

Socialism is Unconstitutional in the USA

It goes by many names, socialism, Marxism, Maoism, Leninism, Stalinism, communism, fascism, but it is all the same thing, [totalitarianism](#). The unbridled power of government to rule independent of the will of the people. It doesn't matter if it is forced upon you, or if you are foolish enough to vote for it. At best, they are progressive steps towards the same end, the end of individual freedom, liberty and justice, under the tyrannical rule of an all-powerful government.

In every case, these systems of government are “**unconstitutional**” in the USA. Efforts to institute these tyrannical systems requires treason against the United States. Yes, those promoting these things are guilty of sedition, subversion and treason... Anything and anyone trying to overthrow the [Charters of Freedom](#) is guilty of treason.

totalitarianism, “a form of government that permits no individual freedom and that seeks to subordinate all aspects of individual life to the authority of the state.”

In order to change the US Government into any *totalitarian* form, the Declaration of Independence, U.S. Constitution, Bill of Rights and all fifty State Constitutions must be destroyed forever. The [Charters of Freedom](#) must be overthrown. The same is true of any effort to institute Sharia Law in the USA.

If the U.S. Constitution is ever overthrown or no longer in force or effect, then government has no right to exist at all, as government is created and regulated by this document.

Yes, I know that most Americans do not know this...there's a lot most Americans do not know. How many Americans celebrated Constitution Day a few days ago on the 17th of September, or even knew it was Constitution Day?

But what I'm saying here is a fact... not an opinion.

We the People created the Federal Government on September 17, 1787, with the signing of the Constitution. The Federal government exists at our pleasure.

As my Mom used to say back in the day, "I brought you into this world, and I can take you out, just the same!"

In this case, our Declaration says so!
