

# Political Brass-Knuckles

Your overwhelming support has led to my victory as the Republican Candidate for Oregon's Secretary of the State (SOS) – Thank you! You deserve a thunderous round of applause!!

We all know this is just the beginning. Now we need to focus on winning in the 2024 General Election on November 5th.

We have a lot of work ahead of us because today's ideological battles are part of a modern war. The battles we face are much more than meaningless skirmishes. The far-left has crafted their one-sided story under a false narrative of oppression and victimhood. The vast majority of Oregonians, left, right, and center know something is wrong with this picture.

The influential elites are so disconnected and out-of-touch that they still don't get it. They lack our crucial belief in freedom as the key ingredient in our daily lives. They don't understand liberty, and have grown the state into a metastasized cancer that has gained centralized control over every facet of life: wages, hours, benefits, temperature and taxes.

What the elites have done is thrown millions of taxpayer dollars into the eager hands of power brokers and big-moneyed donors without ever caring about real solutions. With the upcoming IP-17, Oregon's new calling card might soon become, "Nothing's Working – Let's Tax More to Spend More!"

In a practical sense, the tragedy destroying Oregon originates

from unreasonable legislative mandates. But the accountability failures belong directly on the back of Oregon's executive officers. Everyone should remember that damaged societies take years to unravel and during that time, the executives will continue to make excuses, cherry-pick data to keep their ghastly myths alive and increase your taxes to fund the 'public-private partnerships' that fill the bank accounts of the well-connected.

Oregon's economy is saddled with too many rules, regulations and taxes that typically don't impact the elites in a negative way. Their private jets fly far above the turbulence. They don't understand the burdens placed on hardworking Oregonian's nor do they regard their rules, regulations and taxes as troublesome.

This is our time to throw off this miserable shell of one-party political and institutional machinery. With the recent decisions against President Trump, everyone should rightfully fear the growing system of malicious ambition and premeditated political villainy that is worming its way through the heart of our Nation.

Now, it's up to us to put on our political brass-knuckles and join the fight for both Oregon, and America.

As your next Secretary of State, I will transform this executive office by steering it back to its original constitutional and statutory design. I will repurpose the office back to being an accurate barometer for transparency, accountability and fairness, where truth and common-sense rule the day.

Together we can and will turn Oregon back to the common-sense values of hard work, freedom for small businesses and entrepreneurship, utilizing our abundant natural resources both productively and sustainably, and ensuring excellence and ingenuity in our educational outcomes.

We all have heard the phrase “Money is the mother’s milk of politics.” My Democrat opponent will undoubtedly be well-funded by the George Soros-type elites as well as Union backers.

I am confident, We the People, can meet the fund-raising challenge necessary to wage a winning campaign.

We are facing tough times with Bidenomics but I humbly ask for you to consider a donation of any amount that you can afford.

Please give generously today to get my Secretary of State campaign off to a strong start!

Your support and prayers are invaluable! Thank you!
