

Speak Out and Your Career is Over

By Karen Schoen

August 8, 2023

If schools taught reading writing and math we wouldn't need Affirmative Action. It is much easier to yell race as an excuse for students not doing the required work. Affirmative Action is a quest for mediocrity just look at the administration and listen to Hollywood propaganda. What problem they created did they solve? Much easier to blame race. If you speak out, you may be canceled but by whom? Some nameless faceless BOT? Who care what they say about you.

I was thinking about all of the changes I have experienced in my life. It is amazing to me how unique, different parts of the country are and how advanced Americans are today. This evolution happened in such a short time. We innovated, created and invented. The problem was as we advanced we got busy keeping up with the neighbors instead of building our own path. The Globalists education will make sure that building your own path is never an option. You will not be able to control your destiny. You will not be able to have an independent thoughts. Creating your own path was taken away from our children. They must now comply or be canceled.

Movies were a big part of the Globalist propaganda through entertainment program . When I was a child, many of the movies followed a historical book and we got to see our hero character become real. Movies helped us learn about the past, escape, or just get an idea to figure something out in our

lives. So many American heroes were memorialized. We had great role models to emulate.

As a child I learned history by reading books and then seeing my heroes on the big screen. We saw a glimpse of America from the beginning. We even got to see what the American landscape looked like as new areas were discovered. Although we may never get to see those historic sights in person, they became real on the big screen. We learned about a new career, got some fashion ideas, learned that maybe my family wasn't that bad. Movies became a great way to learn and escape. They were fun.

Between the lies of MSM and the Woke messaging of Hollywood, movies and TV are not that much fun any more. The movies used to show America in a positive light. We loved our Family, G-d and Country no matter where you lived you felt the camaraderie of being an American. It was so exciting to see America come to life. The heroes of yesterday were HUMAN. Children could emulate the hero they loved. Today the heroes are animated. Children do not become motivated to become a comic figure. If there was a problem the hero figured out how to solve it. You learned from that solution. You were allowed to root for the hero.

What a sad difference in the movies today. I hardly watch anymore. Movies are packed with lies in order to change the culture. Lies have become so normalized that telling the truth becomes a punishable offence. The lies have a message of wokeness which means eventually I will be called a racist, domestic terrorist or someone trying to destroy the planet. All lies are designed to reinforce the message the government uses promote chaos and to stay in power. All I can think of is what a waste of my time. I haven't been to the movies for years until, "The Sound of Freedom". Highly recommended. For an escape we are reduced to watching old movies or old series because these have no woke messages.

I love the climate predictions that often becomes the prime message. According to the Globalists the earth has died so many times I can't count. They lie. Stop accepting their lies. Basically the Globalist believe we are too stupid to notice how they are manipulating the message. None of their policies affect the weather, so why are we following them? Might as well just take your tax dollars and throw them in the garbage. Climategate policies are designed to promote socialism aka communism and steal our money for their donors who have invested in green companies that will just go out of business. Pushing electric only, doesn't work. Because of a poor science education people have no idea you need fossil fuel to generate electricity. So if they get rid of fossil fuels, where will electricity come from? There will not be enough power and the grid will fail. So for no reason except control we will suffer brownouts and blackouts. That is the idea. According to Sir James Lovestock, contributor to Agenda 21, *"The big threat to the planet is people: there are too many, doing too well economically and burning too much oil."* – BBC Interview. Lovestock a British scientist wrote about the dangers of CO2 and GAIA worshipping.

So the Globalists have designed 15 Minute Cities. Everything they think you might need will be in a 15 minute (approximately 1 mile) walk. That will be a lot of fun in the Florida heat or the NorthEast cold. Your new prison in the lie of saving the planet. You won't be able to travel. The new cities have NO Airports, planes will not be built. Mass transit will be your only mode of transportation. Of course if you are a member of the team sending the message like Hollywood, these restrictions will not affect you. Everything you touch will have a carbon credit number attached and before you can purchase anything your carbon credits will be swiped. Not enough credits for the purchase tough. Of course you can sell your credits to so rich dude so they can enjoy their lifestyle. What does this do for the climate? NOTHING. What does it do for the average American? It restricts our activity

and transfers our money to the already corrupt rich so they can dream of more restrictions. Restricting CO2 will ensure that plants will not grow and there will not be enough food. Then the Globalists can restrict the population because there will not be enough food. See how that works.

Hollywood, we need more movies like the Hunger Games, for this is where we are headed. If the Hunger Games is our future, What can we do?

Vote in election cycles, copy the DNC playbook and change the outcome. The GOP has NO plan so it is up to us to create one. [Fortunately the DNC gave us theirs.](#)

Vote with your wallet. You can make a difference. remember Target, Budwiser, Bed Bath and Beyond, etc. People all over the world are protesting. Just because it is not reported doesn't mean it is not happening. Of course the Globalists don't want to know you are not alone. It is up to us Check out the people that created that film before you go and see it.

Who are the actors, directors, producers? Are they the ones that hate you and tell you to your face they wish you were dead. They want to blow you up. Why would you continue to give these people your money? Voting with your wallet works. Not only should you look at products you're buying, you should also look at products you're investing in. Be careful of green stuff. Remember Solyndra. Don't let them fool you there's more of us than them..

Globalists only care about MONEY, POWER and CONTROL. Don't give them yours. Boycotts work. Stop using their services and products. Vote the RINOS out. Vote with your fingers and with your wallet. There is a lot you can do. Check out <https://publicsq.com/> Look for quality products from American manufactures. Share the information below.

Get your kids out of the indoctrination clinics masquerading as Public Schools. Check out goflca.org MicroSchools.

Remember: Everything is connected. Nothing is random, Everyone follows the same plan. ALL PLANS ARE BASED ON LIES. Globalists must control opposition. Globalists must take away our voice.

Globalists only care about MONEY, POWER and CONTROL. Don't give them yours. Boycotts work. Stop using their services and products. Vote the RINOS out. Vote with your fingers and with your wallet. There is a lot you can do.
