

# Special Counsel: Fruit From The Poisonous Tree?

Release of the Comey memos has shaken Washington, DC's establishment elite. The one person who should be shaking is dirty cop, James Comey. A 6'8" narcissist who has over-estimated his own intellectual level.

Over the past months since his very public firing, Comey's hubris comes only second to the impostor president, Barack Hussein Obama. The old saying comes to mind: 'Be careful what you wish for'. Comey has walked into his own trap.

Predictably, the fake media (*ABC, CBS, NBC, MSNBC*, big city newspapers as well as popular 'left sites') has been either eerily silent or have for the most part sanitized this earthquake. They have failed while citizen investigators as well as 'government watchdog' groups like Judicial Watch have been relentless in getting the truth exposed regarding the trumped up 'Russia collusion' hoax.

(And, by the way, since collusion is NOT a crime, why was a Special Counsel even appointed?)

Too many Republicans have distanced themselves from Trump or have worked diligently to kill his efforts to fulfill his campaign promises to the American people who elected him. A number have come out forcefully demanding Mueller be protected from Trump! Really? Mueller is as dirty as Comey.

If you missed Kelleigh Nelson's superb column last week, read it and get it distributed to your email lists, post on Facebook pages and get the link out on Twitter. [Kelleigh's column](#) rips the mask off of their phony faces.

The American people – with the exception of the brain-dead loyalists out there to the Democratic/Communist Part USA – are

fed up with the whole 'Russia collusion' manufactured scandal. It's taken a while but the truth has slowly trickled out and I believe the damn is now too compromised to keep the flood contained.

I have been a harsh critic of Rush Limbaugh and Sean Hannity over the years for being nothing but water boys for the GOP. However, I always give credit where credit is due. I believe a few years ago both of them had their own personal epiphanies about the Republican party and their role in the swamp.

For months both Limbaugh and Hannity have been dissecting and hammering on this criminal cabal of high ranking individuals in the FBI and Justice Department. Hannity gives it double time each day with his radio show and anchor slot on FOX. Uranium One is next to explode.

This entire mess does go to the top when Barry Soetoro aka Obama was masquerading as our president and Hildebeast Clinton as our Secretary of State and during her miserable failure as a presidential candidate. Both usurped the offices they occupied through fraud and deceit.

This whole cauldron of deceit and lawlessness is rather convoluted with numerous players. Sometimes it's overwhelming – especially if you hold down a full-time job, have family commitments and sometimes are just too darn tired to sit and read what you might wish to on this massive corruption by the highest up in the FBI, CIA and Justice Department.

That's why I urge you to watch three *short* videos. They are concise and spell it all out. If you are unfamiliar with Joe deGenova who is in the first two videos, here's a very short bio:

He was a United States Attorney for the District of Columbia. [While there he](#) "supervised federal criminal and civil matters involving international drug smuggling, public corruption, espionage, insider trading, tax fraud, extradition, the

Racketeer Influenced and Corrupt Organizations Act, export control, and international terrorism.”

deGenova was the Independent Counsel who investigated the snooping into of Bill Clinton’s passport records before his election by officials of the George H.W. Bush Administration. deGenova is married to his law partner, Victoria Toensing. I became familiar with both of them back in the 90s.

deGenova is one tough man who is not afraid of the slime in Washington, DC. He calls it as he sees it – like boldly stating Deputy Attorney General Rod Rosenstein, should be fired and why.

Does Jeff Sessions have the stones to do it? Don’t hold your breath. **Session’s has shown himself to be nothing but a squishy, gutless nothing as Attorney General.** About ten days ago Sessions and Rosenstein were seen having a nice dinner together.

Do us all a favor, Jeff: Resign and go home. You’re in over your head and simply do not have the internal fortitude to play with the big boys in a deadly serious legal shoot-out.

In these videos deGenova’s statements are based on his years of experience and in my humble opinion, worth gold compared to some of the baloney from so-called ‘experts’. Videos:

We now know the memos Comey released contained classified information. Put him in jail.

We also know Comey, with deliberate malice and intent, leaked at least one of those memos to a friend of his to get it into the media for the sole purpose of triggering a special counsel to go after President Trump. Of that, there is no longer any doubt. He and he alone would save Hillary Clinton and all his

rotten comrades from the evil Donald Trump.

### [Nunes, Gowdy And Goodlatte Go Nuclear After Comey Memos Released](#)

[“We already know](#) that Comey’s leak to the press was illegal – as the FBI’s chief FOIA officer, David Hardy, gave a sworn declaration to *Judicial Watch* in which he says that ***all seven of Comey’s memos were classified at the time they were written, and they remain classified.***

“Perhaps most disturbing is that James Comey’s memos **do not make a compelling case for obstruction whatsoever – which Deputy AG Rod Rosenstein** (who Comey said [“I didn’t have confidence”](#) in), **used to launch the special counsel investigation headed by former FBI Director Robert Mueller.**

“In response to the Comey memos, Congressional Committee chairs Devin Nunes (R-CA), Bob Goodlatte (R-VA) and Trey Gowdy (R-SC) **fired off a [scathing rebuke](#), in which they made it abundantly clear that the Mueller investigation is a farce based on yet another example of the FBI using a flimsy document to launch a politically motivated investigation.”**

We’ve all seen shows like Law & Order, CSI and others where a cop or someone from a forensics lab moves too soon and seizes alleged evidence before a proper search warrant is issued. Or, a crooked law enforcement type knows the ‘evidence’ is either false or tainted and moves forward anyway. Either way it all gets thrown out of court because it’s considered ‘fruit from the poisonous tree’.

[“Comey gave his friend Daniel Richman](#), a former federal prosecutor who is now a law professor, four memos, people familiar with the situation said. At the time, only one contained information considered to be classified. Last year, while testifying before Congress, Comey told lawmakers that he gave the memos to a friend to share with media because he didn’t want to do it himself.

"My judgment was, I need to get that out into the public square," Comey said during his hearing last year. "I asked a friend of mine to share the content of the memo with a reporter. Didn't do it myself for a variety of reasons. I asked him to because I thought that might prompt the appointment of a special counsel."

Needed to get out in the public square? What? BS about Trump and some whores peeing on themselves over in Russia? Never happened. Trump colluding with Russia during the 2016 campaign season? Never happened.

Mueller needs to shut down his phony "investigation" that has produced NOTHING except cost us millions in more debt. All he's done is expand his authority going after others like Manafort and Trump's *attorney* and friend, Michael Cohen, in an effort to nail Trump. Mueller will threaten him with life in prison if he doesn't roll on Trump. You watch. The same kind of threats which ruined Gen. Flynn's life.

All based on lies. Lies of omission to the FISA Court judges and a manufactured piece of garbage known as the 'Steele Dossier. And, in the midst of all this enters a female who has been selling her body for money since age 17, Stormy Daniels.

At Cohen's court appearance who shows up but opportunist, Stormy Daniels, a badly aging stripper out for fame and big money. Who would pay a nickel to see her naked? Suckers out of curiosity while she laughs all the way to the bank.

Seriously, her 40 years have not been kind to her so she's going for the brass ring while she can. Made 140 'adult' films. In other words, filthy porn for anyone with a buck can watch. Like her 7-year old daughter who can watch her naked mother having oral and vaginal sex with a parade of men on screen. What a great role model for a 7-year old little girl.

Comey is out to get Trump. He commits a felony using a back-door source he knows because he wants a Special Counsel. Since

that foolish idiot, Jeff Sessions, recused himself faster than lightening, I believe Comey thought he could get away with political murder.

What Comey's actions have done – along with all the other co-conspirators – is sully the reputation of the FBI, ruin people's lives with Mueller pulling the legal strings and try to embarrass and destroy a legally elected U.S. president.

What should happen? What I believe anyone caught up in this nightmare, including Manafort and Cohen, is go for the fruit of the poisonous tree. Everything thrown out and Mueller shut down his politically motivated, corrupt mission that was never about the truth or justice. While I could be wrong, Mueller's appointment was illegal because it was based on lies and instigated by someone who committed a felony to get a Special Counsel appointed – a good friend of Comey's who could be relied on to go for the throat.

We shall see but now that the cat's out of the bag, I think things are going to accelerate – not as fast as we'd like. But, maybe the people's time for justice is finally unfolding.

I'll leave you with another short video I hope you watch. It's Judge Jeanine from FOX and it's a doozy.
