

# States Have More Constitutional Power than the Faux Federal Government

## **States are the Only Means to Regain Our Republic, Short of Civil War**

This title is absolutely true in all respects. The States are our only hope; they are Sovereign with far-superior Constitutional powers than the Federal Establishment, which is a creature (creation!) of the states, and is limited to only a few Enumerated Powers in the Constitution, the Supreme Law of The Land. It is reported that 75% of the federal laws passed since 1913 are unconstitutional, which means the federal government is mostly lawless!

The State Governors are our only hope to save our Republic, short of a civil war. But Governors are just like legislators in that they refuse to honor their oaths of office, ignore their Constitutional Oaths, and accept financial support from the Parasitic Super – Rich Ruling Class (PSRRC). Governors live in deadly fear of the PSRRC's ability to remove them from office, or suffer the fate of President John F. Kennedy.

Today, probably the most popular governor is Ron DeSantis of Florida. The PSRRC media has been promoting him for years, which makes me suspicious. He has gotten national coverage on everything he has done for Florida, which is also suspicious.

Don't get me wrong! He has done many good things that please the people of Florida. But he has done nothing to antagonize or challenge the PSRRC, except his actions against Disney, which he is now backtracking on. I wonder why? You must give Governor DeSantis credit for being the best at public relations.

I think Governor DeSantis may be the best of the worst, because neither he nor any other governor will exercise the superior sovereign power of the states to force the federal establishment to return all of the usurped powers to the states. Border Governors could and should use deadly force to repel invaders that are destroying our Country. Anyone who gives aid and comfort to invaders is guilty of Constitutional Treason!

Recently Governor DeSantis stated that the Federal Government was concentrating too much power in Washington, and that departments should be moved to other parts of the country! I take serious exception to this statement because either he doesn't know that a majority of federal departments are in fact unconstitutional usurpations of state powers, or he is supporting the interests of the PSRRC.

Neither Governor DeSantis or any Governor has the balls and independence to kick the unconstitutional federal departments out of their states. Governors who fail to take back what are Constitutionally state powers are not qualified for state or higher office!

I challenge Governor DeSantis to obey his Constitutional Oath and kick the following unconstitutional departments out of his state and the federal government:

- 1- Secretary Marty Walsh, Department of Labor, 200 Constitution Ave. NW, Washington, DC 20210
- 2- Secretary Tom Vilsack, Department of Agriculture, 1400 Independence Ave. SW, Washington DC 20250

3- Secretary Xavier Becerra, Department of Health and Human Services, 200 Independence Ave. SW, Washington DC 20201

4- Secretary Miguel Cardona, Department of Education, 400 Maryland Ave. SW, Washington DC 20202

5- Secretary Jennifer Granholm, Department of Energy, 1000 Independence Ave. SW, Washington DC 20585

6- Secretary Pete Buttigieg, Department of Transportation, 1200 New Jersey Ave. SE, Washington DC 20003

7- Secretary Marcia Fudge, Department of Housing and Urban Development, 451 7th ST. SW, Washington DC 20410

If Governor DeSantis really wants to demonstrate his knowledge and that he supports the people and doesn't owe his allegiance to the PSRRC, he would work to replace income tax with tariffs, which would return factories to America and guarantee everyone a living wage.

If Governor DeSantis could do these things he would have proven himself to be a great governor qualified for any position in our Republic.

Every other avenue to regain our freedom and our Republic has failed. Our elections are corrupt and ignored by the complicit courts, the corrupt Department of Justice, FBI, Legislators and most federal agencies. The Parasitic Super-Rich Ruling Class (PSRRC) and their Communist minions in 'woke' corporations and government own the media and their Antifa Brown Shirts that burn our cities and kill people. Most of our legislators are fat, dumb and happy in their bribed condition, ignore their oaths of office, and are a useless disgrace to the Republic. As you can see, the PSRRC and their Communist minions in 'woke' corporations and government are usurpers of our Republic and Enemies of the People, ruling

by the barrel of a gun and not by the Constitution. Usurpers have no legal standing whatsoever!

The problem is how to expel these miscreants before the people have nothing more to lose, and rebel in a killing fury like in the French Reign of Terror. Conditions in America are rapidly approaching those that caused the Blood Bath in France.

**A really great Governor could save this country from Civil War**
