

# Something Is Seriously Going Wrong in Our Country

Are you scratching your head with what happened at a restaurant Saturday night in Southport, North Carolina? I mean; Nigel Max Edge, 40, suffering from P.T.S.D., killed three and wounded five as they sat down for their evening meal.

On Sunday, another crazy person shot up a church in Grand Blanc, Michigan. He reportedly killed three and wounded seven. Several of the victims cling to life by a thread. After crashing his car into the church, and killing those people, he lit the church on fire. It burned to the ground.

In Chicago over the Labor Day weekend, 58 shot and ten deaths, which is pretty normal for a weekend in the "Windy City." And yet, its illustrious Mayor Johnson, the epitome of incompetence, refuses to allow the National Guard to patrol Chicago's deadly streets. In fact, Governor Pritzker will confront any National Guard troops in the city...in other words, he supports the continuing violence in Chicago. As a side note, Chicago continues as a "Sanctuary City" where drugs, guns and human sex trafficking accelerate to unprecedented levels.

If you wander over to Dearborn, Michigan, you've got an all-Muslim city council and mayor, and 300,000 Muslim imported immigrants. They have taken over the city from Americans. They

all live on welfare provided by you, the American taxpayer, but they never fly Old Glory or possess any affinity for the U.S. Constitution. At the meeting a week ago, an American Dearborn resident asked the city council to stop supporting Hamas and Hezbollah. To which the mayor, a devout Muslim, said, "You may live in Dearborn, but you are not welcome here." The American Dearborn resident was referring to the fact that the Dearborn Muslims chanted, "Death To America...." over October 7, 2023 slaughter of Jews in Israel. Never forget that Muslims want to exterminate every single Jew off the planet.

If you slide west into Denver, 200,000 illegal aliens (Source: Report by NPR) enjoy housing, food, schooling, and medical care in that sanctuary city run by Mayor Johnston and Governor Jared Polis, both of whom promote open borders and illegal aliens, violate the State Constitution and the Federal Constitution every day they sit in office. Never mind that we, the American taxpayers, foot the bills for those illegals. But, somehow, our laws don't apply to our elected officials. Both our U.S. Senators, Hickelooper and Bennett, did nothing to stop over 15 million illegal aliens to violate our borders during the Biden years.

And, we're facing a financial shutdown by Congress. Instead of working together for us, the American people, they fight among themselves—accomplishing little.

You can't help but wonder, "What is wrong with our elected leaders?" "Do they want to destroy our country as fast as possible?" "How do they think 25 to 30 million illegal aliens are good for our country?"

Out there in Los Angeles, Portland, Oregon and Seattle, Washington, you've got governors and mayors supporting rioters who attack I.C.E. agents and U.S. Border Patrol officers doing their jobs to eliminate those millions of criminal illegal aliens.

Today, through Attorney General Pam Bondi, we know that Hillary Clinton along with former head of the FBI, James Comey "cooked up" the Russia hoax against Donald J. Trump. The intense corruption at the FBI and CIA takes a person's breath away. Hopefully, the new FBI director has changed that corruption toward a positive result.

We still don't know anything about that 19 year old kid that missed Trump's head by a millimeter in Butler, Pennsylvania.

As you wander down recent American history, you've got a 22 year old college kid in Luigi Mangione executing a Health Care CEO on the streets. Just walked up behind him and shot him dead!

What about that kid who just shot up an ICE van with intentions to "inflict total lethality and terror" on ICE agents. Instead, he killed one illegal and wounded two others. At 29 years of age, he killed himself during the incident. What in daylights is going on inside these peoples' heads?

You still may not be able to wrap your head around Robin Westman, 23, transgender guy, shooting up a church full of kids praying in the pews. He killed several and left that Minneapolis community in horror.

To this day, it causes this journalist a sickening feeling in the pit of my stomach that Laken Riley, Kate Stinle, Jocelyn Nungaray, and dozens of other women who have been raped and killed by illegal aliens not only allowed into our country by Joe Biden, but kept in our country with impunity by our own elected officials.

It's these same leaders that gave us 13 deaths pulling out of Afghanistan without a withdrawal plan. General Milley MUST be the most incompetent general in the history of America, and Joe Biden the most worthless president in our 250 year history.

And now, we've got democrats defending illegal aliens. How stupid was U.S. Senator Van Hollen bringing back Kilmar Garcia, a known MS-13 gangbanger, illegal alien, trafficker and wife beater! We've got democrats defending sanctuary cities. We've got democrats defending men competing in women's sports. How absolutely insane is the NCAA for supporting that madness? Future historians are going to pound their heads on their desks trying to figure out "what and how" these liberal nut-bags do for common sense let alone brains, critical thinking, and ethics.

Even the A.C.L.U. represents illegal aliens and terrorists that we are trying to deport out of our country.

Have you ever asked "how and why" do we allow internal terrorists groups like "Antifa" to operate against our laws? Every single one of those thugs needs to be slammed into a jail cell.

Let's face it, we've had death threats and real deaths of our elected officials like the couple in Minnesota. We watched another nut job execute two Jewish students who were about to get married right in front of the Holocaust Memorial.

This commentary only touches the surface of the chaos, mayhem and violence going on in our country. We're in serious deep trouble with violent rhetoric by guys like Schumer, Jeffries, those total nut-bags House Members Jasmine Crockett, Ilhan Omar, Rashida Tlaib, Maxine Waters, Sheila Jackson...leading them all, AOC. You must have heard that AOC leads all contenders for the democrat presidential ticket in 2028. AOC hasn't got the brains or common sense that God gave a goose. When it comes to her possible VP running mate, Jasmine Crockett, that God gave a cricket!

And then, New York City is about to elect a Communist-Muslim from Uganda, Zohran Mamdani. He's against EVERYTHING American. He's against our Constitution because he only worships and

follows the Quran as the final solution. He's in favor of honor killings and female genital mutilation. He's against capitalism, which has built this country and our entire civilization. He follows Sharia Law, which violates every principle of our Constitution. He's totally incompetent to run the financial capital of America.

What's so incredibly stupid: all the dumb people that will vote him into office. The collective of voters voting for Mamdani must have IQ's somewhere in the vicinity of a cockroach.

If the American people don't start voting intelligent, reasoned, competent, ethical and All-American officials into office across this land, we will become a Banana Republic. We may already be there! Finally, a whole lot of things are seriously going wrong in our country. We need to change course. We need to stop ALL immigration for starters.

We will fail as a civilization if we continue on this path.
