

Socialist Democrats: Tearing Down America's Foundation

By Frosty Wooldridge

November 6, 2025

What are democrat-socialists? How close are they to Communists? How did a refugee from Uganda, who has never worked a day in his life, become mayor of the largest, most capitalistic city in America? What are the mandates of Mamdani's administration?

First of all, New York City houses 560,000 illegal aliens. American taxpayers pay for their food, hotel rooms, education, medical, crimes, trash, rapes, shoplifting, killings, car-jackings, and drug use. You may add that to 158,000 American homeless in New York City. All of them destroy America's foundation of laws, work, education and the Social Contract.

Mamdani wants to give voting rights to all illegal aliens to vote in city, state and national elections. Here we have a foreign refugee, a Muslim who follows Sharia Law, who wants to undermine and break America's voting laws. Now, he possesses the power to accomplish his agenda.

“The Democratic Socialists of America (DSA) is the largest socialist organization in the US. It has nearly 100,000 members and seeks to democratize society by “collectively own[ing] the key economic drivers that dominate our lives.” In other words, communism.

Margaret Thatcher, who brought Great Britain back from the brink of total collapse via socialism, said, “Socialism works great until you run out of everyone else’s money.”

Mamdani wants to “Defund the Police” as if NYC doesn’t have enough crime. He wants to multiply it. He promises “cashless bail” for criminals, repeat criminals, and illegal aliens who commit endless crimes. In other words, Mamdani, who immigration officials think defrauded his entry into America—wants to facilitate crime by making sure that criminals are not locked up. Just set them free after their crimes to repeat more of their crimes in the streets of New York City. That’s how nursing student Laken Riley was killed...let criminals go free so they can kill more Americans.

Foreigners Beginning to Take Over American Politics

"These two members of Congress, both Democrats, helped to bring Democrat Socialists of America (DSA)-style politics to the mainstream in the US. Ocasio-Cortez, who represents parts of the Bronx and Queens in New York, burst onto the scene in 2018 when she defeated incumbent Joseph Crowley."

If you have ever heard AOC speak, you quickly understand that she's the reason they place instructions on a bottle of shampoo. Back in college, we called such women "dingbats" or "helium heads." Guys with similar mental abilities were called, "Dorks." Formerly a bartender, AOC possesses the common sense and intelligence of a 2-watt light bulb. Yet, she's being

touted as a presidential candidate in 2028. But her district screams crime, hookers, trash everywhere, homelessness, unemployed and illegal aliens into the tens of thousands. She probably cannot solve a third-grade math equation of $3 + 3 = ?$

"Rashida Tlaib, a Muslim representing Michigan, is the first Palestinian-American woman in Congress and a self-identified democratic socialist. Also elected in 2018, she is a champion of universal healthcare. She is also a firm backer of the idea that unions should negotiate wage contracts." She also supports installing Sharia Law in America. She enjoys 300,000 Syrian Muslims in her district. When elected, she wrapped herself in the Palestinian flag rather than the Stars and Stripes. In other words, she does not subscribe to the U.S. Constitution. She uses it to further her Islamic Sharia Law agenda. She praised Hamas' slaughter of Jews. Those 300,000 Muslims in her district practice de facto Sharia Law replete with female genital mutilation of young girls and Honor

Killings. In other words, America's laws and Social Contract mean nothing to her or her Muslim constituents.

Please note that Muslims in Dearborn, Michigan chanted, "Death to America" during the Hamas slaughter of Jews on October 7, 2023. Note that you won't see an American flag anywhere in that Muslim community. But you will see the Jihad black flag, and 95 percent of those immigrants enjoy free housing and EBT food cards.

Have you ever wondered why 42 million people in America live off food stamps? Half of that number must be from legal and illegal refugees who lack the brains to work, the educational skills to work, and the cultural background to work. That's why they migrate from their hellhole countries to America where they enjoy a free ride. It's happening in Europe by the tens of millions of migrants. Every working man and woman in America and in Europe works to feed all those millions of migrants.

"Mamdani's platform, which argues in favor of rent freezes, fare-free buses and higher taxes on the wealthy, is at the more ambitious end of DSA's playbook, and is focused on addressing New York City's affordability crisis. Median rents in the city are \$3,400 a month. According to the latest available data from the US Census Bureau, the median monthly income for New York City households is \$6,640."

Millions of New Yorkers must pay for the homeless Americans and illegal aliens. Yet, they keep voting for people like Mamdani who wants to force them into further indentured servitude.

MORE FOREIGNERS DESTROYING THE FOUNDATION OF AMERICA'S ECONOMY OF CAPITALISM

A longtime climate advocate, Shrestha, who was born in Nepal, emerged from the grassroots wing of the DSA. She beat Kevin Cahill, the incumbent Hudson Valley Democrat, in a 2022

election.

How did that happen? Since 1965 when Teddy Kennedy opened the flood gates, 1,000,000 refugees annually, of the world into America with the Immigration Reform Act, we've been invaded by every person from 190 different countries with different world views, incompatible economic ideas, and incompatible cultural norms. Their numbers are well over 140 million people since the flood started in 1965.

We're now composed of the world's people, and the world's people do not think or act like Americans. We've doomed ourselves into thinking that "Multiculturalism" will always end up becoming Americanism. WRONG! You're seeing it play out right now in cities across America where foreigners who failed in their own countries are now instituting their "world views" onto our country...so that our country mirrors the countries they fled.

The more people we import with incompatible world views, cultures and languages...the faster we doom ourselves to "Civil War II." You can smell the violence that democrats scream to their constituents. Charlie Kirk's murder gives you an idea of what's coming.

Mamdani will not comply with I.C.E. or any of our Federal Laws. He will not abide by America's Social Contract. He will only abide by Sharia Law that drives him. Watch for Muslims to congregate deeper into NYC, its politics and its power positions. You are watching a parallel society erupt in our own country. As Americans move out, Muslims and Sharia Law move into the Big Apple. As you watch law and order break down, you will see stores like Macy's close. Convenience stores will close. Fast food joints will close. How do I know that?

Easy, I lived and worked in Detroit, Michigan in the 1980's when 1.2 million Americans fled the Motor City. The car-

jackings, murders at convenience stores, burned up cars, shoplifting, schools destroyed, and sheer terror drove people out of the city. To compensate for the crime and corruption and loss of people, Congress imported 300,000 Muslims and gave them free housing and food stamps. They're still on free housing and food stamps.

That's as long as you keep paying your taxes. Socialism is great until you run out of everybody else's money. New York City will most like repeat the nightmare of Detroit, Michigan.
