

Solution to DACA: Why We Must Stop All Immigration

“The stresses caused by population growth cannot be solved by international migration. They must be confronted by and within each individual nation. Fundamental to the concept of national rights and responsibilities is the duty of each nation to match its population with its political, social, and environmental resources, in both the short and the long term. No nation should exceed what the biologists call its ‘carrying capacity.’” Dr. John Tanton, www.TheSocialContract.org

The ultimate debate about DACA must be the end result of endless immigration. Journalists Ann Coulter and Michelle Malkin said sending DACA foreigners home ranked above MS-13 deportations.

Fellow American your members of Congress continue representing illegal aliens and other immigrants more than your interests—and you pay their salaries. They do nothing to stop 350,000 anchor babies from illegal mothers annually, 50,000 “free ride for life” diversity visas paid for your taxes and millions of chain-migrated immigrant relatives.

Vicki Martin of Clearfield, Utah offered this solution:

Martin said, "Illegal aliens follow the Mexican philosophy "No Reglas Fijas" (no fixed rules) in blithely committing three felonies to get American employment but certainly obeying "send children to school" law.

"Politicians caring more for foreign criminals than law abiding citizens are complicit in creating a 12-20 million illegal alien population.

"The 12-20 million illegal aliens in America steal jobs from our most vulnerable entry workers— disabled, ex-con, low educated, minority, vets and youth. CNS News reports the unemployment rate of black youth is 393 times higher than the national rate.

"DACAs can prove they love America and become LAW ABIDING by returning home and applying to participate in President Trump's immigration based on the needs of American economy.

If there's no criminal behavior and if they have the experience and education we NEED they could become legal immigrants. It would be a shame to waste over \$100 Billion yearly of taxpayer funded social services stolen by illegal aliens. NPR reports education purloined by illegals averaged \$10,615 yearly per student in 2012.

"Compassion, mercy, forgiveness are virtues performed by individuals toward their abusers. Governments must enforce their laws to maintain order and safety for citizens. We are supposed to be a nation based on constitutional laws. Representative Barbara Jordan emphasized the first responsibility of a nation is to control who enters. Congress has responsibility to make immigration laws.

"Obama's petulant executive DACA orders circumvented Congress and are illegal and un-constitutional. His non-enforcement of immigration law has created more international gangs, human trafficking, drug smuggling, job loss for American workers, and murders such as Kate Steinle killed by a five times

deported felon. It is a travesty and misplaced “compassion” for organizations like Holy Cross Ministries to support perpetration of these sins.

“Senator Schumer explains DACA workers contribute 1/40 of one percent to US economy. We can get by without that income—and without paying their social services.

“It’s a win/win/win solution: our Constitution is upheld, qualified DACAs can return legally, and jobs will open for American workers.

“We must also enforce US Code 8 1324 to penalize employers hiring illegals and US Code 8 1182 to deport undesirable foreigners.

“Please ask your congressional delegation to sponsor this legislation and encourage Mia Love and the 46 other Black Caucus members to support their community by sponsoring this solution.”

The reason or DACA? Your two senators and House reps refuse to pass E-Verify to force employers to hire American citizens at a living wage. They would rather make the employers rich with 21st century slave labor and you poor by making you pay for their education, health care and food stamps.

If you take 800,000 DACA kids X’s \$10,000 to educate them annually from K through 12th grade, that’s into the billions of your tax dollars. Add the free breakfasts and lunches, we’re talking about a vacuum cleaner hose attached to your paycheck to suck it out of your family’s hands.

End result: endless illegal aliens dragging their kids across the border to make you pay, and pay and pay.

In a five-minute astoundingly simple yet brilliant video, “[Immigration, Poverty, and Gum Balls](#)”, Roy Beck, director of www.numbersusa.ORG, graphically illustrates the impact of

overpopulation. Take five minutes to see for yourself.
