

REAL ID: Your Privacy – Become an International ID

Authored by Devvy Kidd not AI

February 17, 2025

Well, we're seeing what none of us ever thought would happen: Exposing the rot and corruption oozing out of the District of Criminals for many, many decades. Endless "oversight" committees one sees on C-SPAN that never accomplished what Elon Musk and his team have in less than a month. Of course, a lot of planning was underway for months, I'm sure. We just had to get Trump elected instead of cheated again.

[US Treasury Pays \\$100 Billion Annually to Unknown Recipients](#)

"The Department of Government Efficiency has found that \$100 billion is paid annually to people without proper identification. More massive theft the Democrats are working furiously to keep hidden.

["Media Should Investigate Federal Waste Instead Of The People Uncovering It](#)

"Elon Musk, as head of the new Department of Government Efficiency (DOGE), has said that the US Treasury pays over \$100 billion annually to individuals without Social Security Numbers (SSNs) or temporary ID numbers. Musk has urged immediate reforms to address potential fraud and inefficiencies in payment systems."

['Mind-blowing': Trump and Musk find people '150 years old'](#)

[receiving Social Security payments](#): “We do find it sort of rather odd that there are quite a few people in bureaucracy who have ostensibly a salary of a few hundred thousand dollars but somehow managed to accrue tens of millions of dollars in net worth while they are in that position’.

“We had no idea we were going to find this much,” Trump said. “We have already found billions of dollars of abuse, incompetence, and corruption. Could be close to a trillion dollars that we’re gonna find.”

[U.S. AID: Flushing Trillions of Your Tax Dollars Down a Rathole](#) // [Judicial Watch Sues for Soros Documents](#) – Files FOIA Lawsuits Against State Department and USAID for Records about Funding and Political Activities of George Soros’ Open Society Foundations in Romania and Colombia*

This is what you’re working for today and then trying to come up with money for food, clothe your child, feed your pet(s) and a roof over your head? Been going on for DECADES while Republicans (majority of incumbents) chant every two years during the election circus season “We’re for smaller government!” “We want you to keep more money in your pocket.”

Right, while they vote for these MASSIVE spending bills for HHS, USAID, Federal Dept of Education, HUD (and more) – none of which are authorized in the U.S. Constitution. [Art 1, Section 7, 8.](#)

Since DOGE, the big bulldozer started digging, the Democrats have been screeching just the opposite as if they can just go pluck \$1 billion dollar bills off a tree to pay for all this unconstitutional spending. Borrowed debt. [Which countries own the most US debt?](#): “As of April 2024, foreign countries own approximately \$7.9 trillion in Treasury securities – or 22.9% of total US debt. The US government owes trillions of dollars in debt to foreign entities, including governments, central banks, companies, and individual investors. This debt

includes US Treasury bonds and other securities, which are popular as they are considered safe investments.” WE owe this insane debt, thank you CON-gress.

[DOGE says it recovered \\$1.9 billion in taxpayer funds ‘misplaced’ by Biden admin](#): “The Department of Government Efficiency (DOGE) announced Friday that it recovered nearly \$2 billion in funds “misplaced” by the Biden administration.

“The massive trove belonged to the Department of Housing and Urban Development (HUD), and was discovered a day after HUD Secretary Scott Turner launched a DOGE task force at his agency.”

And the biggest hypocrites screaming are members of the Democrat/Communist Party USA, the brain dead on garbage TV like the View, MSNBC, CNN and the various groups and organizations (NGO’s, religious organizations like the Catholic Church) who’ve scooped up hundreds of billions of dollars.

The waste is not surprising to me as I worked for DoD until I became a federal whistleblower in 1990.

I filed a fraud, waste and abuse charge with the AF IG *against my own job*. I knew I would lose my job and I did, but I simply could not sit around all day as a GS-11 on taxpayer’s money to do nothing. My stupidvisor wanted to get promoted from to a GM level so she created an invisible job so she could say she supervised one person.

The IG report took my side and while I had been transferred to contracting where I belonged (after I told them I was going to the media), nine months later – there’s the door. There were no whistleblower protections back then; they all covered each other’s ass. BTW: My first contract to send out for bidding was \$1 MILLIIION dollars for condoms for men in Pakistan. I wrote about it in my second book. **Tell me where in the U.S. Constitution, Congress or any of its agencies had the**

authority to rape us so males in Pakistan could have safe sex?

YOUR private information – including your SSN – up for grabs.

Back in 2005, the liars, crooks and thieves in CON-gress passed the so-called The REAL ID Act – another rung on the ladder to strip you of your God-given rights. Oh, there was a lot of chest-beating, huffing and puffing by some states to the extent the original date was postponed for ten years. Tenth Amendment issue. A long list of privacy organizations fought hard to defeat the Act, but it was passed anyway by scoundrels, dullards and fools in Congress.

The firm drop date is now May 7, 2025, but likely you were already issued one the last time you had to renew your license. I don't fly on any commercial airliners (since Nov. 2001) **but if you plan on visiting family, business or pleasure, without a state driver's license that's an official REAL ID, you will not be allowed on the plane.** There are a few exceptions like children under 18. DHS [provides guidelines here](#).

I wouldn't believe a word out of their mouths; remember whistleblower, Edward Snowden? [“When a crooked politician calls me traitor, ask yourself](#): who did I betray? The courts have ruled repeatedly that the programs I revealed were unlawful, and likely unconstitutional—a violation of your rights. If this is treason, what they call loyalty is a crime.” [National Whistleblower Center](#): Edward Snowden

States have made it optional due to the massive push back from Americans and state reps and senators who could smell the end game. However, it's a safe bet the majority of Americans have no idea that driver's license with a star or similar design on the top right side is a REAL ID.

Screechers and truly insane on the left in CON-gress are worried about your private information being exposed with DOGE doing all this auditing. Really? SSN's were never meant to be

used for anything other than a person's business with the SSA. But, CON-gress has refused to address the massive theft identity by removing the key to the safe. Hell, I even went after the states: [States contribute to theft identity, judges condone it](#), Sept. 14, **2014**. Crickets. "Hector Angel, Relative of Swift Employee: Everybody has to do what they have to do to make a living. I agree with that, that it's wrong. But at the same time, it's not, because, you know, we are human beings." [Lou Dobbs transcript, December 2006](#) explaining why it's okay to steal your identity.

"Some take offense when I refer to illegal aliens as liars, cheats and thieves, but that's exactly what they are. I don't care if he/she has been in this country five minutes or 50 years, illegals cheat their way into our country, they lie at every turn to steal our resources and jobs and destroy the lives of law-abiding Americans every day of the week. The states are not doing what needs to be done to protect our identity and personal information.

"In 2003, seven million Americans were the victims of identity theft: 19,178 per day, 799 per hour. Look how the numbers have jumped:" Rest at link.

In 2008, former Pennsylvania Rep. Sam E. Rohrer, (like Rep. Comer, Andy Biggs and a small number of others – honest and determined to save our country and states) wrote a column explaining in great detail the diabolical REAL ID (Emphasis mine): [REAL ID: Connecting the dots to an International ID](#), August 24, 2008. This is just the small sample of the truth regarding those "REAL" ID's from Sam's column:

"REAL ID also violates the Fourth Amendment's guarantee of freedom of privacy. First, by mandating the collection, storage, and dissemination of personally identifiable data without any informed consent, REAL ID tramples on this right. In reality, this practice constitutes government-sanctioned identity theft and seriously breaches the "security of person"

guaranteed to every U.S. citizen.

"No sufficiently compelling need exists to warrant government mass collection and storage of such sensitive information about its citizens. **Concern heightens even further when private corporations control the databases being set up to house this information.** As an example, L-1 Identity Solutions houses a database of U.S. driver's license information. This company, which has consolidated a virtual monopoly on the driver's license issuing market in the U.S., will handle all private information collected during the license issuing process.

"Secondly, REAL ID threatens freedom of privacy because this warehoused data cannot be confidently secured. Even the Department of Homeland Security's own Privacy Impact Assessment fails to guarantee that the database linking and networking that will result from REAL ID will be secure. Many privacy experts agree that REAL ID will actually increase identity theft! In reality, the database and access to it will create an electronic superhighway for potential mass identity theft...

"4- According to a June 28, 2008 New York Times article, US and European officials are nearly agreed upon a "binding international agreement" which would allow "European governments and companies to transfer personal information to the United States, and vice versa." Under the cloak of terrorism prevention, European governments could request "private information – like credit card transactions, travel histories, and Internet browsing habits" about American citizens.

"5- Homeland Security Presidential Directive 24 issued by the President on June 5, 2008, "establishes a framework to ensure that Federal executive departments and agencies use mutually compatible methods and procedures in the collection, storage, use, analysis, and sharing of biometric and associated

biographic and contextual information of individuals.” This step shows the President’s extensive authority and disregard for privacy in streamlining the biometric sharing process.

“6- The FBI is currently building a billion-dollar database to house an enormous amount of biometric data. While officially aimed at housing criminal and terrorist data, this database already retains finger prints, iris scans and other individual biometrics that the government collects on ordinary citizens. Who knows the extent of the private information that will be stored in this massive database? REAL ID-collected “face prints” are just one more piece of the data collection and tracking system.

“These examples only serve to underscore the aggressive global government efforts to track and control citizens. In every case, REAL ID violates the freedoms guaranteed by the Fourth Amendment.”

Hackers – toilet scum thieves – are hacking banks, hospitals and U.S. government agencies. YOUR SSN and other personal information are pure gold on the black market. Hackers from Communist China and other countries are very good at what they do and that’s destroy your privacy. *Hospitals are particularly vulnerable and contain not just your personal information but all your medical history.*

[I urge you to read Sam’s full column here.](#) Take the time because if you’ve been using a REAL ID driver’s license you’ve been harvested either by U.S. government agencies (the Internal Robbing Service, IRS farms out processing of tax returns which is why they wanted another 88,000 IRS employees) or grabbed and stored with the NSA and shared with who knows who in foreign countries to “fight terrorism”.

One last quote from Sam’s column (emphasis mine): “REAL ID also violates national sovereignty because any international system includes and requires agreements and obligations that

would weaken any sovereign standing. In fact, a Government Computer News report notes the following from Robert Mocny, acting program manager for the U.S. Visitor and Immigrant Status Indicator Technology program. **His quote comes from comments about a federal plan to extend biometric data sharing to Asian and European governments and corporations, so as to create a Global Security Envelope of identity management.**

“My question is, how is it ethical not to share?” Mocny asked. “It makes no sense for us to develop separate systems . . . information sharing is appropriate around the world.”

Of course, we want our SSN and personal information “shared” around the world!

Know what former PA Rep. Sam Rohrer, a really good man, got for exposing this globalist nightmare back then? When he ran for a higher office, heavies in the Republican party screwed him and made sure their choice – *not the voters* – won. Keep the “insiders” inside. Just like here in Texas where I live, conservatives and Republicans just got screwed again with a “new” Speaker of the House: [Outrageous Betrayal: Republican-Led Texas House Names Democrat as Speaker Pro-Tem, and Hands Half of New Subcommittees to the Left](#), Feb. 14, 2025.

Because of the backlash, all the states have their own rules about the REAL ID drivers license– many like [TX](#), [PA](#) and others you can opt out (will cost you a few \$\$), and order a new regular driver’s license, but again, forget flying domestically, won’t be able to enter some federal buildings and [the list goes on](#). All 50 states and territories according to DHS are now REAL ID “compliant”. And check with cruise lines if that’s your vacation choice.

Shove your compliant. My private information, banking and medical history is my business and not to be “shared” worldwide or anywhere else without my written permission. Yes, we have HIPPA which works *until it doesn’t*. One of the

reasons so many now use private planes or have joined 'hitch a ride' that depart and land at smaller airports.

I've looked into this and *you don't have to be wealthy to join*, just depends on your needs to fly from here to there.

[This flight-sharing service is like Uber Pool for private planes](#)

(Ticket cost might be a little higher now but with Trump back in the cockpit, [we will become energy independent again](#). Jet fuel should go down, but not by tomorrow.)

[A private jet charter is cheaper than you think](#). "JetSuiteX in the U.S., backed by JetBlue founder David Neeleman, offers a similar experience. It also aims to make luxury flights more affordable by letting you buy a seat on a private jet rather than chartering the whole plane. It runs a seven-day service between California and Nevada, and flights can be as low as 29 USD each way. The semi-private plane gives you the chance to cut out the impromptu marathon through a large terminal before your flight and relax in the JetSuiteX lounge beforehand which offers free drinks, snacks, and Wi-Fi. You can just walk straight through the French doors on to the tarmac where your plane will be waiting."

'Hitch a ride' is a growing industry for good reasons. You might wish to do some research and see if it meets your needs.

Oh, the denials will be worded the same regarding the REAL ID – IF you can get a human on the phone (your state rep, senator or AG), but Sam Rohrer knew what he was warning about in 2008. I'm all for the security of our nation and Americans, but giving up your privacy (without even being informed) for the illusion it will keep you safe is foolish IMHO. I know this REAL ID and flying to see grandma or for business is a real problem for those who cherish freedom and want to protect their private information. You can thank CON-gress.

For a thorough, comprehensive education on the Fed, the income tax, education, Medicare, SS, the critical, **fraudulent ratification of the Seventeenth Amendment** and more, be sure to order my book by calling 800-955-0116 or click the link, "[Taking Politics Out of Solutions](#)". 400 pages of facts and solutions. [Internet Searches for "Bleachbit" and Other Computer Cleaners Surges in Washington DC – Elites Are Panicked](#), Feb. 16, 2025: "According to Zero Hedge the number of searches for "Bleachbit" and other computer cleaners are surging this week in Washington DC. The crooks are attempting to hide their crimes."

Video Interview: [DOGE hit Democrats' 'Achilles heel': Alina Habba](#)

[REAL ID Act](#) – Title II, SEC. 202. MINIMUM DOCUMENT REQUIREMENTS AND ISSUANCE STANDARDS FOR FEDERAL RECOGNITION – Section 3(C) is a total failure with states unlawfully giving driver's licenses to illegals like handing out candy on Halloween.

Well, gee whiz. The guy has contracts with NASA and other sensitive agencies. Think Musk doesn't have heavy duty security clearance and his small team? [Federal Judge Rules in Favor of Elon Musk's Government Efficiency Team, Allowing Continued Access to Sensitive Records from Three Federal Agencies](#)

Progress: [Avoid Identity Theft: Protect Social Security Numbers/SSA](#) – companies are starting to use alternative ID numbers which with computers is not all that costly.” People’s lives are literally destroyed everyday by identify theft and that REAL ID as Sam wrote about will morph into an international ID with your personal information and key numbers – like bank accounts and your SSN – the key to the safe.

When I moved to Texas and called for energy provider, phone, etc., the first thing out of the agent’s mouth was: What’s your SSN? I said it’s against federal law to ask me for that number. Smooth as silk, okay. Pay \$80 deposit and if you’re not late on a payment for 12 months, your deposit is credited to your bill or refunded. They know but the American people by the tens of millions don’t and are so conditioned to giving out the key to the safe, they just give their SSN. Not me.

[65+ identity theft statistics to know going into 2025](#): In 2023, 47% of document frauds targeted national ID cards, 24% targeted passports, and 18% targeted driving licenses.”

[USAID Accused of Funneling \\$260 Million to Organizations Linked to George Soros’s Open Society Foundations](#)

[EPA head Lee Zeldin reveals no real oversight of shocking \\$20B that Biden admin funneled through Citibank: ‘Tip of the iceberg’](#), Feb. 13, 2025: “A \$20 billion Biden administration green-energy slush fund was collecting interest at a private bank and is being distributed without proper oversight, [Environmental Protection Agency Administrator Lee Zeldin](#) reveals in an exclusive interview.

“President Joe Biden’s EPA [parked \\$20 billion](#) at the financial institution, which The Post has learned is Citibank, as part of the 2022 Inflation Reduction Act’s Greenhouse Gas Reduction Fund. But the awardees weren’t announced until August 2024 and Citibank was not brought in until September – after Biden’s

disastrous June debate performance led him to withdraw from his re-election effort in July, making for a very different race with Vice President Kamala Harris the Democratic nominee.

“Zeldin’s team is looking into whether former EPA employees are working at any of the grantees, which include the Opportunity Finance Network (receiving \$2.29 billion), where vice president Laura Silverman says she brings “economic, financial, and social justice to communities,” and the Native CDFI Network (\$400 million), which has featured Sen. Elizabeth Warren (D-Mass.) as a speaker. Power Forward Communities, a \$2 billion recipient, has no list of employees on its website – but does have openings for government affairs VP, communications VP and special assistant.”

“Social Justice” has been a key mantra of the Communist International Party since the 1930’s. Swindled in the billions for the big scam: climate change.
