This is How Americans Respond...

"Necessity is the plea for every infringement of human freedom. It is the argument of tyrants; it is the creed of slaves." -William Pitt, The Younger

The Sons of Liberty Media have warned the people many times to either deal with the corrupt or the corrupt will continue to illegally strip them of their God-given rights. Read Article II, Section 4 and Article I, Section 3 of the U.S. Constitution.

Just recently, New Mexico Governor Michelle Lujan Grisham wanted to test her undelegated authority with the people in the state on account of the crimes of the cartel (Psalm 94:20).

If any would like to argue the matter, please make reference to the said governor's constitutional authority in making such an order.

Let me help you unravel this purposed confusion for you (Daniel 9:7).

Governors and mayors from across America are alluring illegals

to come into their states, giving them welfare checks off the backs of the American workers, handing them driver's licenses with verification, and when the illegals take the bait, they bring in their crimes and culture along with them.

Now, in this process, because of these crimes that are being committed, the said governor wants to blame the law-abiding gun owners for the crimes of the cartel by disarming them in the face of the criminals that these governors and mayors have allured into the state.

Lysander Spooner was right when he said, "To ban guns because the criminals use them is to tell the law-abiding that their rights and liberties depend not on their own conduct, but on the conduct of the guilty and lawless."

Instead of rounding up the illegals and deporting them back to where they came from like [President Eisenhower did in 1954 through "Operation Wetback"](#), this said governor wants to disarm the people in the face of a dangerous adversary in hopes of creating domestic insurrection, or worse, civil war; and this time, it completely backfired.

Sheriff says "No.!"

The truth of the matter is that modern-day politicians are doing everything that they can to undo what it is that our forefathers established, and their posterity needs to know what it is, and why it was that they did so.

It seems to me that the American people are beginning to understand why. Amen!
