Texas or another state, drop a short snail mail letter to AG Paxton: I support your investigation into Pfizer, Moderna and J & J. We demand justice. (Politely, of course.) **10 or 15 thousand paper letters (forget email mail) makes a big statement:** We know what's going on and we want the guilty punished to the fullest extent of the law. Attorney General Ken Paxton, P0 Box 12548, Austin, TX 78711-2548

Professional politicians like our gov. Greg Abbott can always hide behind "I was never told the truth". Make no mistake: This IS political kryptonite and next year is a big election year. Lockdowns, mandatory masks and the rest of the madness gets laid right at their door. It is one of the reasons I did not vote for Abbott in the last primary. A whole lot of us Texans wrote and called his office to stop distribution of those dangerous experimental injections. Crickets.

My new postings contain a HUGE amount of information. Take a look and then in your "spare" time, go read the horror of what's been done to us and the people of the world. While the

number of people here in the U.S. getting those injections has dropped to 2%, **the damage is done. For generations and decades.**
