

San Diego School Board: CAIR To Help Teach Your Kids Sharia Law

By Senior Political News Writer, Jim Kouri

A school board in the United States that refuses to allow any symbols or images regarding Christmas and the birth of Jesus Christ, voted to allow an outside group of Muslim activists to begin the process of indoctrination of young American children, according to a former police official, Norman Thomas Gargan, who served as a training adviser in Iraq.

Members of the Board of the Unified San Diego School District voted last week to cooperate with the Council on American-Islam Relations (CAIR) in their introduction of a number of precepts of Sharia law in classrooms

throughout the school district, according to Gargan and other law enforcement sources.

“This is just the beginning, a test case to see if they get away with this. And believe me, it’s coming to your school next.” said Editor Paul Walter

“What amounts to out-and-out brainwashing of school children will begin with rationalizing such blatant religious indoctrination as be part of an anti-bullying program to

protect Muslims. The program, which is designed by CAIR, will probably find its way into other cities and towns within California," noted former police detective and security director Patricia Caramando. "It will spread – take my word for it – across the United States, which is part of their plan. The school board members sound as if they's watched MSNBC one too many times," she added.

According to the Homeland Security Department, about 25,000 refugees and their families have been resettled in southern California just this year. Many have also moved from their U.S. homes to the Golden State due to the generosity of state and city officials.

Det. Caramando added that she believes "San Diego is considered an excellent location for a variety of reasons to institute a Sharia-friendly base of operations for the already far-left-leaning California."

This is video of the statement by the executive director of the SD office of CAIR.

Whether they call themselves Marxist or not, the Board of the San Diego Unified School District is dominated by those who have a cultural Marxist mentality. On April 4, 2017 they voted to blatantly promote Islam in the public schools. These anti-bullying projects are just an excuse to indoctrinate the kids in a pro-Islam, anti-American ideology. This is the entire section of the meeting, in which they discussed this topic and made a decision.

Mr. Hanif Mohebi, the executive director of CAIR's San Diego facility, hails the anti-bullying program approved by the Board of the San Diego as a means to make SDUSD the most Islam-friendly school district in America (if done right, he says).

Mohebi is associated with the Islamic Center of San Diego, where the staff aided two of the 9/11 terrorists, who flew the jet liner into the Pentagon. Of course, it's often pointed out that CAIR was an unindicted co-conspirator in the Holy Land Foundation terror trial.

The United Arab Emirates has also designated CAIR as a terrorist organization.

On Monday, the nation's new Attorney General Jeff Sessions held a press briefing in which he reiterated the Trump administration's plans for dealing with criminal aliens. One of his points was the often quoted warning that any city observing a sanctuary policy for illegal aliens, especially criminal aliens, will very possibly lose some federal financial assistance.

While the Democrats, the news media and immigration activists were prepared to slam Sessions and his boss, President Donald Trump, they discovered that Sessions spoke about continuing some of the Obama administration's policies regarding immigration. Mr. Sessions' Justice Department underlings had also told reporters that any changes in policy or new executive orders will probably take place down the road.

Although the Obama administration issued instructions about immigration enforcement in July 2016 during the presidential race between Trump and the eventually defeated Hillary Clinton – including the stipulation that any cities applying for Justice Department grant programs must be in compliance with federal law including immigration enforcement – President Barack Obama and his minions did nothing to back up his proclamations or his verbal instructions.

Sessions noted that local governments applying for grants from the Justice Department will be required to prove their compliance. Sessions also said that the Justice Department in the future will look into additional measures for both federal and local government agencies.

“Fundamentally, we intend to use all the lawful authority we have to make sure that our state and local officials, who are so important to law enforcement, are in sync with the federal government,” Sessions stated during the televised briefing.

While Sessions appeared to keep his presentation low-key, he did warn local governments in the midst of adopting “sanctuary” status of the consequences of their actions.
